JOB WORK neatly executed at the RE-
PUBLICAN Office

LOCAL AND MISCELLANEOUS.

—Rev. A. O. Stone will preach in
the M. E. Church next Sunday evening.

—M. E. Sunday School at 10 o'clock
a. m., and Presbyterian Sunday School
at 3 o'clock p. m.

—The immediate vicinity of Clar-
ion boro is being tested for oil.

—Plowing has commenced, and
early potatoes are being planted.

—The Pa. State Fair will be held
at Washington, Washington county this
year.

—Knox's mill started up last week.
They have logs to keep them sawing
several weeks.

—We treat our readers to another
"Supplement" of interesting reading
matter this week.

—Col. Reisinger of the Meadville
Republican favored us with a call one
evening last week.

—Mr. and Mrs. J. K. Brush were
united to the Presbyterian Church,
last Sabbath morning.

—Work on the new court house at
Ridgway, Elk Co., has commenced.
It is to be built of brick.

—Misses Jessie and Grace Davis of
Warren, are visiting in town, the
guests of Miss Maud Davis.

—The Tidouite Gossip, amateur, has
changed hands, Mr. W. F. Jones having
sold out to Mr. Chas. Morrison.

—Some more new signs are visible
in the last few days. The Bank, Tate
& VanGiesen, and Swailes have all
been "signed."

—James Swaverly has fenced in the
vacant lots back of the Court House,
and will raise a crop of some kind
there this summer. Potatoes no
doubt.

—The last three or four days of
pleasant weather, have had the effect
to dry the roads up considerably, and
the teaming is becoming more brisk.

—Last Sunday was a most pleasant
day, and we fear a great many of the
speckled beauties were allured from
their native element by the sinful
angler.

—The first string of trout which has
come under our notice, was one con-
taining thirty, captured by Jas. Hulings
on Saturday. Jim merely let us see
them, that's all.

—The Lawrence House has received
a fresh coat of paint inside; some new
paper has been hung; the doors and
panels have been nicely grained, and
things freshened up generally.

—Mr. Robinson having purchased
the old Ensign lot, on the bank of the
back channel, is putting a fence
around it, preparatory to raising some
garden truck there this summer.

—Will. Hulings, who has been at-
tending Commercial College in Louis-
ville for some time past, has gone to
Nebraska to seek his fortune. Hope
you may have success, "Beason."

—Tionesta has not been blessed, or
bored with an organ-grinder, yet this
season. When these knights of the
crank have been starved out every
place else they will then light down
upon us.

—A large boiler belonging to Ford
& Lacy passed through town yester-
day, en route for Red Hot Mills. It
is intended to take the place of the
one which exploded with such disas-
trous results last fall.

—Among the arrivals at one of the
hotels in Oil City, on Monday, as pub-
lished in the Derrick, we notice "Chas-
Bowser and ladies, of Tionesta." We
were not aware that such a person
lived in Tionesta.

—The Clarion Republican of last
week hoists the name of U. S. Grant
for President in 1880. Although per-
haps a little premature, we think, from
the present outlook, the Republican
has just about guessed it.

—A bill to lay a tax on oil rigs is
receiving considerable attention in our
legislature. If such a bill were to
pass it would effectually stop develop-
ments in Forest county for some time.
We fervently hope Mr. Wheeler will
use his vote and influence against the
measure.

—Mrs. Donovan requests us to state
that she will open an Ice Cream par-
lor at her residence, in Mr. Agnew's
house, above the Court House. She
will have fresh ice cream every Tues-
day and Saturday evenings, commencing
next Saturday, and all who wish
to enjoy a pleasant walk, and refresh
themselves with a nice dish of ice
cream can do so by calling on her.

—Messrs. Jamieson & Copeland are
running their stave mill, on the Woods
tract, day and night.

—For the benefit of the fair sex and
young lovers we will state that trail-
ing arbutus is in full bloom.

—Engineers are at work surveying
the route of the new railroad from Ship-
penville to Bradford. The road will
be rapidly pushed forward to comple-
tion this summer.

—Judge Boggs died at Kittanning
last Friday night, very suddenly. He
was President Judge of Armstrong
county, was about sixty years of age,
and well and favorably known in that
section.

—Talk about quick trips and fast
running, Messrs. Halings and Roupe
started a raft here on Friday afternoon
at 2 o'clock, and landed in Pittsburg
on Saturday evening following in time
for supper.

—Gen. John A. Dix, ex-Governor
of New York, and a great statesman
and military man, died at his home in
New York, on Monday evening. In
Gen. Dix's death the country loses a
truly great and noble man. He was
in his eighty-first year.

—A couple of velocipedes mounted
by boys, and passing a fractious horse
in front of the Central House, yester-
day, came near furnishing us with a
first-class local item. The blamed
strap with which the animal was
hitched was too strong.

—Will. Wanzor wears the sucker-
belt. Last Saturday night he built a
fire on Hunter's island, opposite the
Rural House, and set up for an all-
night siege. He brought in a string
of thirty, from which we would infer
that his plan was a suck-cess.

—Mr. Kepler will soon commence
the erection of a new house on the site
of the one recently burned. It will
be built of brick, and Mr. A. R. Paup,
who built Mrs. Thomas' mansion, has
the contract for putting it up, which
is sufficient guarantee that it will soon
be completed.

—Mr. Wm. Richards, jobber for
Messrs. May & Kelly, has had a very
successful time driving their logs and
landing them safely at the mouth of
the creek. The boom is now packed
full from the mill to the creek bridge;
in all, Mr. R. informs us, over seven
thousand pieces. The mill which will
start up this week, will be kept run-
ning till late in the fall.

—The new ten-dollar interest-bear-
ing notes are now in the market, and
are being taken at the rate of from
one to four hundred thousand dollars
per day. They are the best invest-
ment yet offered for poor men. They
will pass current at their face, and are
bandy for any one to have. They
can be had at any of the National
Banks.

—The Allegheny Riot bill is a dead
duck. It was voted down in the House
on Wednesday last, the vote standing
98 to 101. The friends of the bill are
now on their ear, and will press a bill
imposing a tax on oil with all their
might and main. Which action on
their part is well calculated to draw
the sympathy of the people of the
north-western portion of the State—in
a horn.

—Sparks from a locomotive set the
woods on fire opposite town, yester-
day, and the leaves being dry, a con-
siderable space was burned over.
Lynching is too good for the miscre-
ant who would wilfully set fire to the
forests, and we think if a few of these
malicious characters were caught and
made an example of, there would be
less of this mischief perpetrated. These
fires not only ruin a vast amount of
timber, but destroy our small game,
such as pheasants, quails, and rabbits.

—A deaf and dumb tramp was in
town last week, and called upon us—
for enough to take him to Tidouite.
We gave him the last quarter we had,
for which he expressed his gratitude
by signs. He represented himself as
a pressman, and wanted to go to his
home in Cincinnati; he had recom-
mendations from two prominent Mer-
cer county newspaper men, from which
we were led to believe he was a worthy
object. After gathering up what loose
change he could in town, however, he
went to one of our hotels and spent it
for beer and whiskey, at the same
time exhibiting considerable money.
It's very humiliating, indeed, to be
beaten by a deaf and dumb man.

—Frank Robbins, Photographer, of
Oil City never fails to give perfect
satisfaction. His place is on Sycamore
street, near Union Depot. 1t.

—The Sunday Derrick has made a
wonderful discovery in Forest county.
It tells how a fishing party on the
lead waters of Coon creek found a re-
markable cave, which falls little short
of the Mammoth cave of Kentucky.
The party consisted of Alex. S. Jones,
Thos. Hogen, John Murray, George
Munn, Aler. Peters and Joseph Brady,
all of whom live in Forest county,
near Marienville. The paper states
that Jones and Murray made some
torches out of pine knots and went
into the cave, the entrance to which
was a hole about three feet high and
two and a half wide. After proceed-
ing two or three hundred feet, they
found many curious sights, numerous
small stalactites, formed by the drip-
ping of the carbonate of lime, depend-
ing from the roof of the cavern. The
men spent several hours in exploring
the mysterious cave, and finally
emerged, having, as they supposed,
traversed several miles. Are there
any of our readers who know of any
such a marvel existing in that region?
If so, we would like to hear from them.
We have heard of a cave in that vic-
inity before, but never supposed it
was such an extensive one. The Der-
rick promises to send a party out to
further explore and examine the won-
derful discovery, and we hope their
investigation will not prove it to be
what we fear it is: a myth.

—Hon. J. B. Agnew and family de-
parted on Monday for Harrisburg,
where Mr. Agnew will accept a position
under Mr. Dunkle, Secretary of
Internal Affairs. Mr. A. has held the
most important offices within the gift
of his Forest county friends,—having
been Sheriff three years, over five years
Prothonotary, Register &c., and for
four years represented the county in
the legislature,—and he was always
found at his post when duty called.
His friends will be pleased to learn of
his appointment to a position in such
an important department, and if he
attends to the duties of his office there
as strictly as he always has here, Mr.
Dunkle will have no cause for com-
plaint. We wish him and his family
a pleasant stay in Harrisburg. Dur-
ing Mr. Agnew's absence his pension
business and other matters will be
looked after by P. M. Clark Esq.,
while his legal business will be at-
tended to by attorneys with whom he
has arranged. He doesn't wish it un-
derstood that he will give up his resi-
dence in Tionesta, but will leave a great
portion of his household goods here,
and will be here frequently to look after
his affairs.

—The Venango Citizen says: A
certain man from Forest county went
down the Allegheny last week and
fell among Pittsburgh sharpers. Ar-
riving at the Union Depot on Sunday
with \$200 in his pocket, he started for
the South Side on a street car. The
car and the man reached Fifth ave-
nue, but the money stopped off by the
way in some mysterious manner. He
unfolded his short but moving tale to
the Mayor.

—The May number of "The Nurse-
ry" is before us, as bright and cheerful
as ever. We have nothing new to say
about this charming magazine, but
simply reiterate what we have so often
said, that for the youngest readers, it
has no superior in the country. John
L. Shorey, Publisher, 36 Bromfield
St., Boston. Price, only \$1.50.

—We notice that our enterprising
druggist, G. W. Bovard, has added to
his large stock of goods, the very val-
uable Home Medicines, prepared by
E. K. Thompson, Titusville, Pa. His
Barosma-in particular, is having a
large sale all over this and adjoining
States. Its merits as a Liver and
Kidney cure being acknowledged
wherever it is known.

—The Minstrel and Concert troupes
are all singing Will. L. Thompson's
new Song and Chorus, "Golden Years
are passing by." There is now such
a mania for this beautiful piece that
dealers can scarcely get them fast
enough to supply the demand. Every
lover of a pretty song will want this
piece. Send 35 cents to the publish-
ers, W. L. Thompson & Co., East
Liverpool, Ohio.

The New Rail Road.

An intelligent writer of the Oil City
Derrick, under late date, writes an ex-
tended communication on the subject
of the proposed railroad from Ship-
penville to Kane and Bradford. The
writer is well informed, having been
over the route, and paints the pros-
pects of the road in glowing colors.
He truly states that the certain pros-
pects of the road has awakened in the
minds of oil men along the line a
great interest, as well as the fact that
"the proposed road does run the length
and centre of the future oil fields
beyond a doubt." That wise oil men
for the last two years have been in-
vesting along the line of said route.
He further truly remarks "that from
Tylersburg to Kane to route is rich
in pine, hemlock, cherry, ash, white-
wood, curly and bird's eye maple,
black birch, etc., all of which timber
commands a good price when it can be
shipped without miles of wheeling to
a depot or has a water way to market.
Of these timbers cherry just now is
in very active demand, the fact is that
ebony furniture is now "the thing" to
have in the rooms of "upper tendom,"
and cherry is the best thing to make
ebony out of, (but that is a secret for
the patrons of the Derrick only.)
Aside from this use to which it is
being extensively put it is in great
demand for other purposes. "Already
in Jenks and Howe townships, Forest
county, I was told large quantities of
this lumber have been taken out in
the last two winters and shipped to
Buffalo, Albany and New York via
the Philadelphia & Erie railroad, and
yet you go through the woods and
don't see that it has made any hole
in the pile."

The route as described would seem
to be near the line of the Big Level
road, and is pronounced one of the
most feasible and inexpensive routes
in the State, there being no dangerous
ravines to dread or land slides to fear,
but pursuing the high level lands on
the dividing ridge, between the streams
of Tionesta creek and the Clarion
river. The able article concludes:
"The wonder is that it was not pushed
through two years ago; it would have
paid for itself ere this, but it's the best
project now in the oil field, and soon
we will be able to eat breakfast hot in
the lower region and dinner in the
upper."

—Inflammation of the kidneys is
known by fever, pain in the region of
the kidneys, and shooting along the
course of the ureter, numbness of the
thighs, vomiting, urine high colored
and frequently discharged, costiveness,
and colic pains. The Barosma, or
Backache, Liver and Kidney Cure, is
warranted to relieve these symptoms,
as it has not failed in so doing the
past eight years. Persons call daily
to tell us of the great benefit received
from using it.
