PHOTOGRAPH GALLERY, Tylersburg Pa., M. CARPENTER, Proprietor.

Job WORK neatly executed at the REPUBLICAN Office.

LOCAL AND MISCELLANEOUS.

—Rev. Elliot will occupy the pulpit of the Presbyterian Church next Sunday, morning and evening. M. E. Sunday School at 10 o'clock a. m., and Presbyterian Sunday School at 3 o'clock p. m.

—The Newtown Mills have started up for the summer's run.

—The festive ball of the croquet club is again heard in the back yard.

—Another large loon was slaughtered in the river. Frank Hunter did the job.

—Remember the ice cream at Mrs. Donovan's every Tuesday and Saturday evening.

—Miss Emma Arner returned home last week, after quite an extended visit to friends in Meadville.

—Quarterly meeting will be held at the M. E. Church in this place one week from next Saturday and Sunday.

—All our Tionesta Mills are running full time now, and the buzz of the saws give the town a lively aspect.

—By a recent act of the Legislature a fine of \$10 will be imposed upon any person having in their possession a Spitz dog.

—The first circus of the season will exhibit at Oil City to-morrow. No doubt several from this place will "take it in."

—The Border Raid Bill, like the Riot Bill, now "sleeps the sleep that knows no waking," at least during the present session of the legislature.

—Jim. Hulings lifted another large string of trout one day last week. Sixty seven in all, and a "great many of them" would weigh over a pound.

—It is whispered around that there'll be a lecture of some sort at the Court House this evening, to which the price of admission will be 25 cents.

—Prof. Brockway held an examination at the school house on Saturday last. Quite a number of teachers, and some who expect to teach applied for certificates.

—Let there be a little stir among our new councilmen in regard to some of our break-neck side-walks, many of which are in the most dilapidated condition; it may save the burg trouble and costs.

—We publish this week the Auditor's report of Jenks township, and would advise the officials of other townships to send in their reports. A neglect to publish may incur both trouble and expense.

—A gentleman informed us the other day that at Knox's mill they were turning out more and better lumber, and with less profanity, than at any time within his recollection; a fact which he thought worthy of mention.

—The past few days of pleasant weather has enabled the farmers in this section to get their oats about all sown, and they are now turning their attention to other products. Fall grain, although a little backward, is said to be looking well.

—Col. Reisinger, while in town last week, spent a few hours on one of our streams and succeeded in stringing up about 50 very nice trout. The Colonel is quite conceited about his trout-fishing, and if we ever get a chance we'll have to take some of it out of him.

—Mr. Wm. Clark and Miss Debbie Woodington, of Tionesta, Pa., were married at Edenburg, Pa., on Wednesday, April 23, 1879. We did not learn who tied the knot. The happy couple will please accept our heartiest congratulations, and best wishes for abundant success in life.

—Mr. Jas. Ward, of Jenks township, called upon us one day last week. Mr. W. is very enthusiastic over the new railroad which is soon to be put through that section. He has offered to donate the company several acres of ground, the privilege of putting up a water tank, and a free right-of-way through his farm, if the road is put through there. The company will find a liberal set of citizens when they strike Forest county.

—Last Thursday Mr. Walter F. Jones, formerly of the Tidouche Gossip, passed through here on his way to Dakota, where he expects to pursue his avocation, the printing business. Mr. Jones is possessed of a good deal of energy and "git-up," and we expect and hope to hear of him succeeding admirably. May you make your everlasting fortune out there and come back to this country to enjoy it. Let us hear from you, Walter.

—Harry Pierson and J. W. Babcock were out after snipe on Monday, and succeeded in killing twenty-six.—Crawford Democrat. Why don't you put a stop to such business? Don't you know it is unlawful to kill this game at this season of the year?

—Attention is directed to the new card of Charles Resner, manager of the branch office of the Singer Sewing Machine, in this issue. Mr. Resner keeps a supply of needles and sewing machine attachments on hand, and any one in need of the same will do well to give him a call.

—The Court Proclamation and Trial List are published this week. From the list of cases set down it would seem that the May term of court will not be a very extensive one. The number of jurors, however, will be twelve more than usual, on account of a special case which it is thought will come up.

—Our advertisement of Reid Institute stated last week that the cost of tuition is \$18.50. This was a mistake. The entire cost of tuition and table-boarding (with the Faculty) is only \$18.50. Those desiring splendid educational advantages at a remarkably small expense would do well to address the Principal. See advertisement in another column.

—Charlie Hill has been engaged for the past few days rigging up and cleaning out the oil well on his place, four miles up the river. He will give it a thorough test, and if it proves a success, of which there is little doubt, he will make attachments with the first one and pump both with one boiler. The oil found there is worth from three to four dollars per barrel.

—Mr. John Heath, of Dutch Hill, is at present canvassing the county with several articles of use in every household. He has the agency for Dr. Dana Blutgood's Life syrup, and Morse's Indian Root Pills, both of which are said to be excellent remedies. He also sells oil cloth aprons, picture frames, etc. Mr. Heath is worthy of any patronage our citizens bestow upon him, and we would ask all in need of any of his wares to give him an order.

—From the present outlook it would seem that a tax on oil in some shape is inevitable, and some of the oil region papers are favoring the tax on rigs in preference to one directly on oil. For the future welfare of our county we hope it may be put on oil, if at all, as a tax on rigs would knock the noise out of developments in this county for a long time to come. No one, rich or poor, cares to "wild-cat" where it costs from a thousand to fifteen hundred dollars to strike the first blow toward putting up a rig.

—There are enough indications in the paint mine which we have noticed heretofore, to indicate success. The raw material has been tried and not found wanting, either in quality or excellence; and from present appearances, we prophesy that the article as found in this county will justify the most sanguine expectations. It has also been found good for other purposes in the mechanic arts, which we may explain at a future date. In this connection we also take pleasure in stating upon good authority, that fine iron ore beds, up Little Coon, are soon to be opened, and there is a talk of a furnace soon up there. These iron ore beds are said to be peculiarly rich.

—Parties from Pittsburgh who are interested came up on Wednesday of last week, and in company with some Tionestians went up to test the Ball-town well. A torpedo was put in, but after it had exploded it was found that the hole was so filled up that the tubing could not be got within a hundred feet of the bottom. The creek being high they were unable to get their tools over, and therefore had to leave it without a thorough test. When the tubing was put down the gas was so strong that it could have been ignited several feet away, and it is thought that had the hole been clean it would have flowed oil. As soon as the creek falls sufficiently to allow them to get their tools across, the well will receive a thorough test, which will not be long.

—THE WAY TO MAKE MONEY IS TO SAVE MONEY!

Holeman & Hopkins, Pleasantville, Pa., are coming with a full line of samples of Clothing, Dry Goods, Boots and Shoes, Hats, Hosiery, Notions, &c., and you will save your money by calling at Central Hotel Saturday, May 3d, 1879., to examine our stock. CHAS. GARDNER.

—The bill for raising the bounty on foxes, owls, etc., in this county, much as we expected, has been decided unconstitutional by the Speaker of the House. We publish below a letter from Mr. Wheeler to Messrs. Hulings and Arner. He speaks of a general bill being on the Calendar which may cover what this county wants, and we trust he will use his endeavors to make it a law, provided we can get nothing better. Following is the letter, which explains itself:

HARRISBURG, PA., April 24, '79. MESSRS. J. D. HULINGS and LEWIS ARNER:—

Gentlemen:—The Bill providing for a bounty on foxes, owls and hawks in Forest county, came up on second reading this afternoon. The speaker ruled it unconstitutional as conflicting with Article 3, Sec. 7, of the constitution which says: "The General Assembly shall not pass any local or special law regulating the affairs of counties, cities, townships, wards, boroughs or school districts." If this is sustained it will kill this Bill, and a number of others of like character. What you wish may be obtained by a general Bill, which is now on our calendar, if we should reach it. Yours &c., N. P. WHEELER.

FIRE.

Ex Treasurer Setley's house at the foot of Jug Handle road, about eight miles up Tionesta creek, was totally destroyed by fire on Sunday last. We are unable at this writing, to give the full particulars, but understand the fire originated from the flue. Mr. Setley and his brother had laid down to take a nap about 3 o'clock in the afternoon, and when Mrs. Setley who had stepped out on some errand, discovered the fire the roof was entirely enveloped in flames. She immediately gave the alarm, but so rapidly had the fire spread that all efforts to quench it were fruitless, and before help arrived the building and nearly all its contents were past recovery, and it was with difficulty that other buildings near by were saved. We understand that none of the household goods worth mentioning were saved, and we have not learned whether or not the property was insured, but rather think it was not. The loss, which will amount to several hundred dollars, will fall heavily upon Mr. Setley, and his many friends will be pained to hear of his misfortune.

—Dennis Gette, son of Anthony Gette, of Covington township, a young man, aged 28 years, of unsound mind, and subject to taking fits often, left his father's house on Sunday, Feb. 16, 1879, and nothing has been heard or seen of him since the 18th of February last. He wore light pants and checkered flannel shirt. He is about six feet in height, had reddish whiskers, and was very simple in his talk. Any information as to his whereabouts will be thankfully received by his father. Address, Anthony Gette, Frenchville, Clearfield county, Pa. Exchanges please notice.

—Andrew Tracy, who it will be remembered, was tried and convicted at Smethport the last week in February for the killing of his cousin, Mary Reilly, and whose sentence was postponed until the April term in order that his counsel might appeal to the Board of Pardons for a commutation of his sentence to imprisonment for life, was sentenced to be hanged on Thursday last, the Board of Pardons having declined to consider the case until sentence has been passed by the court.—Eks Democrat.

—Will McCune and John Benn of this city yesterday made one of the finest trout hauls on record for this section at least. They captured 114 of all sizes, and among them a magnificent specimen measuring eight and one-half inches in length. They all were caught in Panther run.—Derrick. Wonder if these are not the same gentlemen we saw buying a string of forty or fifty from one of our local sports last Thursday evening?

—AN ACT has passed the House at Harrisburg, requiring all officials authorized to take acknowledgments and administer oaths, to perform such service free of charge for soldiers and widows of soldiers when making affidavit to papers for the purpose of drawing pensions.

—Ladies especially invited to call at Central Hotel Saturday, May 3d, 1879, and see samples of Dry Goods &c., from Holeman & Hopkins Mammoth Store, Pleasantville, Pa. CHAS. GARDNER.

Correspondence from the Upper Polls of Harmony Township.

ED. REPUBLICAN:—

Your request for me to give you some items of news, or notes of travel pertaining to my late visit to Trunkeyville, I shall comply with, cheerfully. To begin, I left on the afternoon train, and arrived at Trunkeyville, the metropolis of North Harmony, about 4 o'clock, perhaps a trifle earlier. On my arrival there I found that section of the moral vineyard in a state of quiet agitation. The runs are low in that section, strange to say, although the river is high, and it is calculated at least 500,000,000 gallons of water pass through "White Oak Schute" every hour.

Business seems to be reviving. Lands are being plowed—some of them with side-hill plows,—and the prospect for good gardens and crops is rather flattering.

Among the late arrivals was a large flock of sea-gulls on Brown's island, supposed to hail from some point in Youcatan from the general "cut of their job." In short, "every thing is lovely, and the goose hangs high." X.

Cooksburg Items.

COOKSBURG, PA., April, 25, '79.

ED. REPUBLICAN:—

Thinking that a few items from this end of the county might be acceptable, I will send the following for your approval and insertion in the REPUBLICAN, or for your disapproval and consignment to the waste-basket:

Judge Cook has finished running his lumber for this season; he is at present in Pittsburg, but is daily expected to be home. We understand that lumber is a very dull sale in the city this spring, but it is daily expected to advance in price before autumn, and by next spring command good prices. Judge will undoubtedly put in as large a stock for next season as was run this spring, which was about two millions of lumber, and one hundred thousand of timber. It is gratifying to see "Old Forest" pan out so handsomely in the lumbering business.

A child of David Henry's died on Monday last and was buried at Cooksburg to-day (Thursday). The funeral was the largest that has been in this section for some time. The griefed parents have the sympathy of all hereabouts.

Fishing is excellent in the Clarion river at this place. Your correspondent fished all day, "nearly," and succeeded in catching—nothing—after which Mr. J. W. Cook, with the above individual, set a night line with marked success, taking, up to date, two alligators, a toad and one sucker.

The schools of this section have all closed, and as far as we can understand, from information of those who know, did, with one or two exceptions, very well, and general satisfaction was given by the teachers. It is gratifying to see the deep interest taken in education in this vicinity, would that other localities take as great an interest as is taken in Barnett, especially at Cooksburg. Forest county needs a good State Normal school and we could then vie with the eastern counties in educational development. Who will set the ball to rolling for a "Normal" in Forest Co.?

Wednesday and Thursday your humble servant took a trip thro' the "wilds" of Forest; i. e. from Cooksburg to Marienville, passing through the heavy timbered lands of Judge Cook, and other large land owners. Near Marienville we noticed some land suitable for farming, and covered with hemlock, cherry and pine timber. While passing thro' this section we thought of the decided advantage that a rail-road would be to this part of the county. It is very much to be hoped that the St. P. F. & C. R. R., will extend their road through this locality, touching Tylersburg, North Pine Grove, Marienville etc., etc., to Kane. After spending a most pleasant evening with Prof. S. F. Rohrer, and having a splendid time reviewing and talking about the natural sciences, mathematics, civil engineering etc., etc., we returned by different route on

the latter of the above dates, well satisfied with our trip, and visit. Our thanks are due to Prof. Rohrer for his marked hospitality.

I shall not crowd your columns this issue, but will send you more when you have sufficient space to accommodate a longer article upon a general topic. V. X.

—Wood Churns at Robinson & Bonner. 6-3t.
