

REPUBLICAN STATE TICKET

FOR STATE TREASURER, HON. SAMUEL BUTLER, of Chester County.

REPUBLICAN COUNTY TICKET.

FOR ASSOCIATE JUDGE, LEWIS ARNER. FOR DISTRICT ATTORNEY, S. D. IRWIN, ESQ. FOR COUNTY SURVEYOR, JACOB COOK, FOR CORONER, JOHN HUNTER.

THE Greenbackers of this county are again in a dilemma, as Mr. M. A. Morris has declined to stand as a candidate for Jury Commissioner.

In the present state of parties in Maryland a discreet, united and earnest effort would give to the Republican party a fair chance to put political affairs in that State in such a condition as to insure the vote of the State for the Republican candidate for President next year.

On Faith and Oil.

Men often speak of faith in meetings. It is a refreshing subject to talk about, especially "a faith grounded on hope." We could write a cart load of sentiments on this higher faith, reducing to black and white many theories never dreamed of by the theologians - but we won't do it.

Then there is Geo. M. Kepler, who has put up a rig on the Charles Hill farm, four miles above Tionesta, and will soon have a well down. His derrick and other buildings as well as "the engine for action" are on the sod. We can only have hope that his efforts may be crowned with the success which those efforts merit.

Of the Grandin Bros, who are, through their efficient agent, Peter Berry, sinking down wells in the wilderness of Salmon Creek and Balltown, you have heretofore apprized your readers by notes at various times. They have proved that portion of the county beyond a doubt to be an oil section. Great credit is due to them for their efforts, which have produced results that place the territory before the world as desirable.

Dr. S. S. Towler is still drilling

away "toward China," in Jenks Twp. He has been there over two years, and has full faith in oil there, and that too not without reason, for he has seen the evidence. His faith is heroic, and his pluck indubitable. He is a man of science, and solid judgment. He knows the belt crosses through that section, and "although not seeking for light," literally, he is intelligently seeking for that which is the foundation or source of light, viz: "Oil," and the writers word for it he will eventually succeed.

So much for some of those who are nobly struggling to develop our land, who have come into the county from without our borders. But let us now look a little nearer home: For over a year Geo. S. Hunter, across the Allegheny, beside the Depot, has been obtaining oil from time to time at his little well. This well was an improvement on the older one, just by the mill; it is some 12 or 14 rods South of the old well. This showed to Hunter that the quantity of oil increased as he went south, and in pursuance of that idea, moved by faith, he has put up a rig on South Hunter Run, below it, and commenced operations. I hope his full success may be chronicled. Hunter is wrapped up in his oil prospects. His indomitable perseverance must succeed at last.

Time fails me to write of others, further than to say that too much praise cannot be given to those worthies who are endeavoring to develop the land. I sign myself "Z" because that is not my name, but my nom de plume. More anon, Z.
