Republican Majority Over Twenty Thousand !

This morning's associate press dispatches give Ohio to the Republicans by 20,000 majority on the State ticketand the legislature Republican by a clear working majority, thus giving than some might suppose. He also them the U. S. Senator in Thurman's place, whose term expires shortly. Nothing whatever is said about the Greenbackers. Hoopla!

IOWA!

Elects the entire Republican State ticket by 25,000 majority, a gain of 16,000 over last year. The Republicans will have a majority in the legislature on joint ballot of sixty-five. Good

Base Ball.

Our Tienesta base ballists covered themselves with glory on Saturday last. Two games were played; the first between the Second Nine of this place, and the Dutch Hill boys. This game was called about half past nine in the morning, and lasted until noon, resulting in a victory for the Second Nine. The Dutch Hill boys are hard workers, but inexperienced in the rules of the game. They came down to have some fun with the boys, and didn't expect to win the game. After finishing, they were taken to the Lawrence House and treated to their dinners, expressing themselves well pleased with the hospitality shown them. The following is the score by

-The party engaged in the survey of the Allegheny river, sent out by the to those who desire to become teach U. S. Government, arrived at this ers, the best advantages at very low point last Friday evening, having rates. Write for circulars, address, started from Olean on the 22d of J. A. Cooper, Edinboro, Pa. August, and been on the way ever since. The following gentlemen compose the party: John B. Dougherty, U. S. Engineer; Jas. McFarland, Assistant; A. B. Brockett, Charles Seidell, Jas. A. Painter and W. M. Awl. They travel in a small flat boat with a cabin, in which they sleep, eat, drink and are merry. They were very willing to answer all questions and give information, but owing to the short time they remained here we were unable to obtain such statistics as we would like to have given our readers. We may give them in the future. Engineer Dougherty thinks the plan of making the Allegheny a navagable stream most feasable, and says the expense would be much less says if the people consider their own interests they willl urge on the work, as the benefit this country would derive from it in the way of developing its resources can scarcely be imagined. Forest county would derive one great benefit from it, and that is in the transportation of lumber. Barges could be run the greater portion of the year, and in this way our lumbermen could market their lumber without the usual risks and delays. Let our citizens lend all the encouragment

-Brookston, this county, has an amateur company, composed of home talent, which has given several entertainments during the past summer. These performances are said by those who have attended them to be very entertaining, and have elicted a good deal of praise from the citizens. Last Friday evening they gave the first performance at which any admission was charged and it is said to have been well patronized and a complete success all round; the audience having been very highly pleased. We have received a programme of the performance, together with the names of the performers, and would like to give it to our readers, but it having arrived rather late we are compelled to omit it this time. We hope when they propose having another entertainment they will send us the programme in

-We hear from good authority Tylersburg would walk away with our that Messrs. Horton, Crary & Co., of boys very easily; and yet, we don't Sheffield, Pa., will, as soon as spring opens, build a narrow guage railroad 15 miles below that place, for the purpose of transporting bark to their played together. Tionesta, having tannery. They have secured a charter for the road and will push it through next summer without fail, and may extend it as far down as Balltown. Should this be done, it is altogether probable the project of building a road from this place up the creek and connecting with them at the above place, so much talked of last spring, would receive a new impetus, and doubtless be carried through. If the tendency of the times continue to brighten until spring, it would not be a foolish prediction to say that this

result will be attained. -Mr. Peter Berry passed through town last week en route for Balltown, when they were a man short, which the well recently struck to the third well, about 200 feet deep, should the pushing their mill at the mouth of blow from the ball, which liked to third sand prove a failure. If the Tubbs Run to completion. They are stop his playing; but as George has project proves a success, and they get a paying well, active operations will ford oil region, he was soon up and at be commenced forthwith. At all have secured the timber on a large it again. About the middle of the events, we are given to understand, at
