LOCAL AND MISCELLANEOUS.

—Rev. Elliot will occupy the pulpit of the Presbyterian Church next Sunday, morning and evening.

Free Methodist preaching in the Universalist Church next Sunday evening.

—Rain and mud.
—Mr. H. M. Foreman and wife, of Bradford, are here on a visit.

—Lumbermen are getting their rafts in order in anticipation of a flood.

—Notwithstanding the bad condition of the roads stage hauling continues brisk.

—Col. Reisinger of the Meadville Republican, is here on a business and pleasure visit combined.

—Turkeys are no doubt beginning to think that Thanksgiving is drawing uncomfortably near.

—A couple of large worn out boilers from Russell's mill, were shipped at this station for Pittsburgh, where they will be used as junk.

—It is said that 25,000 live quail are being imported from England, to be set at liberty in Pennsylvania.

—The electoral tables constructed by the Democratic organs, showing what a nice walk-over they would have in 1880, are now subject to revision.

—Mr. Conrad Zuendell, of Erie county, an old time resident of this county, is here visiting friends and relatives. He is looking remarkably well.

—A shooting match for turkeys took place at Andy Weller's, on Dutch Hill, last Friday. Some of our "cracks" were up and brought home their quota.

—It is still gratifying to see Forest county set down in the list of Republican counties in the State, it having given 71 majority over Barr, democrat. Of course they don't count the greenback vote out in God's country.

—The borough school report for the second month of the term is published to-day. It will prove interesting to parents, as they can note the progress in study, attendance, &c., which their children are making.

—The number of deer killed while the snow lasted is surprising. You hardly meet a man who makes any pretensions to hunting but that has killed from one to three. Quite a number have been brought in and found sale at 10 cents per pound.

—Mrs. Chas. M. Cott, of Columbus, Ohio, arrived in town Monday, having returned to take his family home. They leave to-day. Mr. C. reports the "Buckeyes" feeling jubilant over the result of the late elections, and says they are only waiting for a chance to repeat the dose next year.

—A dance will be given at the Lawrence House next Wednesday evening, 19th, inst., to which all are cordially invited. Mr. S. S. Canfield, who is principally instrumental in getting it up, informs us that a first-class band from Petroleum Centre, will furnish the music. Tickets, \$1.00, including supper.

—Send us the news from all parts of the county. Our correspondents are getting a little negligent of late, and we hope they'll wake up and let us hear from them occasionally. It's a pretty difficult matter to get up a newsy paper without help from our friends throughout the county. Again we say, send us the "nut in a new-shell."

—Dan. Andrews and Dick King have just completed the job of grading and improving the jug handle road, from the top of the hill to the creek bottom. They made a solid bed of six inches of pounded stone, upon which six inches of earth was thrown. Competent judges who have passed over the road pronounce it a number one job, and say that Jug Handle will no longer be a terror to teamsters.

—The dwelling house of Mr. J. H. Demun, of Stewart's Run, together with its entire contents was burned last Friday. Mr. Demun had gone to Pleasantville in the morning, and the remainder of the family, after dinner, were visiting at one of the neighbor's, leaving the house unoccupied. Mr. J. A. Dawson's house is situated just across the road from Demun's but unfortunately his family was also away at the time. The fire, which is thought to have originated from a defective flue, must have started shortly after the family left, as they had been gone but a short time when it was discovered. Mr. Jas. Elliott, who was among the first that arrived, says the flames were bursting out on all sides, and the roof was nearly ready to fall in when he got there, and there was no chance to rescue anything. He also thinks that, had the wind—which was very high at the time—blown in that direction, Mr. Dawson's house would have caught fire. This is a very unfortunate stroke to Mr. Demun and family, as it leaves them without a solitary thing, except the clothes they had on; and what is worse, there was not a penny of insurance on the property. A piano, sewing machine and six or eight beds were among the principle articles lost. They were well provided and very comfortably fixed for winter, having upwards of a hundred and fifty cans of fruit, and a good supply of the necessities of life in store, all of which were consumed. It leaves them in very destitute circumstances just at the beginning of winter, and we are glad to learn that the citizens of this neighborhood are responding quite liberally to subscription papers which are being circulated in their behalf. The family is a very industrious one, and was quite well-to-do before this misfortune, and any aid rendered them will be an act of charity well bestowed.

—The following good suggestions by the Venango Spectator, if properly heeded, would greatly lessen the number of shooting accidents, which are of almost daily occurrence in our midst: "There is one safe rule which should always be observed: Never get at the wrong end of your gun and never have the muzzle pointed at anybody. Always handle your gun so that if it is accidentally discharged the load will not find a lodgment in your own body nor in that of a companion. This is an easy rule to observe, and by observing it you reduce accidents to the chances of a gun bursting. And even that can be avoided by using a gun fit to carry, and by proper loading. Many persons are killed every year or crippled for life by pure and stupid carelessness."

—Quite a runaway took place on Monday last. Mr. Van Giesen had driven Mr. Robinson's horse up to Rev. Stone's residence, above the court house, and while unloading some furniture the animal became frightened and started for home at a terrible speed, regardless of stumps, trees, gutters or anything else. He ran about 40 rods, and when stopped there was hardly enough left of the wagon to tell the story. Some of the witnesses to the scene positively aver that pieces of the wheels and wagon flew as high as the court house, and that uprooted stumps and stones were scattered all over the hill side, the flying missiles in the air very much resembling a flock of pigeons scattered by a musket shot. The horse escaped comparatively unharmed.

—A large number of the friends of Rev. and Mrs. A. O. Stone, assembled at their residence on Monday evening last to celebrate the fifth anniversary of their wedding. It was a very pleasant affair, quite a number being present from the surrounding country. The presents were numerous, handsome, and useful. The guests were heartily entertained by the reverend gentleman and his excellent lady. After all had assembled refreshments were served which were highly complemented by all present. Having spent a most pleasant evening the company dispersed wishing the happy couple many returns of the joyous occasion.

—The boys at the Ross Run stove mill have been living fat on venison since the late spurt of snow. It don't take them long to bring in a deer. The other day, while the sawyer was "fling up," three or four of them started out with bell and guns, and in less than two hours were back with a fine doe. They don't make any fuss about the little matter of slaying a deer up there.

—Everybody should read this and then be careful to direct their letters accordingly. The Postmaster General has given orders that no letters not having the full name of the office and State shall be forwarded. Thus a letter directed to New York city will be sent to the dead letter office, unless it has also N. Y., written on it.

—The neighboring county of Forest must be the very heart of the rural district we so often read about. The entire vote of the county at the late election foots up 559—about as many as are usually polled in a voting district in an ordinary town.—Derriek, Mistaken, sir. Our vote was 759, which is about 200 less than we are capable of turning out when all hands are on deck.

—Forest county having given a greenback majority on Tuesday, the Tionesta Republican announces the result: "Forest county the only greenback state in the Union." The citizens of that county are not out of the woods yet—that's what's the matter. Derriek, Hush, there! Please don't poke fun at us because our county went "greenback." We're already ashamed of it, and if you'll overlook it this time we'll never do it again.

—First and foremost among external curatives of pain is Thomas Electric Oil. Nor is it less esteemed as a remedy for coughs, pains, swellings, corns, bunions, etc. It is an economic as well as inexpensive article, since the results produced by it necessitate the use only of a small quantity. The regular advertisement should be carefully perused.

The Tionesta Valley Railroad.

We are pleased to hear that this subject is being again talked of in the cities, and the attention of capitalists is called again in this direction. Such deliberations reflects great credit on their judgment for various reasons; principal among which is the fact that this railroad is located and surveyed upon a natural route, the location of the Tionesta valley presenting a cheap and economical route inviting a railroad. The survey made heretofore is uncommonly promising as to grades and all features that tend to make a railroad desirable. The valley, also, would furnish an endless amount of freight in the shape of lumber and timber which could be freighted to all the points of the compass—to say nothing of the cut off that would speed the traveler on his journey East—it being many miles shorter than by way of Irvineton and Sheffield. It will be necessary also to commence work before long to keep the charter alive, and should that slip through the fingers of the incorporators they would lose a golden opportunity. We regard the completion of this road within the time allowed by the charter as a fixed fact, and have been surprised at tardiness of action by the Company. Speed the Rail Road.

THE Alpine Silver Mining Company, OF COLORADO.

Capital, \$2,000,000 200,000 Shares, PAR VALUE, \$10 PER SHARE. UNASSASSIBLE.

Daniel J. Spiane, Pres. J. L. Thompson, Sec

The property of this Company consists of twelve mines and mining locations, located in Lake County, Colorado, in the vicinity of Leadville, upon all of which extensive work has been done, in all cases exhibiting true fissure veins, good pay streak, and well defined lodes.

Three of the leading mines are well opened up and have at the lowest computation over ten thousand tons of ore in sight; by May 1st, the Railroad now under construction will be within a short distance of this property.

The Company proposes to sell a portion of its stock at \$1.50 per share for the purpose of more completely developing its mines, and for the erection of works for the treatment of its ores.

Application for the stock may be made to the office of the Company, 61 Broadway, New York.

N. B.—The Mining Record, of New York, the highest mining authority in this country, says Feb. 1st, 1879. The principal owners in this company are hard working men, who by their own labor have uncovered large bodies of ore which they now wish to extract and send to market. Our readers will do well to make a venture with these worthy men, this money will probably be returned to them twenty fold. The business management has been placed in the care of Mr. J. L. Thompson, an officer of high standing in one of the largest and best banks in the city. A Prospectus giving full particulars sent free, on application to the Secretary, 23m.
