The Republicans of Pennsylvania are requested to send delegates, appointed according to their representation in the Legislature, to a Convention, to meet at Harrisburg, at 12 m., on the 4th day of February next, to elect delegates to the Republican National Convention, to nominate Presidential Electors, to nominate a candidate for Judge of the Supreme Court, and a candidate for Auditor General, and to transact such other business as may be brought before them.

By order of F. C. HOOTON, Chairman State Committee. SAMUEL F. BARR, | Secretaries. C. L. MAGEE,

POLITICAL.

The Re can County Committee will meet a my office on Saturday, Jan. 17th, 1880, at 1 o'clock, p. m., for the purpose of electing delegates to the State Convention, and to transact other business that may come before it. It is desirable that each township be represented. Following is a list of the members of said committee:

THE Greenbackers of Armstrong ineligibility-holding another office at candidate holds another office, and the Greenback candidate expects by this contretemps to slip into the office.

ONE of Congressman Fisher's friends, of the Huntington district, applied to be appointed enumerator of the "senses." Of course he will not get an appointment, because he is unfit to discharge its duties. So that next fall you will find that person on the other side, possibly a Greenbacker, trying to break up the dishonest and corrupt Republican party. We have They were red-hot Republicans until they missed an office, and now they are just as bitter on the other side. Such fellows are not governed by principle.-Indiana Progress.

NOTWITHSTANDING the howlings of the greenback organs to the contrary. the reduction of the National debt and interest is being decreased daily, which a fair and honest examination of figures and facts will prove. The aggregate debt less cash in Treasury has decreased in the past year \$16,864,607 .-09. All this in the face of the fact that over \$30,000,000 arrears of pensions have been paid, and for which there was no provision made except from the general revenue, besides the large expense incurred by the extra session of Congress last summer. The interest bearing debt has been cut down since Jan. 1st, 1879, \$37,126,-000, and the annual interest \$11,122,bearing debt has been decreased \$594,-843,444, and the annual interest thereon \$67,747,809.50. During the was decreased \$4,251,216, according to the official statement issued Jan. 1,

Our Washington Letter.

Special to the REPUBLICAN.

Washington, D. C., Jan. 1, '80. Recent advices from Maine confirm previously expressed opinion that the Governor will not accede to Ex-Senator Morrills proposition to submit the disputed points to the Supreme Court for settlement. He won't do this nor anything else that will secure to the legally elected members their rights. The steal was planued, perfected and carried out, for the purpose accomplished, and the freebooters do not propose to risk an overthrow by adopting any measures proposed by Mr. Morrill. Senators Blaine and Hamlin have done noble work in showing up this infamous affair in its true light, and bave won the admira- sale by Bovard.

tion of all true lovers of justice and equal rights. If Governor Garceleon knew himself to be in the right he would not be so afrrid of investigations as to the mode of his procedure in throwing out the Republican returns. The burgulars show their weakness by arming themselves for the purpose of preventing legally elected Republicans from entering the State House.

The negro exodus is increasing beyond the expectations of those engaged in its management. A large party arrived here this week, and continued on to Indians. The reports that come back from those who settled in the State are so favorable that large numbers are preparing to start in the spring, and the Democrats are afraid that numbers of counties in the South will be depopulated of colored people. In consequence they are offering higher wages to those who will remain, and are in hopes by so doing to stop the movement. They will be disappointed. Let them give the colored people protection at the polls, the free exercise of their rights as citizens as they obtain in Indians, and they will have no difficulty in inducing them to remain

The Phrenological Journal of New York is the only periodical devoted to the subject, and it includes with this all that relates to Human Nature, and the improvement of men physically, mentally, and morally. In the prospectus for 1880, the publishers make liberal propositions to subscribers. The price has been reduced to two dollars a year, and to each subscriber is offered a Phrenological Bust. This Bust is a model head, made nearly life size, of plaster of Paris, and so labeled as to show the exact location of all the Phrenological Organs. It is a handsome ornament, well adapted to the centre-table, mantle-piece, or office. With the aid of this, and the illustrated key which accompanies it, together with the articles published in the Phrenological Journal on Practical Phrenology, each person may become quite familiar with the location of the different Phrenological Organs, and a good judge of Human Nature.
