-One might think from the vast amount of staves which have been shipped at this station from Tylersborg and vicicity within the past year that the timber must be getting scarce, yet in conversation with Mr. Geo. Its business is daily inyear, and that his shipments from Tylersburg would not fall short of 1,000,000 staves.

In fact we know they won't if you keep at a safe distance.

-On Saturday last the Road Commissioners of Tionesta township let the contract of building a new road from the Huddleson School house to the Clarion County line, a distance of about three miles. The contractor, Mr. Samuel Clark, of Hemlock, agrees to put the road through according to specifications for \$1.50 a rod. -Capt. C. W. Clark tells us we were somewhat in error in stating that Mrs. B. O. Sullivan died in a destitute was made before her husband left her, and that he (Sullivan) was cognizant of the whole transaction. We got our information from what we considered a retiable source, and we cheerfully correct any misstatements that may have occurred in our columns, nothing being farther from our intentions than PUBLICAN. No man in Venango to cast any reflections upon the good County has done more for his section citizens of that neighborhood. The woman, it seems, had all the necessaments than has Ed. -It is very gratifying to notice the advance of stock of the Pittsburgh, Titusville & Buffalo Railroad which has been going on for some weeks past, and is still continuing. It is now quoted much higher than for years, and probably higher than it has ever creasing, which must be a gratification to Supt. T. H. Wilson, to whose excellent management this steady appreciation in the stock may be mainly attributed. Mr. Wilson is not only very popular with the officers and employees of the road, but is gaining new road by his gentlemanly bearing and whose possession they were had disposition to please and accommodate.

-On Monday morning last, a stranger giving the name of Williams, presented a check at the First National Bank, payable to his order, ealling for \$1,041, signed by A. Cook. The check wasn't paid, however, for the very good reasons that the teller suspected the signature to be a forgery, and that Judge Cook had no account with the First National. Upon being closely questioned, Mr. "Williams" became greatly confused, and finally rushed out of the bank and struck for the train at a 2:40 gait. That the check was a forgery, this action of the stranger fully confirmed .- Clarion

-Peterson's Magazine for February is already on our table, ahead, as usual; and is even more beautiful, in some respects, than the January one. The double-size colored fashion plate; the illustrated story, "Alice Gray's Trial;" and some new and exquisite designs in Japanese embroidery, including a colored pattern, are among these. The stories are all remarkably good. Mrs. Burnett's "Fair Barbari an," is continued, and is brighter than ever. "Lost," by Mrs. Ann S. Stephens, is the best novel even she has written for years. We have so often praised "Peterson," that it is almost useless to do it again. We can imagine nothing better in the way of a lady's magazine. Specimens are sent, gratis, to those wishing to get up clubs. Back numbers from January can always be supplie. Price \$2. a year in advance. Address Chas. J. Peterson, 306 Chestnut St., Phil'a.

-The February number of Ballou's Monthly Magazine-the best and the most popular of all the serials in the country-is issued, and can be called model number. There is not a dull article in it. There are romances, stories, adventures, travels, poetry, wit and humor, excellent illustrations, nice engravings, and a fine view of Nassau, N. P., and a very readable article about the same place by the author of "Running the Blockade." With its improved appearance, enlarged form, new type, and so forth, Ballou's Magazine is gaining thousands of new subscribers, and we are glad of it, for it is worthy of support. Published by Thomes & Talbot, 23 Hawley Street, Boston, Mass., at \$1.50 per annum, postpaid, and for sale at all the news depots in the country.

Library of Universal Knowledge.

Volume IV. of this great work, published by the American Book Exchange, Mew York, is ready January 15th, and volume V. will be issued about ten days latter. Removing January 1st to the Tribune Building, and to the large building No. 26 Beekman and No. 18 Spruce street, where their facilities will enable them to manufacture from 6,000 to 8,000 volumes a day, the publishers expect to complete the entire work within the year, as announced. The volumes thus far issued being only the reprint of the last edition of the wellknown Chamber's Encyclopedia, nothing more need be said of them than they are well printed and bound; their form is vastly more convenient than the usual unwieldly quarto or octavo, and their price is cheap beyoud all precedent in book making. The publishers will send any quantity of descriptive catalogues to those who may apply, for distribution among ac-
