LOCAL AND MISCELLANEOUS.

—Rev. A. O. Stone will preach in the M. E. Church next Sunday evening.

—Oil 85¢.

—Miss Anna Pease has returned home, after an extended visit to relatives at Olean.

—The "15" puzzle has struck Tionesta, but we have heard of no candidates for Dixmont resulting from the mania.

—Mr. Ansa Purdy, of Green twp., is to-day announced as a candidate for Associate Judge, subject to Republican usages.

—Prothotary Shawkey left on Monday morning for another trip to Kansas. He expects to be absent until May term of Court.

—These warm, spring-like days are said to be excellent for hunting bee trees. Some of our amateur bee hunters have had good success so far, and are still on the "trail."

—Mr. Doubt, the painter, hung out a very neat new sign the other day, as a specimen of his skill with the brush, and Geo. Robinson had the hardihood to ask him who painted it.

—The school at Milltown, which was recently brought to such a sad ending by the death of Miss Hillard, the teacher, has been resumed by Miss Brilla Fisher, a teacher of excellent qualifications.

—Rev. Stone, of the M. E. Church, is conducting a series of revival meetings at the Hill school house, four miles from this place, with good success. Rev. Barnhart, of the F. M. Church, is holding a successful revival at Minister, near Newtown.

—Mr. J. M. Kepler is having his store building opposite the Lawrence House overhauled and repaired generally, very materially improving it both in appearance and usefulness. It will make a good site for a new store, but that branch of trade is already somewhat crowded in this place.

—Dr. Blaine has purchased of Mr. G. Jamieson, the late residence of ex-Treasurer Setley and the office next to the Central House. He will occupy the house after the first of April. He has already moved into his office, a part of which is occupied by Mr. D. W. Clark as a real estate and surveyor's office.

—Mr. L. Agnew and family moved to Oil Creek Lake yesterday, taking with them all their personal effects. We are sorry to lose them as citizens of our community, and with their many friends in this section we wish them prosperity in their new place of abode. Mr. A. is a pleasant landlord, and we are sure will give satisfaction to the people of that vicinity.

—A heavy wind and rain storm, accompanied by thunder and lightning, passed over this section last Thursday night. No particular damage was done in this place, but at Stewart's Run, beyond Mr. John Thompson's farm, the roof of Mr. Barnes' barn was blown off, and several rods of fence blown down in that vicinity. We heard of no injuries to man or beast occurring.

—Mrs. S. D. Irwin was called away to Philadelphia last week, rather unexpectedly by the sad intelligence of the severe illness of her brother, Capt. Joe Thomas, who is not expected to live. Mr. Thomas will be remembered by a large circle of admiring friends in this place, having spent nearly a year here, some ten years ago. He was noted for his dry humor, and pleasant companionship.

—Joseph Harris, of Moreton Farm, Rochester, N. Y., sends us his Catalogue of Choice, Garden and Flower Seeds for 1880. It is sent free of charge to all applicants. Drop him a postal card with your address, and tell him you saw this notice in the FOREST REPUBLICAN.

—Prof. Peck will in a few days organize a singing class at Tidoute, having secured nearly enough scholars to warrant him in going ahead. At Ecomite, opposite Tidoute, he will begin with a large class to-morrow evening. His second term in this place is progressing nicely. These three appointments will occupy about all his time. He expects to hold a four-day's musical convention in this place at the end of the present term.

—Sucker fishing is now in order, and any warm, sunny day a score of patient anglers may be seen along the banks of the river bobbing for the docile "red-fis." At this season of the year the sucker is the most delicious fish that swims the Allegheny, i. e., when properly "scored" and fried. The trout season will soon be here, if not already with some, as the pleasant weather of the past week or two must have been too tempting for some of our ardent fishermen to withstand.

—Several board and some timber rafts—five or six "Alleghenies" in all—pulled out of the mouth of the creek, bound for the lower markets, on Sunday last. A great many creek pieces were stuck between here and Coon creek, but, with one or two exceptions, all will come out when the water raises. About eleven hundred logs belonging to Messrs. May & Kelly were started, but stopped below Lacytown pond on account of low water. This stock will be sawed on the mill across the creek, which will start up as soon as the logs are "boomd."

—The Millerstown Co.'s well on the Hill Farm is down between 700 and 800 feet, with good showing for third sand. Mr. G. M. Kepler, the Superintendent informs us that as soon as this well is finished he will commence operations back on the hill farther, in the vicinity of C. F. Cropp's farm, near Tubbs Run. Quite a number of heavy capitalists of Pittsburgh and other places are anxiously inquiring for leases in this section, from which it is reasonable to infer that brisk operations may be expected during the coming season. Mr. K. is of opinion that before another year Forest county will be more thoroughly tested than ever before.

—Messrs. Polen Bros., who have been engaged during the past four months, manufacturing the timber on the Wilkinson Tract, on Salmon creek, owned by Mr. John Shoup, into boards, etc., have finished their job and are about pulling up stakes. These gentlemen, during their short stay here, have cut nearly 1,200,000 feet of lumber, with their "coffee-mill," as some are pleased to call it. They have several offers from other parties to plant their little mill on odd tracts of timbered lands and manufacture the same into lumber, and it may just be possible they will conclude to stay. Whatever they do—go or stay—we wish them success, as they have proven themselves pleasant and reliable gentlemen to deal with.

—In urging the capitalists to start new and various manufactories in Oil City, in order to build up and solidify the place, the Derrick mentions among other enterprises which would pay, that of a tannery, stating that bark could be shipped from Forest county by water. The suggestion is a good one; but if good for Oil City, why not much better for Tionesta, where less expense would be entailed in hauling bark, and where the natural advantages, such as water, &c., are far superior to any other place along the river? Tanneries are first class investments, as it is proven by the fact that leather is always in demand at good prices, and failures are very seldom heard of in this branch of business. There is no limit to the amount of capital which can be profitably invested in the business,—the more the better,—and with judicious management will bring large returns to the owners. We have no doubt if the natural advantages possessed by our town were brought to the notice of capitalists and practical men, many of whom could doubtless be found without going a great distance, they would not hesitate long to take hold of the project. Let our enterprising citizens do their part in this matter, and it will not be long ere we shall witness a different state of affairs in our midst.

—The Family Medical Abstract, Dr. A. F. McKay, Editor, and Chas. E. White, Publisher, the February number of which has reached us, is a very useful addition to the family literature. It is neatly gotten up, and ought to be a source of pride to editor and publisher, as well as the citizens of Tidoute and vicinity. The subscription price is but \$1.50 a year, which will no doubt insure it a large circulation in a short time. The new enterprise has our best wishes for success.

An Entertainment.

The young men of Tidoute will give an entertainment at the Lawrence House Hall next Tuesday evening. They gave an entertainment at Tidoute a short time ago which is said by those who witnessed it to have been one of the best shows the town has had for many years. The opera house was crowded, and not one left dissatisfied. The Tidoute News, which is not in the habit of "puffing" anything of an inferior quality, says "it was a rattling good show. Departing from the usual custom of amateurs, the programme was made up of a variety of performances—reading, farces, club swinging, bar performances, etc. The evening abounded in local hits which kept the audience in good humor. The evening was so pleasant and successful that the boys propose to 'invade' Tionesta with their bill of fare in a week or two. We can recommend them, heartily, to the good people of Forest County." We hope our citizens will all turn out—not because the young men need the patronage, but because the entertainment will be worth going to hear, and those who fail to attend will miss a rich treat. Remember, Tuesday evening, Mar. 16.

Kansas.

W. E. Lath, Esq., of Newton, Kas., sent us a present last week, for which we return due thanks. In order to find what the present consists of you will have to read the following extract from his letter, which will fully explain:

"Knowing that you are a great and mighty hunter, (all of which I am not), and believing that, on account of your Nimrodian proclivities, you will appreciate it, I mail you to-day a pair of ears that once adorned the proud and haughty crest of a jack-rabbit. Of such a pair of auriculars the most majestic stag who roams the wilds of Forest county might well be proud. These jack-rabbits are peculiar to our western wilds and are very abundant. * * * We are flourishing, and are and have been having for the past three weeks beautiful, balmy spring weather. Yesterday it was actually sultry. With regards, &c."

A Card.

Mr. and Mrs. R. Rudolph, of Newtown Mills, Pa., desire to extend their sincere thanks to the many dear friends who cheered them by their aid and sympathy during their late severe affliction, in the drowning of their child.
