THE resolutions of the recent Democratic Convention with one exception, were merely warmed up from last year, all parties being so much exer cised in bringing about a peace that the writing of resolutions was simply out of the question; but then, as no person takes any stock in empty and bombastic effusions, the old stereotyped set served just as well as something new.

THE desperation of the Democracy is shown in the effort to compel the Greenbackers to take J. L. Dewoody as a candidate for Assembly, notwithstanding they dropped him like a hot potato at their Convention last week. However, it matters little anyhow, as Venango will be represented in the next Legislature only by men of the most pronounced Republican pattern. -Franklin Press.

#### WARREN.

Our Washington Letter.

Special to the REPUBLICAN. WASHINGTON, D. C., May 6, '80. The veto of the Immediate Deficiency bill is another evidence of the Presidents stalwart Republicism, and of his determination to exercise that control over elections, and a free exercise of the authority, vested in him by the Constitution. While in his message he does not reassert the position taken at the extra session, that any attempt to amend the election laws by means of "riders" unconstitutional, he leaves himself free to do so. In his message he takes the issue that the principal of placing permanent political legislation upon a simple approprintion bill is a loose and dangerous practice, after forcing the enactment of measures which could not pass upon a direct vote nor escape a veto. A large number of the States have recognized this evil and have taken meanures to prevent it by amending their constitutions, so that in reality the methods of legislation that obtain here are somewhat behind the age, and it is hoped the Domocrats will take the message in the name it was given, and take steps to correct their evil. It is not believed that the veto will prolong the session necessarily as the House will pass in independent bills those amounts which are most needed. The Government Printer was provided for

yesterday by such an appropriation. Senator Vest, of Missouri, in his speech on the Kellogg Spofford case mdae the important admission that there are enough Democratic Senators opposed to unseating Senator Kellogg to defeat the measure. This has been the impression all along, but it is the first official announcement of the fact. Senator Vest labored with the disagreeing Democrats but all to no purpose. Why the Democrats insist in continuing the debate is more than any one can tell. Senator Cameron makes the first Republican speech on the resolutions to-day.

Captain Howgate's Arctic expedi tion by which he proposes to reach the North pole by gradual approaches, forcing a colony year by year, as far North as possible, is in a very fair way of leaving here this summer. What they say of it! A few facts for the people. There are few preparations of medicines which have withstood the impartial Judgment of the people for any great length of time. One of these is Dr. Thomas' Electric Oil. Read the following and be convinced:—"I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Ejectric Oil, and since then have had no attack of it. I would recommend it to all." A Maybee Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Electric Oil, and it is prenounced by the public 'one of the best medicines they have ever used;' it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence." Joseph Rusan, Township Percy, writes, "I was persuaded to try, Thomas Electric Oil for a lame knee which troubled ma for three or four years, and I was an in the confidence." me for three or four years, and I never found anything like it for curreing lameness. It is a great public benefit. A. M. Hamilton, Warkworth, writes, "For weeks I was troubled with a swelled anklo, which annoyed me very much.
