Oil 87 1/2c. Circs in town next Tuesday. Boys save up your nickels.

The time table of the P. T. & B. R'y will be found correct this week.

The sprightly Millerstown Herald is now one of our regular and welcome exchanges.

Remember Thayer's Great Circus will exhibit in this place next Tuesday, June 1st.

The new F. M. Church edifice is already enclosed, and is receiving its first coat of paint.

Rev. M. V. Stone, brother of our worthy M. E. Pastor, was in town a few days last week.

Honeysuckles are out, and many are the bunches which are lugged in by the lovers of flowers.

Mr. J. P. Sheriff, of New Bedford, Pa., one of our old subscribers, gave us a pleasant call last week.

The County Commissioners are having a time lock put on the safe in the Treasurer's office. A good thing.

Mr. M. Ulrich, the efficient salesman of Mayer Bros., Oil City, dropped into our sanctum yesterday afternoon.

Miss Ettie Battin, of Steubenville, Ohio, sister of Mrs. Stone, is staying with her sister. She expects to remain all summer.

Major J. B. Maitland, Supt. of the Pipe Line in the Clarion district, is making Tionesta his headquarters for a short time.

Geo. Haslet killed the first rattlesnake of the season yesterday; at least the first we've heard of. It contained nine rattles.

Flour \$1.75 per sack each sack warranted. Canned Hams, Shoulders, and Dried Beef very low at Wm. Smearbaugh & Co.

The two lower schools, Miss Dawson's and Mrs. Cobb's, closed yesterday. Prof. Hillard's school will close on Saturday next.

Quite a number of Tionesta's young citizens have gone to the bark woods of Sheffield and Brookston to put in the season peeling bark.

The date of the Free Methodist Campmeeting in this place has been fixed for July 21st. The attendance will doubtless be much larger than last year.

Sheriff Randall left for Allegheny on Monday, accompanied by Elmer Gill, the boy horse thief, sentenced last week to 13 months in the penitentiary.

Mrs. T. J. VanGiesse was called to Allegheny last week to attend the sick bed of her mother, Mrs. S. C. Sloan, who, we understand, is in a critical condition.

Rev. A. A. Thayer, D. D. of Erie, will exchange pulpits with Rev. A. O. Stone some time in June. Dr. Thayer is at present pastor of the Universalist Church at Erie.

The rumor that T. J. Payne's mill near Tylersburg was burned proved to be a canard, and the mill will probably do a good stroke of business before the summer is ended.

Sankey and John Noble have gone to work on the new saw mill of Dr. Shamburg, near Neiltown. The Doctor will find them rattling good hands.

The General Quarterly Meeting of the Free Methodist Church will be held at East Hickory, commencing on Thursday, May 27th, and continuing over Sunday. Rev. Hawkins and other prominent ministers will be present, and an interesting session is expected. All are cordially invited to attend.

Those of our subscribers who took occasion to call on us during court week and leave substantial reminders of their visit will please consider the editor's "Mackinaw" doffed.

The Democratic primaries will take place in this county next Saturday afternoon. It is amusing to note what efforts some of the candidates are putting forth to get the nomination.

Jimmy Canfield was thrown from one of Mr. Jackson's ponies one day last week, and picked up in an insensate condition. With the exception of some bruises about the face, he escaped injury.

One week from to-day and then the Presidential agony will be over, and we will know who is to occupy the chair for the next four years. The Republican convention meets in Chicago on that day.

Prof. F. Billig writes to tell us that he abandoned the idea of teaching a select school this summer in Tionesta, as heretofore announced. Those who had contemplated sending their children will make a note of this.

The Family Medical Abstract for April, Dr. A. F. McKay, Editor, Tidoute, is out, and contains its usual amount of good, common sense reading matter. The Abstract costs but \$1.50 a year, and should be in every family.

Mr. C. B. Evans, Supt. Wilson's confidential clerk, of Oil City, spent yesterday in town. He and Dr. Blaine tried 'Tubbs' Run for trout, but 'twasn't a good day for 'em, consequently their load was easily carried.

The forest fires destroyed a great deal of the fence around widow Dean's farm on Whig Hill lately, and 'twas only by hard work that other property was saved. The good old lady is thankful that the fires are all out now and that her loss was no greater.

Decoration day comes next Saturday, but it seems there will be no observance of the day in this place. It would certainly be as little as the citizens could do to at least gather at the cemetery and strew a few flowers over the graves of the dead heroes, and not allow this beautiful rite to die out entirely in our place.

The rains of last week have brightened up all nature in this section, and crops are beginning to look well. The ground had become so dry that grass and all other crops were looking sad and wilted, but the rain gave all a new start, and there is now good promise of more than an average harvest of grain and fruits.

Mr. Robinson has done the square thing by himself and the public in building a solid new oak sidewalk in front of his residence. He also added much to the convenience of tanners and customers by putting up the boss hitching apparatus in front of the store. His example in this last particular has been emulated by George Bovard.

Attention is called to the card of Dr. E. L. Steadman, Dentist, in this issue. Dr. Steadman is a dentist of several years' practice and will guarantee his work to give the best of satisfaction. He carries good recommendations from some of the best dentists in the State of N. Y., and will doubtless receive the patronage of all our citizens.

Hauling is brisk here at present, and from thirty to forty teams may be seen on our streets almost every day loaded with pipe and staves. The Railroad company is also doing a good business, the freight receipts at this station amounting to several thousand dollars a week, to say nothing of the large amount of staves which are daily exported from here.

We are sorry to learn that our old friend and patron, Mr. Solomon Byers, who lived in the Mealy Settlement, has left the county and moved to Stoneham, Warren Co. Mr. Byers is an excellent citizen, and will be quite a loss to our county in general, and the Republican party in particular. We wish him prosperity in his new home.

Morris Einstein left for New York last Friday where, after attending to some business, he will take passage across the pond to see his old home and friends. Now, we won't swear that this is the case, because Morris has fooled us so often that we hardly know whether to believe him now or not. We wish him a pleasant and safe voyage if he does, but if he don't go we don't care whether he gets drowned or not.

The Hanlan-Courtney boat race at Washington, D. C., on Wednesday last was another grand fizzle, so to speak. Both oarsmen started, but Courtney weakened on the first quarter—got sick as he claims—and gave up the race. Hanlan rowed leisurely over the course and took the prize. This winds up Courtney's rowing career effectually.

The census enumerators for this tenth district have all been appointed. The appointments for Forest county are as follows: Tionesta twp. and boro, D. W. Clark; Hickory and Harmony, J. B. Siggins; Howe and Kingsley, Byron D. McClure; Greene and Jenks, Jas. K. Clark; Barnett, S. W. Calvin. The work must be completed during the month of June.

Edenburg, Clarion Co., was cremated for the fourth time on Saturday night last. The fire was the work of an incendiary as usual. The entire business portion of the town was destroyed, entailing a loss of nearly ninety thousand dollars. Very few dwellings were burned, consequently the distress among the inhabitants has not been so great as at previous fires. It is not likely the place will be built up again. Verily Edenburg has passed through many trials and tribulations.

Mr. Hamilton Stow, of Cincinnati, accompanied by his daughter, Mrs. Ida Garlick, and two children, arrived in town on Friday last, and are the guests of Mr. May's family. Mr. Stow was among the early citizens of Tionesta, and a great deal of the prosperity and growth of the place, both in morals and otherwise, was due to his energy. He is now seventy-four years old, and although quite feeble, bids fair to live several years yet, which his many old friends in this community will be glad to learn.

As will be seen by the double-column advertisement in this issue, Dr. Jas. L. Thayer's Great Show will exhibit in Tionesta, June 1st, 1880. The mere mention of Dr. Thayer's name in connection with a circus is sufficient to draw a crowd among the older inhabitants, he having been connected many years with Thayer & Noyes' great circus. This show embraces many new features never before exhibited in this community, notable the Wonderful Electric Light, which is worth going miles to see. Its performers are among the best on the continent, and altogether it is said to be one of the best shows extant. The outfit of this grand show is entirely new, this being the first season it has ever been in use. Those who want to witness a truly great show should lay aside their work and make a general holiday of it, and give their families and children a treat. One of the principal features of the show will be the feat of walking from the ground on the outside of the Pavilions to the top of the Centre Pole by a daring young lady. This part of the exhibition will be free to all, and will doubtless draw a large crowd. By all means come and witness the circus. One thing we wish to warn people against, and that is the pickpockets which usually follow circuses around. They are in no way connected with the show, but are always around ready to entrap the unwary into games of chance of every device. Save your money and go to the show.

Fatal Stroke of Lightning. The heavy storm on Thursday last was not without its fatal results in this section. John Mealy, son of Henry Mealy, who lives in Farmington township, Clarion county, was coming to town with a load of staves and stopped at Mr. Wentworth's, about two miles from this place, to feed and take dinner. He had just got his team hitched up after dinner and was standing on his load ready to start when the lightning struck him and he fell back dead. Jas. Black and Geo. Hood, who were near the scene ran to his assistance but no signs of life were apparent. A mark under the chin running around to the back of the neck and part way down the spine was all that could be found on the body. Both barges were knocked down, and one of them was so badly injured that he will probably be unfit for further use. The remains of the deceased were taken to his home and buried on Saturday. He was about twenty-two years of age and unmarried. He had always borne the reputation of a steady, industrious young man.

Additional Court Minutes.

C. J. Harris obtained judgment against Jenks township for \$718.38.

C. M. Friabee vs. John Kinnear, verdict for plaintiff for \$27.00.

J. D. Ainger vs. L. Agnew, et al, nonsuit taken.

Cascade Petroleum Land Association vs. T. D. Collins et al, verdict for plaintiff.

J. B. Pearsall was appointed Treasurer of Barnett township by the court, and T. W. Allender collector of Harmony township.

An argument court was appointed for the third Monday of July.

W. J. Heywang Esq., of Titusville, and Hon. Joshua Douglass of Meadville were admitted to practice in Forest county.

The grand jury recommended that the stove pipes in the lower rooms of the court house, and some of the upper ones be repaired; that some steps be taken to keep cattle from grazing and running at large on the public ground, and that the old shingles, rubbish, &c., be removed from the basement of the court house, and thus guard against what might be a conflagration in the future.

Council Proceedings.

Town council met at Commissioners office, Tionesta, May 22, 1880. Present, N. S. Foreman Burgess, and Councilmen Shawkey, Bonner, Wenk, Clark and Joyce. Minutes of last meeting read and approved.

On motion it was agreed to levy a work tax of four mills on the dollar of valuation.

On motion it was agreed to pay one mill boro cash tax and one mill general fund tax.

On motion it was agreed to pay Road Master \$1.75 per day, laborers 15 cents per hour, and team and man \$3.50 per day or 35 cts per hour.

On motion John Muenzenberger was appointed Road Master for ensuing year.

On motion Jas. Swales was appointed collector of cash taxes in Tionesta for ensuing year to receive 5 per cent. commission on collections, his bond to be approved by the Finance Committee. On motion the Finance Committee were instructed to attend to the collection of the balance due Tionesta Boro, by T. C. Jackson, ex-collector.

Bill of N. S. Foreman for work on road presented, amount 50 cts; on motion the bill was received and an order drawn for amount.

On motion adjourned to meet at call of the Burgess.

J. T. BRENNAN, Secretary.

The New Pipe Line.

Regarding the new pipe line which is being laid from Kane to Turkey City, and for which a large quantity of the pipe is being hauled from this station, a Clarion correspondent of the Derriek says:

The new six inch line from Turkey City to Kane, was completed as far as Edenburg yesterday. The force of men employed has been largely increased and there is now over one hundred at work on this end while an equally large force is at work on the Kane end, coming this way. After leaving Shippenville the pipe will have to be distributed by teams and will require at least fifty from two to three weeks, to complete the distribution. A large amount of ditching is being done. At one place, between Monroeville and Beaver was noticed a continuous excavation about two feet deep and a mile long. It is expected that the line will be completed, ready to run oil, by the middle of July or the first of August at the furthest. The following figures will show about how much capital will be invested in this line. We do not pretend that the estimates are strictly accurate, for of course it would be next to impossible to get them so, but they are not many thousands out of the way:

Table with 3 columns: Description, Amount, Total. Rows include 60 miles 6 in. pipe at \$1.50 per ft., amount for labor, amount for staves, amount for right of way, and a total of \$745,800.

The computation of sixty miles of six inch lines from Turkey to Kane. That of fifteen miles of four inch lines from Turkey to the Butler fields, and the thirty miles of four inch line from Kane into the Bradford region.

This scheme has proven a God send to many men out of employment in the Clarion field, and all who want to work have now an opportunity to have something to do for several weeks at good wages. Once the line is completed three million barrels of empty tankage in the lower field will be accessible for Bradford production. This for a time will ease up the overflowing tanks in that quarter, but when the tanks are full here what will be done?

Collectors Notice.

All parties having unpaid County and State taxes for 1879, will please pay the same without further notice and save costs. P. M. CLARK, Collector, May 19, 1888.
