-A Lucinda correspondent of the Clarion Democrat savs :

The editor of the FOREST REPUB-LICAN in last week's issue thinks very strange that Democrats delight so now in military equipments, which he says the sight of a few years ago would throw them into spasms. Well, yes, we happened to live about that time, but not in this nest of woods. We remember the spasms and their effect on both Democrats and Republicans. The spasms threw the Democrats into the army and the average Republica n into offices and places of trust where they could boast of their loyalty (?) without the unpleasant smell of powder.

We had the pleasure of a short talk with the next Treasurer of Forest county, and he says things over there are all right for Hancock and English, isfied and will send you a good report in November.

When we published that item we such a commotion in the Democratic and hit the "bull's eye." But the assertion that "the spasams threw the Democrats in the army and the Republicans into offices and places of trust" is good. Yes, it's rich ; aye, worse, it's false ! Again. He says he had a talk with the "next Treasurer times at his post-the carpenter trade -six days in the week, ten hours to the day, and more if necessary, and is too busily engaged to be galanting around over Clarion county getting off

such bladderdash as the correspondent speaks off. The "next Treasurer" is familiarly known as Smith Foreman. -Dr. Tanner completed his forty days' fast at noon on last Saturday. The suffering which he endured for forty days must have been great, as his only diet was water, and toward the last even this would not agree with him, and he was attacked with frequent spells of vomiting. He was too plucky to give up, however, and to the surprise of every one got though all right. It was supposed that he would experience his greatest difficulty in break ing his fast, when he would begin to eat again ; but such was not the case,

as he ate quite heartily of water melon and took frequent and large draughts of milk. Late in the day he ate meat and it is thought he will have no further difficulty. Dr. Tanner is probably one out of ten thousand that

## Grand Garfield and Arthur Meeting at Cooksburg.

On the 7th inst., your correspondent had the pleasure of enjoying the kind hospitality of Judge Cook, upon whose door the "latch-string is always out." The Judge soon made known the fact that the Garfield and Arthur club, of which organization he is President would meet that evening, and we were most cordially and kindly invited to stay, and join in the good work now being done all through this great\* country.

At dusk the people began to gather, and by 8:30 p. m., the hum of Garfield and Arthur voices silenced the roaring waters of the Clarion. The crowd soon proceeded to the school house where the meeting was called to order by the Chairman. Proceedings of previous meeting were read, after which a number of others joined those already on the rolls, sending the membership to forty, and which in a few weeks will number one hundred. The usual business being concluded, Mr. Berry of Fagundas, who was present, was loudly called for, and addressed the meeting with a short, off-hand speech, which created good feeling among all. Then followed Mr. Calvin, with a well propared speech, which would do credit to any audience; it was a clear and forcible statement, showing conclusively to all inteligent listeners the reasons why the Republican party should be continued in power.

We saw the familiar faces of Judges Cook and Kerr. The former briefly addressed the meeting after Mr. Calvin. Also our good old friend Tommy Maze, who is the Captain of the Co. Judge Coon was followed by Mr. Dobson, who has an unusual amount of Republican fire in his eye, and knows how to throw it out. On the whole the meeting was a grand success, and cannot be otherwise with such men as are the leaders of this organization.

A vote of thanks was tendered Mr. Berry for his hearty response and appropriate speech.

Grand old Barnett will roll up such a Republican majority as never before in her history.

We were informed by Judge Cook that a Garfield and Arthur pole will be raised during the campaign, at his place. Gen. Harry White will be present and deliver one of his excellent sey's Blood Searcher." For sale by addresses. Due notice will be given in your columns of the time and place, so that all who desire to do so may join us. VOILA TOUT.

Speeches and Public Service of eral James A. Garfield," is out and canvassers are at work taking orders for the same. It is a very handsomely printed and bound book, and would ornament any library. The subject of the work is to day one of the mos illustrious men of the times, and one in whom all Americans are more or less interested. Aside from his candidacy, the life from boyhood to the present day of one so eminent is alone sufficient to arouse a great deal of interest in the hearts of the American people ; but being the candidate of the greatest and noblest party that ever existed, for President, makes the life of Gen. Garfield of still greater interest and importance to every citizen. Every young man should read it and\* learn a lesson of industry and energy. The book is written by Russell H. Conwell, author of the "Life of President Hayes," and "Life of Bayard Taylor." Besides the life of General Garfield, the book contains a full and graphic sketch of Gen. Chester A. Arthur, candidate for Vice President. Mr. John Heath has the agency for this county, and has already a good list of names on his book, and we hope to hear that every Republican, at least, who can spare the money, has subscribed for the work. The price is \$1.50 and \$2.00 per volume, acording to binding.
