LOCAL AND MISCELLANEOUS.

Rev. A. O. Stone will preach in the M. E. Church next Sunday evening.

M. E. Sunday School at 10 o'clock a. m., and Presbyterian Sunday School at 3 o'clock p. m.

County Committee Attention!

There will be a meeting of the Republican County Committee of Forest county, at the office of E. L. Davis, Esq., Tionesta, on Tuesday morning Sept. 28, at 9 o'clock.

Chestnuts are almost fit for eating.

The oil market opened and closed yesterday at 91c.

Alex. Dale is the latest "exoduster" to Bradford from this place.

The emaciated form of John Shney was noticed on our streets yesterday.

Rev. Stone expects to deliver his farewell sermon at the M. E. Church next Sunday evening.

Mrs. S. J. Blaine and daughter, Mrs. Chas. Hobbs, are visiting at Dr. Blaine's. They expect to remain a few weeks.

The much-needed rain came on Monday afternoon, but 'twas quite enough. It had the effect to cool the atmosphere wonderfully, however.

Our glass ball "mashers" are improving steadily and will doubtless be challenging some of their neighbor sportsmen to a friendly contest before long.

Arkansas held an election on Monday, and of course, as usual it went largely Democratic. Now look out for a large display of poultry in the Democratic papers.

May & Kelly will put down a well at Balltown forthwith. T. J. Van Giesen is engaged putting up the rig, and drilling will probably commence in a week or ten days.

The borough schools opened on Monday morning with a large attendance, and the indications are that they will be a success. If parents will lend their aid there is no doubt of successful results.

Mr. J. T. Hoovier, of Mercer county, paid his brother, J. C., a visit during the week, and called upon Mr. H. is a Republican of the true blue stripe, and says everything is working tip-top for the party in his county.

The steamer Vera Cruz was caught in a storm off the coast of Florida on Saturday Aug. 28, and was lost. Out of seventy passengers on board but 15 or 20 were rescued. The telegraphic accounts are frightful to contemplate.

The Republican State Central Committee meets in Franklin tomorrow. Hon. Galusha A. Grow and other prominent Republicans will be present, and a rousing mass-meeting is billed for the evening. Quite a number of our citizens will attend.

Miss Etta Battin, who has been spending the summer with her sister, Mrs. A. O. Stone, departed for her home in Steubenville, Ohio, on Thursday last, Mrs. Stone accompanying her. Miss Battin bears with her the kind wishes of many Tionesta friends.

The Republicans of Dutch Hill and vicinity organized a Garfield and Arthur Club at the Heath school house, on Saturday evening, Sept. 4. Following are the officers: President, W. B. Heath; Vice President, John Weller; Treasurer, Jno. Heath; Sec'y, Jno. Osgood. The evening was a very disagreeable one, yet quite a number were out and signed the roll, and a large number of others have signified their intention of doing so at the next meeting. Is it not time our Tionesta Republicans were doing something of this kind?

A man by the name of Wallace has invented a new coffee-pot, but does not know what to call it. He thinks "the Wallace coffee-pot" would not sound like a new invention.—Es. Perhaps "Captain" Kepler could suggest something pretty good in this line.

Rev. Hinkling, who has been occupying the Presbyterian pulpit for the past three or four months in this place, departed for Pittsburgh on Monday, where he will resume his studies. He made himself very popular with the people of Tionesta, and leaves with the best wishes of all.

Robert McBride left on Monday for a visit to his relatives in Armstrong and Butler counties. The old gentleman is rapidly declining, and realizing that his career on earth could not be of much longer duration, he expressed a wish to see his relatives once more, and took this opportunity of doing so.

J. D. Hancock Esq., of Franklin, Attorney for the P. T. & B. R'y, was in town on Saturday. The road is negotiating with Geo. Hunter for a piece of ground near the depot whereon to build a new switch, so as to afford better shipping facilities for its increasing freight traffic at this point.

Hon. Wm. D. Brown, our candidate for President Judge, paid Tionesta a visit last week, and if the many complimentary remarks made of him by all classes of voters can be taken as a criterion he will carry this section nearly solid. We have the first one to meet who does not speak of Mr. Brown in the highest terms of praise.

The last excursion of the season to Niagara will take place over P. T. & B. R'y on Thursday, Sept. 16th. The rates of fare, time of leaving and general features will be the same as the last. We received notice too late to give full particulars, but can assure our people that this will be the last excursion of the season. Bills will be circulated giving full information.

Mr. Thos. Snodgrass, we understand, has left President and moved to Spartansburg, Crawford county, where he has engaged in the mercantile business. While we are sorry to have him leave this section we are glad he has not gone very far away. If the people of that neighborhood know how to appreciate a first-class citizen, Mr. S. will be heartily welcomed by them.

The Chautauqua excursion train on its way to Tidouote on Saturday morning last came near making mince meat out of some horses that had been turned out to pasture above Jamieson station. Two of the animals ran ahead of the train a distance of nearly two miles, crossing a trestle several rods long. They escaped with their lives, strange to say, but were quite severely cut up and bruised about the limbs.

Miss S. A. Dale is as much of a success at raising fruit as she is at rearing beautiful flowers, if we are to judge from the delicious peach that melted in our mouth one day last week. The tree from which this peach was taken was the result of placing a seed in the ground two or three years ago, which sprung up and now bears such luscious fruit. We propose to follow the example and see what two or three years may bring forth.

Yesterday's elections in Vermont show large gains for the Republicans. The Governor and all State officers are elected by majorities ranging from 20,000 to 30,000. The Legislature will be largely Republican and will return Geo. F. Edmunds to the Senate when his present term expires, which will be next March. The Congressional delegation will be Republican solid, which will be a gain of one for the Republicans.

The Foxburg Gazette and Clarion Republican have merged and will be published hereafter at Clarion as the Republican-Gazette, A. A. Carlisle, retiring and W. R. Johns assuming the editorial management. Mr. Carlisle made the Republican one of the spiciest and best papers ever published in Clarion county, and he will be missed very much by its many readers. May prosperity attend him, and may the new venture meet with big success.

A full line of iron stone China ware and decorated tea and toilet sets. Sweet potatoes, peaches, &c., at 2c. Wm SMERBAUGH & Co.'s.

Goods cheap at Aug. 11, '80. HASLET & SONS.

The State elections take place in Maine next Tuesday, and if the most unbiased reports can be relied upon the Republicans will rout the fusionists by majorities ranging from 10,000 to 15,000. The State has recently been classed among the doubtfuls, but it is now only a question of majority with the Republicans. The result will have a good deal of influence upon the October States, and will doubtless be the means of giving us an easy victory in Indiana.

The Greenbackers of Titusville and vicinity had one of the biggest drunks that has been witnessed in this section for many a day, on the occasion of their mass meeting on Saturday last. Free trains were run from Oil City and Corry, and free beer and sandwiches were "set up" at the meeting. This programme had been advertised for several days, and was sufficient to draw Greenbackers from far and near. The bung was knocked out of Col. Roberts' "bar!" and the expenses of the spree were paid out of the contents of the same. The Derriek has this to say of the jamboree: "Free beer attracted an immense crowd at the Greenback meeting at Titusville, Saturday night. There were good speakers present, but the beer counter had attractions greater than eloquence. Free speech was drowned in free beer, and the result was a disgraceful scene of drunkenness and rowdiness, of which any party should be ashamed to assume the responsibility. No votes were made by it, while the respectful voters of the party were scandalized. Let there be no more such."

BARNETT TOWNSHIP. All the News from this Thriving Locality Carefully Prepared by a good Correspondent.

CLARINGTON, Aug. 30, 1880. James Flick, who cut his knee severely sometime ago with a broad-ax, is able to be around again without crutches.

Andy Lawson, who is working for Joseph Landers, cut his foot severely a few days since. Yes, Vabinder, who works at Coleman, is the last one on our list; the broad ax was the instrument; the place, his knee.

And we are reminded that, being at Cooksburg a little more than a week ago, we saw Uncle Tommy Maze engaged in making a pair of crutches, upon inquiry we found they were for 'Squire Brennaman, who had been so unfortunate as to cut his foot. Why so many accidents so closely related in time, nature, and place? Here is a chance for speculation and "research."

The berry season is about over, although some of our people expect to gather "a few" yet. Some big picking is on record. An average of a gallon an hour for the actual time engaged in gathering is good for any kind of berries, but that has been beaten badly—almost two to one. Some wonderful berries have been found; blackberries an inch long—that's a long blackberry—yes, we know some of your readers have seen berries longer than that, but then a berry an inch long is a big one for Barnett. Barnett is modest; it does not aspire to the jack-knife. And then, too, there is in the "windfall" a bush of "white" blackberries; berries were gathered from it the present season; so at least we were informed. There used to be a "bush" of the same kind near the old "Shippen Road," yet we do not make this assertion upon our own authority. Very little wine was made compared with what is usually made during the berry season.

Messrs. Elder & Neely are putting up a steam saw mill on their property—a part of the "Davis tract"—up Cherry Creek Mill. The mill, which is not a very large one, is located on Cherry Creek near the "Snake Hollow Shanties," and will be completed, and cutting lumber, perhaps, about the middle of September.

Judge Cook has completed a bracket dam at Maple Creek, about a mile above the "Blackberry Saw Mill." The saw mill at Millstone has been "reorganized" considerably during the summer; it is now a steam mill. The boiler and engine bear the stamp of W. H. Jenks, of Brookville. We were informed that the engine in this mill is the first one made by Mr. Jenks. Business is quite brisk at Millstone; sawing, boat-building, timbering, &c., &c. Jack Rardon bosses the boat-building.

A dam built of brush and stone has been constructed across the Clarion just below the mouth of Millstone thus enabling boat-building and rafting at any stage of the Clarion. A similar dam, for a like purpose, has also been built across the Clarion below the mouth of Coleman Run, by Messrs. Thompson & Darr. The dams have been put in to stay; they do not amount to "obstructions," in the navigation of our river and are of great value to the Millstone and Coleman companies.

Our school board met on Saturday last at the house of L. Warner, Sec'y of the Board. Mrs. Jno. White was engaged as teacher at the White School house; Miss Sadie Kerr for the Fitzgerald school; Miss Jennie Shields for the Cooksburg school, and Miss Edith Scott the Warner school. Clarington and Greenwood are yet to be supplied. The contracts for furnishing four of the school-houses with coal for the winter were given out at the following figures per bushel: 17c., 16c., 15c., 15c. There were very few bidders present. Philo Williams was appointed collector of school tax by the board.

Judge Coon has the foundation for his new house on the Steele Farm laid, and most of the lumber on the ground. His house will be of the cottage style, about 26x32 and 16 feet high; roof 1-3 pitch. The Judge has improved the appearance and value of his farm considerably since he moved thereon. Hazzard Spence now lives on the old Zents place. He is quite busy with his boat-building interests; building at Coleman, Troutman and Baxter.

E. C. Mays and daughter, Miss Lu, were rusticiating "amongst us" last week. They returned home Saturday. Miss Cora Myers left us last Friday after a two weeks visit with her aunt, Mrs. Long. Miss Eva Reynolds, who has been in the "far West" for a long time, is visiting here with her father and brother. The remains of Joseph Johnson, which had lain in the old orchard at Maple Creek for about 24 years, were lifted by his son, Albert Johnson, and reinterred at Mt. Tabor, Jefferson county, on the 23d inst.

Mr. Johnson above referred to and wife paid his sister, Mrs. Wm. Wallace, a visit, returning to his home in Washington, D. C., on Saturday last. Mrs. Wallace accompanied them on their return. We have a singing school. Mr. Cochrane wields the baton. There was almost a flood in the Clarion Monday (this) morning; six or eight inches would have done the business. Wallace's started their timber, Moore's their boats and the Coleman Co. all their stuff; this is about the extent of the run from here. We understand that there is a big lot to run upon the head waters of the Clarion. From present advices it seems that there will be a big lot of timber put in the coming winter. Corn looks well as far as appearances go; it is late, however, and should there come an early frost the crop will be almost a failure. Mike Dunkle has the best field we know of. R. J. Hillard has the biggest corn, measured by the stalk, in this locality; some of the stalks measure 10, 12, and 12 1/2 feet. Oats were light. Buckwheat looks well, and if not hurt by the sun will be good. Some pieces are ready to cut now and are well filled. Our wheat crop was generally a failure. Wm. Shields, however, from one-half an acre harvested 17 bushels. Mr. Shields and Mr. Daniels take the lead out this way in ditching; the number of rods ditched by Mr. Daniels during the summer goes up into the hundreds; it is doing his farm good. We have had plenty of rain lately; in fact nothing has suffered so far as we have learned on account of drought during the summer.

By THE WAY. —We would call attention to the advertisement of the Meadville Business College. This institution has now the finest rooms, the best corps of instructors and the most complete actual business department of any institution in the State.

Notice Is hereby given that parties who have or shall hereafter cut timber or otherwise trespass on lands in Howe, Kingsley or Jenks townships, belonging to the Funk Estate, will be prosecuted to the full extent of the law. FUNK HEIRS.

The following is the report of Holman school, for the month ending August 30th, 1880, Mary L. Clark, Teacher: No. of pupils enrolled, 29; average attendance, males 11, females 13; percentage, males 75, females 91; Clara, Ella and Lewis Zents, Vernie Hunter, Ida and George Conroe were present every day during the month.

Report of the West Hickory school for the month ending Aug. 30, 1880: Number enrolled for month 10; average attendance 8; percentage of attendance for month 80, for term 83. Pupils worthy of special mention for regular attendance, Sadie King, Jessie Siggins, George King, Frank Jones, Forest and Isaac Siggins. Number of visitors for month 6.

JULIE E. TOOMEY, Teacher. VALUABLE FACTS FROM A SAFE SOURCE.—The affairs of this country have become so extended that it is only by a carefully prepared synopsis in the form of figures that one can hope to understand what is really going on. Hon. A. R. Spofford, the Librarian of Congress, is the only man who has the facilities at his command for collecting complete national statistics and he does it with the greatest care and accuracy. His latest issue, "The American Treasury of Facts," has been sent us by Messrs. H. H. Warner & Co., proprietors of the valuable Warner Safe Remedies. This book is a miniature cyclopedia in itself, containing, in addition to a vast amount of national matter, about all of value that has transpired in this country during the past year and reflects credit upon the compiler as well as upon the enterprise of Messrs. Warner & Co. in selecting it.

Iron City College. But few persons comparatively, are aware of the facilities afforded by this institution for preparing young men for active business life. We presume that there is not another institution in the United States that offers equal inducements in the way of acquiring a thorough practical business education. The principal, Prof. J. C. Smith, is one of the most thorough and best known educators in the country, and his assistants are all well qualified and thoroughly trained teachers. The college room surpass in neatness and elegance anything we have ever seen in the way of school accommodations. —Pittsburgh Daily Post, 17th inst.

Having known this institution for years, we would advise parents who have sons, to educate, or young men desirous of preparing themselves for business, to call on or write to Prof. Smith, for circulars containing full information.

"BAROSMA"—Women need it! It regulates the female functions, relieves painful menstruation and sickness, and can never do any harm. Prepared by E. K. Thompson, Titusville, Pa. For sale by bovard. 2c.

TIONESTA MARKETS. CORRECTED EVERY TUESDAY, BY RELIABLE DEALERS.
