LOCAL AND MISCELLANEOUS.

REPUBLICAN MEETINGS.

Republican meetings will be held at the following places. In addition to speakers mentioned there will be others present to address the people. Republicans in the different sections should interest themselves in bringing out the voters and make these meetings successful and enthusiastic:

At Guiton School House, Tuesday evening, Oct. 19. Speakers,—Dr. S. S. Towler and E. L. Davis.

Whig Hill, Wednesday evening, Oct. 20. Speakers,—Dr. Towler, Hon. J. B. Agnew and Miles W. Tate, Esq. Nebraska, Thursday evening, Oct. 21. Speakers,—Dr. Towler and E. L. Davis.

Shriver School House, Friday evening, Oct. 22. Speakers,—Dr. Towler, Hon. J. B. Agnew and S. D. Irwin, Esq.

Stewarts Run, Washington School House, Saturday evening, Oct. 23. Speakers,—Dr. Towler and S. D. Irwin, Esq.

—The campaign waxeth warm.

—A vote for a "change" is a leap in the dark.

—Prof. Venor says we will have snow this month.

—The dear people will get a rest after November 2d.

—The oil market opened yesterday at 98 1/2c, and closed at 98 1/4c.

—Mr. H. H. Keeler and family are down from Bradford for a few days.

—The Republican motto from now until November 2, is work, work, work!

—"Tariff for revenue only" threatens the existence of every industry in the country.

—Say, there! you feller with the long face and drooping chin! Did yer hear from Ohio and Indiana?

—Our fine weather had a back-set yesterday, and the indications now are that we will have a spell of bad.

—Mrs. J. E. Blaine, Mrs. Sue Sharp and Miss Anna Jackson of this place attended the Cincinnati Exposition last week.

—Capt. Samuel McKee, of Millers-town, cousin of Esq. Irwin, was in town Monday. He accompanied the delegation of Knights which attended Mrs. Kepler's funeral.

—Mrs. Geo. Scott has for several weeks been lying in a critical condition with typhoid fever. Her condition, at this writing is somewhat better, and hopes are entertained for her ultimate recovery.

—Sam. Douglass, who lives a short distance from Trunkeyville, on the east side of the river, will have a shooting match for turkeys, pigs, &c., on the 22d inst., to which the shooting fraternity of this section are invited.

—Mr. S. J. Wolcott, who has for several weeks been quite dangerously ill with the Bradford fever, is still quite low. He is, however, improving slowly, and his physician considers him out of danger, which will be good news to his many friends.

—The Democrat still raves and abuses Garfield for voting against putting "coffee" on the free list. Come, Kep., will you never forgive the man for thus interfering with yourself and Bill Wallace in the traffic of this very convenient article about election time?

—Mr. Geo. S. Hunter has again been taken down sick, and for several days has been in a critical condition. It is impossible, at this writing, to state anything definite regarding his case as his condition changes so often and very suddenly. May he soon have a radical change for the better.

—Mr. David Dougherty, of Cataraugus Co., N. Y., and Miss Alice Weber of Tylersburg, two popular young people, were united in marriage by Rev. Father Cosgrove, at Laponto Church, on Tuesday, Oct. 12, 1880. The happy young couple have the best wishes of their many friends.

Republican Meeting at Fagundus.

There will be a rousing Republican Rally at Fagundus on Friday evening next, Oct. 15th. The best of speakers will be present and all other arrangements for a rousing demonstration are being perfected. We hope to see Tionesta as well represented as possible, and as many as can should make it a point to be on hand and lend their assistance in making this meeting a grand success.

—Mr. H. M. Thompson—"Cully," for short—had the misfortune to lose the end of his right thumb on Saturday last. He was engaged in loading lumber at Jamieson & Copeland's mill on Tubbs Run, when a large stick dropped on the aforementioned thumb pinching it off just back of the nail. It was a painful thumb-p, but Cully will recover.

—Mr. Peter Berry is getting materials on the ground and will at once commence a well at Balltown near his No. 1, out of which oil has been running ever since it was finished. There is oil at Balltown, and don't forget it, else why would Mr. Berry put down this last well so close to the other. There will be a boom in that section at no distant day.

—Mr. M. Ittel, who has been engaged near Bradford for some months will move his family to that place this week, leaving on Friday. We are sorry to lose so worthy a family from among us, but if go they must, we wish them all happiness and prosperity. When tired of that section we hope they will return to Tionesta. They will be located near Rew City.

—Sergeant John Jamieson attended the dedication of the Titusville Armory, with the Bradford City Guards on Thursday last, and stopped here a few days on his way back. This company took the "broom" for good looks and gentlemanly deportment at the dedication, and Capt. J. C. Fox, who is very popular with the boys of his company, was the recipient of many handsome compliments.

—The Democrat, in trying to belittle and ridicule the grand Republican demonstration at Cooksburg, and casting slurs upon the highly respectable gentlemen and citizens of Barnett township, has made a step which will cost its party a score of votes in that section. Honest men of all parties are ready to give credit where it is due, and will frown down all such falsehoods and misrepresentations, especially when coming from so disreputable a source.

—We came near losing our candidate for County Surveyor, F. P. Whittekin, the other day. He was rummaging over some of his traps, and ran across an old revolver. Proceeding to investigate it, not knowing it was loaded, as usual, the blamed thing "went off," the ball entered the palm of his hand, passing upward and lodging somewhere between the wrist and elbow. Dr. Blaine probed the wound, passing his probe several inches up the arm, but was unable to detect the ball. The pistol was one of the smallest calibre, and as no bones were broken the injury will probably give Mr. W. no serious trouble.

—Some time ago we published Gen. White's challenge to James Mosgrove, and to-day, we reproduce it. The challenge is a fair one and has remained open several weeks, yet Mr. Mosgrove has not had the courage to accept. Is it because he has not the ability to cope with Gen. White in debate, or is it because he is afraid to tell where he stands? If the former is his reason for refusing, then he virtually acknowledges his inability to represent the people and take care of their interest properly, and should not ask to be sent to Congress. If it is the latter, where do his supporters expect to find him after he has been elected?

—Mr. G. G. Butterfield received a telegram on Monday last conveying the sad intelligence of the death of his father, which occurred at his home in Livermore, Westmoreland Co., Pa., on that date. Mr. Thomas Butterfield was in his 67th year at the time of his death and up to within a little less than a year had never known what it was to be confined to his bed. He was one of the most energetic, hard-working men in all his section of country, never being known to be idle a day since old enough to do manual labor. He was one of the main stays in the Presbyterian Church from early life to the time of his demise, and will be sadly missed and mourned by the church as well as all who ever knew him.

OHIO AND INDIANA!

We have glad tidings of great joy for the Republicans this morning. The very latest news indicate that Ohio has gone Republican by from 20,000 to 30,000 majority, which is far beyond the most sanguine expectations; and Indiana is lost to the Democracy. This is almost too good to believe, but it seems to be true all the same. Dispatches up to 4:30 this morning bring news of large increases throughout the State for the Republicans, which if other places not yet heard from do anything like as well will give us the State by 5,000 to 8,000 majority.

In West Virginia the Republicans have made immense gains, and there are great hopes that we have carried the State. We would like to make some comments on these glorious results but time will not permit; suffice to say General Garfield will take President Hayes' place on the fourth of March. The Democrats virtually admitted that they must carry Indiana by 5,000 to 10,000 in order to make the election of Hancock sure. They have not done it, and the Democracy are once more doomed to defeat.

—The Allegheny river improvement is progressing. Mr. George W. Butteridge with a force of teams and men is engaged in moving rocks from the troublesome riffle below Pitohole creek. After finishing them he will work down stream moving rocks wherever required. The crane boat "General Harry White," is now in the vicinity of Red Bank, and is doing effective work. A third force under H. B. Hulings is working from Kittanning down. Dams at Six Mile Island and Nicolson rapids have been built and are models in their way.—Derrick. The improvement of Pitohole riffle will prove a God-send to the lumbermen and pilots of Forest county, and the upper end of the river.

—Messrs. Otto Wilkins and W. G. Bowman, of Coopers-town, Pa., two of Venango county's popular young men, spent a few days very pleasantly in town during the past week. Mr. Wilkins is the famous rifle shot many of our readers have heard so much about of late, he being second only, if not equal to the renowned Dr. Carver. He recently shot two mackerel at Columbus, O., with Dr. Alexander, Champion of the West, in both of which the latter was badly beaten. On Saturday afternoon last Mr. Wilkins was prevailed upon to give an exhibition of his wonderful skill, which he did in presence of a large number of interested spectators on the shooting grounds at the upper end of town. He was not feeling in a shooting mood but rather than have the crowd go away disappointed he took the rifle and began the slaughter of glass balls at a terrible rate. The balls were thrown in the air by Mr. Adams as fast as he could pick them up, and they invariably came down in fragments. He then took the balls himself, throwing them with the left hand and breaking them before lighting on the ground. Pennies, quarters, chestnuts, lead pencils, etc., were thrown up only to be sent buzzing out of sight or fall in pieces to the ground at the report of his rifle. One of his difficult shots was to have a ball thrown into the air, after which he turned completely around and shattered it before striking the ground. The sport was thoroughly enjoyed by all and Mr. W. was voted a decided success as a "masher." Besides his wonderful skill Mr. Wilkins possesses rare social qualities, which make him a favorite wherever he goes. He shoots the Kennedy magazine rifle, manufactured by the Whitney Arms Co., in the employ of which company he has been for some time, his business being to test the guns made by them. We hope Messrs. Wilkins and Bowman will pay our town another visit and stay longer next time.

Republicans at Brookston.

BROOKSTON, Oct. 11, 1880. The Republicans held a very interesting and enthusiastic meeting at this place last evening. Gov. C. W. Stone of Warren, and Dr. S. S. Towler of Marienville, discussed the political questions of the day in a masterly manner, and the meeting throughout was a success. They are both very effective and pleasant speakers. Messrs. Brooks, Seybolt and J. B. White entertained the speakers in a hospitable manner and did everything

Neiltown Reveries.

Our woods are beautiful; the phiz of Dame Nature gives the provocation to the assertion that a painted face isn't beautiful.

Chestnuts are not more than a middling crop, if that.

The time of apple squeezing is come and cider aboundeth.

R. O. Carson milks 19 cows. Alf. Aspin is up and has his cows on the way to the milking place these mornings ere the stars have all paled.

Work on the church, or rather in it, was begun last Friday. About ten feet of the rear of the building has been converted into an entry or vestibule by means of a partition running across the house. Mr. Kern of Pleasantville bosses the job.

Mr. Clement Neill, our old young friend, is with us again.

Miss Lizzie Berlin of Whig Hill is here attending school.

Miss Ida Black will teach the Allender Run school this winter.

Mr. Dunham carried some of our girls over to Cataraugus the other night to an apple-cut; sorry he didn't take the rest of them—and the boys too. By-the-way, would there be anything wrong about some of our farmers making an apple cutting and calling in the boys and girls to help and have a good time? Very dear to our farmers are the principles of Jackson, and these were time-honored customs of the day, if our memory serves us right. Then, too, a corn-husking would be respoended too with alacrity. Where are the good old times? Like the flowers of the spring time they are fled; like an often washed colored cotton handkerchief they have faded; like enough they are dead; but that they were better than these we are not fully persuaded.

Prof. Ingell of Triumph, will be here on next Friday evening for the purpose of trying to organize a singing class.

School has begun at Pineville; the gentleman who taught there last winter—we know his name but can't spell it—calls the roll.

Poverty Hill boasts of an apple tree the apples of which are sour on one side and sweet on the other.

L. W. Hotchkiss, A. A. Hopkins, Dr. Acomb and David Baker, the other day, killed 14 squirrels that they shot and one that they didn't shoot; also one pigeon. Squirrels are not very plenty.

Our meadows are burnt up for want of rain; water is getting scarce.

BY-THE-WAY.

DIED.

KEPLER.—In Millers-town, Butler Co., Pa., October 8th, 1880, Mrs. Nancy Gibbs, wife of Geo. M. Kepler, aged 55 years.

The language of her husband, "All that a wife should be she was," well expresses her character. She was a lady of rare qualities of head and heart, and will long be remembered by a large circle of friends and mourned by the family circle of which she was the ornament and delight. Her husband recently commenced business in this county, and it was the expressed wish of the deceased that she might sleep near the family, and in compliance with that request she was buried here. The funeral procession was uncommonly large. A delegation of Knights constituted the pall bearers who came from Millers-town. The coffin was decked with flowers and evergreens in the form of the cross, emblematic of eternity and bright immortality, while the legend, "Rest in Peace," engraved in letters of light in pictures of silver, spoke the sentiment of all on the solemn occasion. The funeral services were conducted by Rev. C. Peters, of Millers-town. \*
