LOCAL AND MISCELLANEOUS.

Free Methodist Quarterly Meeting will be held in this place commencing next Friday afternoon and lasting over Sunday.

M. E. Sunday School at 10 o'clock a. m., and Presbyterian Sunday School at 3 o'clock p. m.

New moon. Pay your bets. Vote the straight Re—but hang it, election's over.

It looks as though we might have some fine weather.

Our local sportsmen are anxiously waiting for the "tracking" snow.

About everybody is ready for good solid winter weather now.

No vacation has been brought to this market yet. The first "skip" of snow will probably open up the ball.

The Pennsylvania Legislature will be Republican by a joint majority of forty-six. Good bye Coffee-Pot Wallace! Good bye.

Dr. Coburn bagged five very fine plump pheasants yesterday morning. They are very plenty this season, but not any too easy to get.

A slight mistake occurred in our official vote last week. Garfield's majority should have been 45 instead of 55. Otherwise the table was correct.

Now that the campaign is ended and the rush is over we are ready to do any amount of job work at the lowest possible figures. Give us a trial.

In the Thanksgiving proclamation published in our paper last week a mistake occurred in the date; it should have been Thursday, Nov. 25th, instead of Tuesday, the 12th.

We call attention to our fine line and low prices on pocket cutlery, horse, shoes, cloth and hair brushes. Also fresh oysters every week. Wm. Smearbaugh & Co. It.

The excitement over the election has about all died down, and everybody has gone to work with renewed vigor, and more or less satisfied with the result. This is as it should be.

Miss Grace Davis of Warren, and Miss Lillian Benedict of Pleasantville, are visiting their cousin Miss Maude Davis. Miss May Mook of Tidoute, was a guest of Miss Davis over Sunday.

The epizootic has broken out among the horses in town and several are laid up with the disease. It has run its course in most places and will probably not last long in this neighborhood.

Harvey Foreman of Bradford, accompanied by his wife and child, paid his brother, Treasurer Foreman a visit during the week. He talks of moving back to this place soon, and we hope he will.

Mrs. Col. Thomas returned home on Thursday last from a few week's visit to her brothers and friends in Philadelphia. Mrs. O. B. Hoskins, who visited friends in N. Y. City, returned on the same train.

A heavy rain and wind storm passed over this section on Saturday night last. Considerable damage was done in some of the surrounding towns, but in this immediate vicinity we believe no serious consequences resulted.

R. D. and A. B. Laughlin, and Thos. Liggett, of Pittsburgh, have been rusticated in this place for a few days past. They came armed to the teeth and have been slaying game promiscuously. All are boss boys and we hope they will have a good time and go away well satisfied with their visit.

Our space is now ample and we hope our friends throughout the county will send in communications and keep us posted on what is going on in the several districts. It is a hard matter to get up a readable paper without some assistance this way and we hope our readers will appreciate the fact and not be backward about sending in their effusions.

Thanksgiving two weeks from to-morrow. Now is the time to gobble on to your gobler. There is everything to be thankful for; even the disappointed Democrats who were so unmercifully whipped at the late election can be thankful it was no worse. They can also thank the Lord that the country will fare better than if they had been successful.

Mr. Henderson complains seriously about the many long faces he has to shave since the election; he says he could even stand that, but there are so many who seem to think that he can keep a large family on "trust" for pay, and it takes very close figuring to make both ends meet. There is little enough in the barber business in this place when all pay up promptly, and no one should expect Mr. Henderson to trust them.

The boiler for Beck & Hasselback's new mill at Blacks Corners is expected to arrive here this week and will be moved to the mill by Mr. S. S. Canfield, who has done as much of this kind of work as any man in the country, and knows how to handle heavy machinery. This boiler weighs over five tons, and will require at least four teams to handle it. It is probably the heaviest ever brought into this county.

Our lumbermen have been blessed with a very nice flood in the creek and river during the week, and several timber and board rafts have been started on their way to the lower markets. Some of the lumber was run from as far up the creek as Balltown, and quite a lot was stuck and "stove-up." Everybody is happy that the flood kept back until election was over. We hope all will get through safely, and the men return with their pockets bulging out with ducats.

The Chairman of both the Democrat and Greenback parties in this county issue addresses of congratulation to their parties in which they each express great confidence in their ability to gain victories in the future, and each mildly insinuates that the other party is on its last legs. For the life of us we cannot see what either party has to glory over, and we believe it would be out of order at all for our chairman to come out in a card and intimate as much.

The death rate within the past three weeks among children in this vicinity is unusually large. Mr. Samuel Ruth, who lives near Oldtown buried a child about 2 years of age on Sunday last, it being the second within two weeks. The disease seems to have been something of the nature of lung fever, Henry Ahlers of Dutch Hill buried a child about four years of age on Sunday; we did not learn the particulars. A little son of Christopher Zuendel, aged about one year, died on the 30th ult.

The paying and receiving of election bets is now in order and the winners are wearing smiling faces. Those who have to pay are doubly disappointed, first that their candidate is defeated, and second, because they are out of pocket. The hat dealers throughout the country will doubtless do a good business for several days, as "a new hat" is about the first thing to roll out of a man's mouth, as it were when talking about betting. Pay up your bets, gentlemen, and you'll all feel easier.

It is settled that the Republicans have swept the country by such a tremendous tide that no man or body of men will dare to question the result. Now let business boom, and the irritation of the past few months be forgotten. The country has got a big job off its hands, and has disposed of it admirably and decisively. There is nothing to do but to shake hands over the outcome and fall to work building up the moral and material prosperity of the "best government the world ever saw."

Mr. Rob't Shriver departed yesterday with his wife for Marquette, Kansas, where he expects to make his future home provided all parties are suited. Mrs. Debbie Clark, sister of Mrs. Shriver, accompanied them and will join her husband, Will Clark, who embarked for that State some time ago, and has been doing well. Their many Forest county friends will wish them all abundant happiness and prosperity in their new home. If Kansas succeeds in getting all such families as these within her borders she will never die for want of energy on the part of her citizens.

It gives us pleasure to state that Hon. Wm. D. Brown has been elected President Judge of this district; the majority was small, but nevertheless decisive, and very good for the odds against which he had to contend. We all along thought the endorsement of a straight Democrat by the Greenbackers would not hold good, and that the men who made the bargain could not deliver the votes, and it turned out so. Whenever a party makes a wholesale sacrifice of principle and endorses men and principles as dissimilar to their own as day is to night, just that instant it releases its hold upon the respect of the people and loses ground. The Greenbackers fused with the Democrats in Warren county on all local offices and were fearfully beaten by the Republicans. Ditto in Venango county. Short, fusion candidate for Congress was buried under 2000 of a majority. Mr. Brown made a splendid run in his own county as well as in this, and can well feel proud over having defeated so able a man as his opponent, Judge R. Brown. He will enter upon his duties after the first of January, and we have every reason to believe will be a popular Judge; of his abilities and general qualifications there is not a question. The district has reason to be proud over such a choice.

Every family, without exception, in city, village, and country, will find it highly useful to constantly read the American Agriculturist. It abounds in plain, practical, reliable information, most valuable for in-door as well as out-door work and comfort, and its 800 to 1,000 original engravings in every volume are both pleasing and instructive. In this respect it is pre-eminent and stands alone, and it should have a place in every household, no matter how many other journals are taken. Its Illustrated Department for youth and children contains much information as well as amusement. Its Humbug exposures are invaluable to all classes. The cost is very low, only \$1.50 from now to the end of 1881, or four copies for \$5. Single numbers, 15 cents. One specimen, 6 cents. Take our advice and subscribe now for volume 40 (1881.) Orange Judd Company, Publishers, 245 Broadway, New York.

Week of Prayer.

The Evangelical Alliance has issued its usual programme for the week of prayer, January 2-9, 1881. It is suggested that on Sunday, January 2d, sermons be preached from the text "Jesus Christ the same yesterday, to-day and forever;" January 3d, the general topic is praise and thanksgiving for all blessings; January 4th, humiliation and confession for personal and national sins; January 5th, prayer for the church of Christ, that it may be faithful and united; January 6th, prayer for the young and their instructors, for parents, colleges, Sunday Schools; January 6th, prayer for all nations and rulers, for universal liberty, for the cessation of wars; January 8th, prayer for Christian missions and all engaged in promoting them.

Clarendon and Stoneham.

A gentleman just from this oil field furnishes the following: The Porter well on Lot 530, Mead twp., Clarendon, is pumping, but its production is kept secret. The owner is grading for another well a short distance from this one.

Rockwell & Co., are grading ground for a well about 350 ft. north of the Porter well, and expect to commence drilling next week.

Magee Brothers are putting down a well about 400 feet west from their flowing well on the Beas farm. Verbeck is also putting down a well on some farm about one-third of a mile south of Magee well. A new rig is going up east of Beas farm.

Bell & Hopewell, and Benedict torpedoed their wells last week, but no report of them is yet given.

Hague adjoining the Beas farm has a new rig ready to commence drilling. All the above operations are in and near Clarendon. There is talk of putting down a test well in Pleasant twp., about five and a half miles west of Stoneham, on Lot 586; however there is nothing definite about this as yet.

The district throughout is gradually looking up, and will doubtless be last- ing territory. Everything is active.

Library of Universal Knowledge.

The American Book Exchange continues to push this work with commendable celerity. The ninth volume, with articles from Lepismu and Mullion, has just appeared, and the tenth is to be ready before the end of June. The types are marshalled at the rate of 50 pages per day, and at that rate the first fifteen volumes which will include the entire reprint of Chambers' Encyclopaedia, may be completed within the next ninety days. The speed does not appear in any way detrimental to the excellence of the mechanical work, which, on the contrary has been steadily improving since the start. People not already numbered among those who have bought the nearly half million volumes of this work sold since its publication began, will note with interest that they may order these fifteen volumes for the pittance of \$7.
