ALWILDA ADAMS, Teacher.

-We learn with regret by the following item from the Polk Co. (Minn.) Journal, of a painful accident to friend Dunn, and hope he may soon recover : "Bro. W. R. Dunn, of the Chronicle, met with a severe and painful accident on Tuesday. He stepped upon a large stick of stove wood, which, rolling County aforesaid, who being duly pitched him headlong upon the office floor dislocating his left shoulder. Dr. Van Dyke was called who soon put the shoulder in shipshape and he is now doing nicely."

-Ex-Constable Swailes, who was defeated at the late election for reelection to that office, has entered a contest against his successful opponent Mr. Jas. Walters, on the ground that

he is not a citizen. Judge Brown at the late session of court decided that if Mr. Walters was sworn in according ment or want of discipline of the B. to law his official acts would be regar. P. & W. R. R. at Oil City, on that ded as legal and he was accordingly day, by not having the special train qualified on Monday. We are not ready at the time it should have been' fully posted as to the merits of the and more particularly by the officials case, but this we do know, it is putting the borough to a great deal of expense for a very small matter.

-Morris, the Tailor. of Oil City, wishes to call the attention of the citizens of this place and vicinity to the fact that he has just received his spring stock of goods, and is now prepared to make up suits in the very best and latest styles, at from 20 to 30 per cent. cheaper than any other tailor in the country, always guaranteeing as good a fit as can be had anywhere. His stock comprises all the latest and nobbiest patterns out, and is so vast and varied that none can help be suited who may call on him. He invites an inspection of goods before purchasing

Sheriff Randall started with the prisoner on Wednesday evening, and lodged him safely at Allegheny on his counsel that he had been here on the night of the robbery, and that he was placed on watch while the others of the gaug did the burglarizing. He also stated that the explosions could have been heard fully a mile, and that while the thieves were at work several people passed up and down the street near the bank. All efforts to induce him to divulge the names of his "pals' proved futile. This, we suppose, is what they call "honor among thieves." -County Surveyor Whittekin arrivad in town on the 10:55 down train Friday with his corps. He was compelled to suspend operations on account of the deep snow, and the dis-S. J. Wolcott occupid the chair. The tance he had to travel to his boarding places. As we stated some time since the survey was pushed up as far as Nebraska and then the corps was transferred to Sheffield where they commenced the survey down the creek and got as far as the mouth of Big Minister Creek, above Balltown, when they were compelled to stop short as above stated. The line from what we can leasn is a pretty good one with good grade and light work. There will be-if we are allowed to judge from our knowledge of the countysome pretty heavy curves as the upper Smearbaugh, who will exert his best Tionesta is very crooked. We have no notes to give any data from and we suppose Mr. Whittekin thinks that his notes are for the employers first and the public afterward. or Jenks and Barnett townships, would be suited with this arrangement there is no doubt, as many of their leading citizens have already expressed themselves to that effect. The other parts of the county have not all been heard from, but from what we can learn they rather prefer to stay where they arewith Warren and Elk counties. Should Forest be cut off from the latter two counties, which might be the case, we believe she would vote to be joined to present occupied by Thos. Hassey. Jefferson. The main objection, we Terms reasonable and very easy. believe, is the distance between the county seats of Jefferson and Forest, and the inconvenience in traveling between the two places. This would make little difference except when necessary to transact business before the Judge in Chambers, which could be obviated by exacting a pledge from the candidates, whoever they might be, to come or go to either county seat when notified by telegram. A strong argument in favor of the annexation is that it would place Forest in a position where she could dictate terms, there not being so great a difference VM. C. COBURN, M. We hope our citizens will consider this matter, and endeavor to arrive at some definite conclusion as to which would suit them best; in the meantime we hope, and have reason to expect that whatever is done will be

Mrs. Landers was the only remaining child of Mr. and Mrs. Demun, they having lost three children previously, one of whom died during the past summer. Her marriage with Mr. Landers was celebrated on the 11th of May last, but not having gone to housekeeping, her sickness and death occurred at her tather's bouse. Miss Linnie Grove, Park Grove and Walt. Adams from Tionesta, visited their Tidioute friends during the week.

Inside of ten days about a dozen horses have died in Hickory township. The disease seems to be similar to lung fever.

O. H. Hunter & Son have removed brick block to the building on the corner formerly occupied by L. Simon. The Tionesta Democrat tried to give

Mr. Van Every of Tidioute away badly. We happen to be personally acquainted with Mr. Van E., and know he was not playing off very much. Of course he did not have his ribs broken as was first supposed, for he could not have got around in the short time after it happened. If the author of the article, "Victimized," was knocked in the ribs as Mr. Van E. was he would not even now be around attending to his business.
