The oft repeated statement made by the Postmaster General that no fur her removals were completed just now in the Post Office Department, has brought about among the employes a feeling of security, and the excitement which reigned in the Department for a month or more is considerably allaved.

In consequence of the exhaustion of he appropriation for completing the Census, the clerks employed have all tendered their resignations to take effect on the 15th of the month, and have signified their desire to continue the work without pay and trust to Congress to make them whole in December. That Congress will do this there seems to be no doubt. By this action on the part of the clerks the work will not be much delayed, and the public will derive the benefits of the completed reports some time in the Fall. PHIL.
