#### Republican State Convention.

BEDFORD, PA., July 20, 1881-A convention of the Republican party is hereby called to meet in the hall of the House of Representatives in Harrisburg, on Thursday, the 8th day of Leptember, 1881, at 12 o'clock M., of said day. Delegates, equal to the number of Senators and Representatives, to be chosen in the several districts of the Commonwealth. The convention, when assembled, shall nominate a candidate for the office of State Treasurer, and transact such other legitimate business as may be brought before it. By order of the Republican State Central Committee. JOHN CESSNA, Chairman.

Attest: Lucius Rogers, SAM'L F. BARR, C. MAGEE, JOHN M'CULLOUGH, Sec'ys. The President is Gaining.

Glad tidings of great joy come from the sick chamber at Washington. Since our last report the President has been steadily gaining, day by day, until now he is considered to be better than at any time since the shooting. of prolonging human life, mitigating While the anxiety is still very great, the fears of the nation are fast passing away, and everybody is feeling decid-

edly cheerful again. The consulting physicians-Drs. Agnew and Hamilton -in whom the country has implicit confidence, think the ultimate recovery of the nation's patient is only a question of time. He is taking substantial nourishment and relishes it, and is able to be raised half way up in bed while eating. Following is the latest

dispatch from Washington:

EXECUTIVE MANSION, WASHINGron. August 2, 7:00 p. m .- Official .-The President has continued to progress favorably during the day and appears perceptibly better in his general condition than yesterday, a more natural tone of voice being especially perceptible. The appearance of the external wound at the evening dressing was exceedingly good. That made by the ball is raipdly granulating, while the discharge from the deeper portion of the wound, which is abundaut and healthy, and comes through the counter opening made by the operation. The rise of temperature this afternoon is moderate and attended by no inconvenience. At present his pulse is 104, temperature 100, respira-

# The Bullet Located.

The Derrick of yesterday morning has the following concerning the locating of the ball in the President's body, by the new electrical invention of Prof. Bell:

"Professor Bell has achieved another triumph in electricity which is almost as wonderful as the Telephone. Nearly the whole time which has elapsed since the President was shot, has been occupied by him in perfecting his Microphone for locating the spot where metal substances may be lodged time he has been unceasingly experimenting night and day, for the purpose of increasing the sensitiveness of his Microphone, with perfect success, as the experiments on the President yesterday attest. The instrument is so constructed that when its moveable discs are passed over the body, the electric current causes an exceedingly nervous metal tengue to vibrate with more or less quickness as the discs approach or recede from any concealed metal in the system, these vibrations are conveyed instantly to the ear of the operator by means of an ordinary telephone ear piece. A thorough trial was made yesterday upon the Presiand it was found the ball was ex- controversy.

actly under the discoloration on the surface of the abdoman, which has about five inches below and to the right of the navel. Continued trials showed that the ball lay on a direct line running through the body from front to back, just above the groin on the right side. It was not possible to ascertain perfectly at what depth from the surface the bullet lies embedded on this supposed line, but as the wall of and one half inches thick it is fair to assume that it is not deeper than the thickness of the wall of the abdoman. The attending surgeons express no opinion as to the practicability of removing the ball, but do not intend to disturb it, so long as it causes no trouble of a serious nature. Taking a superficial view of the case as now presented, it would seem as if the bullet itself must be the cause of the discoloration and that it is much closer to the surface than two and one-half inches. It also appears to have been a miracle, almost, that the ball could. as now stated, traverse the President's body from back to front without fatal injury but it appears to have done so. If it had not struck a rib, in all probability it would have gone clear through and through the body. This location of a foreign substance in the human body without the use of a probe is the first instance of the kind and is a great triumph of electric science, which opens such possibilities to man in the use of the subtile fluid as the imagination itself can scarcely compass. This mighty and universal agent, which does so much for the human race, may prove itself capable

THE national debt was diminished \$10,078,023 during July.

pain and restoring health to mankind

to such a degree as would, if now pre-

dicted of it, sound like fable or the

visions of a crazy enthusiast.

UNDER the severest tests of all the surgical operations to which the President has been forced to yield he has not uttered a word of complaint.

THE nominee of the Ohio Probibitionists for Attorney General declines the honor, declaring that he considers it more honorable on his part to support the nominees of the Republican

In no manner, at no time, or under no circumstances has James A. Garfield, since his induction to the office of President, displayed a harsh or resentful feeling toward any man or set

JUDGE PEARSON, of Dauphin members of the Legislature are not extra compensation. The case will finally tested.

GUITEAU, the assailant of President Garfield, is an isolated criminal, in whom no one takes an interest, no one visits him except the turnkey of the prison, and no one outside his cell has any regard for. He represents no one, and will not have any other place in history save that of a common sneak asassin, attempting a murder prompted by the meanest motive that ever nerved the arm of a coward.

SINCE it has been decided that the President will live, Guiteau has hardened his cheek, and yesterday went so far as to send a letter to the commitin the human body. Our readers will ting magistrate demanding to be reremember that he tried his new instru- leased on \$1,500 bail. Perhaps the ment on a soldier from the Home, but easiest way to get rid forever of the did not succeed in locating the ball in fellow would be to grant his modest his body to the satisfaction of Doctors request. There are hundreds of men Agnew and Hamlinton, Since that in Washington who would willingly see to it that he never vexed the eye of power of the nation again.

> SENATOR-ELECT LAPHAM'S speech, in recognition of the complimentary serenade, was full of the fire of an earnest patriotism and a devoted loyalty to the Republican party. He brushed away the idea of faction, and though classed as a Stalwart declared himself as good an Administration man as the best. He spoke to and for a united Republican party, and both of the late factions, now forgetful of past differences, applauded. Republicans Sept. 1st, 1881, otherwise his accounts everywhere have reason to rejoice over will be left in the hands of a collector. this happy issue of an unfortunate

Tim Fall River, Mass., Labor Standard makes the following bold asserbeen present since the shooting, and tion : "The Russian Nihilists have beexactly where the surgeons first located gun to make America their certer for it. It lies on the front wall of the ab- printing revolutionary literature. A doman, immediately over the groin, printing office is already established and several Russian Jews at work. The leading Nihilists make no secret. of it, but refuse to tell where it is located. One of the leaders, named Klimeno, says they have only old style presses, but money is expected from Russia to purchase a Bullock or Hoe press. Thousands of revolutionary pamphlets are being sent to Russia. the abdoman at this point is about two | The experiment of starting a New York Nihilist paper in English, German and Russian is to be tried."

> THE Saltsburg Press crams a heap of truth and good sense into the following lines: "Good men are supposed to obey the law, and therefore do not carry concealed weapons and are defenceless against the more numerous class who disregard the law and earry pistols. Until there is some approach towards executing the law in this respect, we take it there is no sense in giving the ruffians of the community the sole opportunity to shoot law-abidng citizens. Matters have come to such a pass that about the only thing to do is for every toan to go armed and let it be so understood, and continue so until a general disarmament is made practicable."

THE next House of Representatives in Congress will stand as follows : Republicans, 147; Democrats, 129 Greenbackers, 9; Readjusters, 2; vasix vacancies, leaves the membership 287, of which 144 is a clear majority. The Constitution of the United States prescribes that "a majority of each House shall constitute a quorum to do business." It has been held that under this clause a quorum consists of a majority of the actual membership, and in this view the Republicans will have a clear majority of four, should the six vacancies not to be filled until after the organization, but in any event the Republicans have 147 members, who were distinctly elected as Republicans, which will give them a majority of the again. full membership and enable them to elect a Speaker and other officers without aid from Greenbackers or Readjusters.

# Mailing Small Sums of Money.

Postmaster-General James has hit pon a plan of facilitating the transmission through the mails at a cheap rate of small sums of money. The new device is an improvement upon the system of postal orders recently adopted by the English postal authorities. The improvement consists of three columns of figures, one to represent doilars, the second tens and the third units. Two denominations of these county decided last week that the orders to be issued-one for all sums within \$2.50, and the other for all entitled to the five hundred dollars sums within \$5. The \$5 card has four figures and a cipher in the dollar colnow be carried to the Supreme Court umn and all the numerals in each of where the validity of the claim will be the other columns. The Postmaster selling the order will designate the amount to be drawn by punching the figures in the respective columns. The orders will be payable to bearer, and the postoffice will not be responsible for their safe delivery any more than for fractional currency, for which they are intended as a substitute. Both sets of orders are to be printed on bank-note paper, to be finely engraved and other precautions to be taken against counterfeiting. It is expected that the department will be able to sell them from two to three cents for a \$2.50 order and from four to five cents for a \$5 order. The Postmaster will enter the amount of the order in writing on a stub, which will be the only check the department will need, and will contain only the amount of the order, the date of issue and the name of the office upon which the order is drawn. In order to prevent the use of the postal orders as currency, they are to be redeemable only for three months after date of issue.

WM. LAWRENCE. Tionesta, July 26, 1881.

From Warran County.

Seeing in your papers of July 13th and 21st, brief but interesting letters from the pen of one Ophelia Cox, I HARNESS, COLLARS, BRIDLES, wish to say to her, him, or Lucifer, as the case may be, that I greatly admire her dash and courage, and only wish her notes might not be so brief, as her able description of people, country, and her own adventures with the sterner sex are truly interesting, and adds greatly to the interest of your paper. Also, I hope that her correspondence may continue. (Yes, her, as I should dread to think of the writer as other than my ideal of woman.) She speaks in her last of seeking now fields, and she will be given new subjects. We hope to hear from her. must disagree with her in one respect however, as she claims to not care for the girls; I think that it very strange as I like them best. Euough of this for "Ophelia."

Greenbackers, or Nationals, have put a straight ticket in the field in Warren county, and are organized in proper shape.

Our baker's dozen of Dems. have also come out with more boasts than they will be apt to speak of after the election; when the Nationals take the minority Commissioner, and the Republicans walk off with the rest. Oh! Democracy; you have sold out once

What is better we had a couple of lectures delivered here during the past week, by Miss Neill, of Ohio. It was a Woman's Rights lecture, and she cancies, 6; total, 293. Deducting the treated the administration, and whisky with words of deepest disgust. (I for one was fairly converted.)

We are having a pleasant shower here to-night. Rendered pleasant by our being in need of such a Blessing.

The smart farmers have finished haying, and have reason to be thankful for a bountiful supply of hay.

Every one seems to be prespering in this vicinity, but they have one bother, as help is very scarce.

If this does not take its resting place in the waste basket, will write
