—Miss Kate Cobb entertained a pleasant party of young folks at her home, last Thursday evening.

—Rev. O. B. Clark, of Jamestown, N. Y., spent a few days with his son, D. W., during the past week. He was looking quite well.

—We send out a few extra papers this week to parties in the county who are not subscribers, and will continue to do so until the campaign closes.

—Mr. H. A. Adams is building what appears to be a barn on his premises, in the north ward; if it isn't a barn we'll make corrections next week.

—For Mexican ponies call on J. E. Wenk or Wm. Smearbaugh.—Commonwealth. And for a first-class jackass call at the Commonwealth office.

—Dr. Coburn reports an eight and a half pound boy at Mr. Jas. Haggerty's domicile, Nebraska, last Thursday morning. The Dr. says father, mother and son were doing well at last accounts.

—Mr. Jas. Welsh, the contractor who is putting down the new well of Grandin & Berry Bros., at Balltown, informs us that they are down between 200 and 300 feet, and expect to finish in about three weeks. He says the reason they have not got down deeper is on account of bad luck. The bit is still in the Cornwell well at Root & Watson's mill, but they have not given it up yet.

—Argument court will be held on Oct. 28th, instead of Nov. 1st, to which time court had adjourned, for the reason that his honor Judge Brown could not attend on Nov. 1st. There is nothing important on hand.

—Mr. R. M. Carson, of Tionesta township, cut 400 bushels of oats from 12 acres this year. Also 30 bushels of "Little Red" clover seed of 19 acres, from which about 20 tons of hay were also cut. Zouver's machine, of Pleasantville, did the threshing. Pretty good.

—Mrs. H. H. May, who has been a great sufferer from inflammatory rheumatism since March last, departed for Philadelphia yesterday morning. It is sincerely hoped by her many friends that the change may prove beneficial. Her daughter, Mrs. Sharp accompanied her.

—The Free Methodist quarterly meeting for the present quarter will be held in the church at this place, commencing on Thursday evening, Oct. 27th, and lasting over Sabbath. Rev. J. T. Michael, of Washington City, the new chairman of this district, will be present. A cordial invitation is extended to all.

—The FOREST REPUBLICAN says: "Oil City is to have a depot built near where the trains usually stop to let passengers off and on." This is something quite remarkable, as railroad depots are usually built out in the woods somewhere, a few miles from the road.—Derrick.

That is evidently the case with Oil City, as no one has ever been able to discover a depot at that place, but all well regulated towns, like Tionesta for instance, have nice, commodious depots right next the railroad track.

—A few days ago Mr. Shawkey had a nice well on his new property, with four feet of good water in it; Mr. Van Giesen dug a well on the lot adjoining. Well, Van has a well, and Shawkey—has a hole in the ground with no water. Mr. Roberts hauled water all day Monday, ostensibly for the purpose of lacking lime, but our informant thinks that Shawkey is bound to keep up the supply at VanGiesen's well as long as there is any water left in the river. Nothing mean about Shawkey.

—The Pleasantville boys came over on Saturday afternoon last and played the return game of ball with the Tionesta club. The game was very closely contested, resulting in a tie on the ninth inning, 20 to 20, and after playing three more innings the game was called on account of darkness, each club having 23 tallies. The Dutch Hill and Buck Mills club played a game Saturday on the grounds of the former, which resulted in a victory for the B. M. boys, the score standing 23 to 18.

—Elsewhere in this issue will be found the advertisement of the Parker Gun. To those at all posted in guns it is needless to recommend "The Parker." They have taken the highest premiums at some of the most noted Expositions of the world for excellence of shooting qualities and finish. There are certainly no better guns, and we doubt if there are any as good, for the money in the world. They will stand more hard shooting without getting loose or racked than any gun made in America. Send for catalogue.

—The following item from his paper will show how Bro. Dunn, of Minnesota, is coming on, and will be noted with pleasure by his many old Forest county friends: "The Chronicle is two years old to-day and may now be set down as one of the permanent establishments of the city of Crookston. The editor has worked hard to bring this about, and every day can see substantial results from his efforts. Our patronage is good, our subscription list constantly increasing, and we have nothing of which to complain. The Chronicle enters with confidence upon the third."

—The celebrated Broadhead Dress Goods, manufactured by Wm. Broadhead & Sons, Jamestown, N. Y., for sale by Robinson & Bonner. 2t.

Fagundes Fancies.

Peter Berry is at Buffalo visiting friends.
Miss Ella Mays is in town. She will have charge of the Fleming Hill school, which commences soon.

Mr. B. C. Scott is building an addition to his house.

Col. Jno. Peterson's cider mill is now running to its fullest capacity. The pomace is squeezed so tight as to make good side walk when cut into slabs of the proper dimensions.

Rev. Small, our new pastor, preached his introductory sermon on Sunday, 2nd inst. Mr. Small promises to be very popular.

R. W. Pimm, our "boss" rig builder, has the contract for building several second hand rigs on the White farm. "Bob" is fast depopulating Fagundes of old rigs.

Rev. Vosler (colored) recently enlightened the community (for the small sum of twenty cents) on some very interesting and vital questions. Among others, as to the origin of his race. Mr. Vosler has no sympathy whatever for the "link" theory.

We wish to take this opportunity of denying the wide spread rumor that Cam. Sneadaker and Samantha Smuggins are married. We are credibly informed that no such union has taken place.

Fagundes was disgraced recently by a street fight which took place between Cezar Hawks and Nero Scheidy. Both are old citizens and have long borne good reputations. Neighbors interfered and thus disastrous results were prevented.

Crawf. Reed held the first "paring" bee of the season. They are since fast becoming popular.

Births are scarce. Since our connection with your valuable paper in a reportorial capacity we do not remember to have chronicled one. Why this is so or should be so we are unable to state. We suggest that the editor of the REPUBLICAN open his heart and offer a year's subscription to the first lucky family. [All right.] JACK.

Fagundes, Pa., Oct. 15, '81.

Another Match Hunt.

The sportsmen of Tionesta had another match hunt on Saturday last. This time Zach Shriver and Harvey Foreman acted as captains. Although the day was a bad one for hunting—the wind being very strong—the counts averaged pretty well, and the boys had a grand, good time. Following is the score:

Harvey Foreman 78 Z. T. Shriver..... 00
Dr. Coburn..... 65 H. A. Adams..... 106
Fred Allender..... 21 Frank Metcalf..... 36
J. E. Wenk..... 79 Davey Hildand..... 46
Geo. Albaugh..... 47 W. Smearbaugh..... 55

T. F. Ritchey..... 44 Geo. Want..... 42
Chas. Bonner..... 52 J. A. Hart..... 53
Wm. Lawrence..... 42 Jas. Butler..... 07
J. D. Hulings..... 22 Jack McCray..... 11

STEWARTS RUN VS. FOGLE FARM.

Our boys not being satisfied with their first hunt, had another last Friday, retaining the same captains, Joe Clark and Eb Copeland. Following is the score:

Joe Clark..... 104 Eb Copeland..... 19
Chas. Thomson..... 21 Frank Metcalf..... 36
Fred Allender..... 23 Lyman Handy..... 74
Frank Thomson..... 77 John Osten..... 00
Jas. Thomson..... 36 DeForest Hunter..... 116
Jas. McIntyre..... 37 Elmer Fleming..... 119
Wm. Bromley..... 43 T. J. Shepard..... 25
Jack Siggins..... 142 Fred Landran..... 00
Art Handy..... 41 Wm. Laughlin..... 00
Rob. Bradish..... 09 Gih Thomson..... 24
Geo. Bradish..... 59 Nate Osten..... 25
Doc Connelley..... 37 Chas. Connelley..... 12
Geo. Anderson..... 60 John Young..... 00

Frank Thomson smoked a black squirrel out of a hollow tree—had his gun ready when it made its appearance, and all he could show of that squirrel was teeth and tail. Art Handy saw a wounded squirrel and tried to run it down, but finally succeeded in holing it in the ground,—all the time he carried a loaded shot gun in his hand. Guess he had the "buck fever." Quite a number of young ladies were invited to partake of the supper. W. Y. Siggins said he thought the gents that brought the ladies ought to have their count increased one thousand, as that was the count set on deer. The supper was gotten up by Mrs. Wm. Bromley, and was pronounced by all a number one supper.

Clarrington Cullings.

In writing up the notes from Barnett we do not presume to astonish, but the rather confirm the minds of your readers. Yo candidate is creating a little ruffle amongst the dry leaves of politics; however, the political breeze is not strong yet; perhaps the Ides of November may bring a real gale—a blast that will infuse life into the dead potato tops of the political tuber.

We are sorry to lose the services of Rev. Dimmick. Mr. Dimmick has been with us as pastor in charge of the Clarrington Circuit for two years, and during that time he has proved himself a faithful and efficient minister. We are glad to know, however, that Cranberry Circuit to which he has been assigned, is a more promising field of labor in some respects. Our good wishes go with him. Our new minister is Rev. Edwards, of Clarion, and comes to us well recommended.

Miss Nettie Hensley has recovered so much as to be with us again in her own proper person.

Geo. Bowers has returned from a visit to relatives in a distant part of the State.

Boat-building, timber-hauling, and the other modifications of lumbering still go on apace. And—oh for a flood!

The small boy is enriching himself and increasing the demand for pants stuff, for you see chestnuts are 10c per quart.

Billy Msze has a corner on butter-nuts.

Jacob Maza blows the bugle of industry at the mouth of Maple Creek, where he is putting in a lot of gunwales.

Elder's new boarding house, upon Cherry Creek, is progressing rapidly under the direction of Thomas Osborne.

The Cooksburg school has opened with Miss Jennie Shields as teacher; this is Miss Shields' third successive term at Cooksburg.

J. B. Pearsall has hied himself away to the forests of Michigan for a few weeks.

Miss Eva Reynolds closed her school at the White school house on last Tuesday.

Dr. Burkitt's new office is the harmonical announcement as to the condition of his mind's tendency; it tends to indicate that he has come to stay. "QUILLS."

Blue Jay Oil Field.

From this morning's Derrick we get the following notes concerning operations at Blue Jay:
Conley's well, one-half mile northwest of the Darling wells, was a duster of the first order. The well defines the Darling pool on the north and east.
The two Darling wells are doing thirteen barrels per diem, together. These wells started at forty-five and fifteen barrels respectively.

Kerberger & Co., have a rig ready to drill one-fourth of a mile south of the Darling.

The old Blue Jay wells are flowing about four barrels together. Rods will be again introduced and they will be pumped, with hopes of \$1.50 crude in the near future.

Rods will be put into the Fox & Reed well to-day. This well was finished last June, and was dry in the Blue Jay sand, but had a small show of crude in the Darling sand, in which sand it was shot last August. It filled up slowly and did not have sufficient gas to cause it to flow. Since then it has boiled over several times. The owners expect a fair pumper.

Paine & Co., are building a rig three-quarters of a mile south of the old Blue Jay, and expect to bounce the drill soon.

A very important test for this district was finished last week on the northwest corner of lot 41, one mile southeast of Blue Jay, owned by Falkner & Co. They found fifty-five feet of sand with a slight showing of oil in the sand pumpings. The Blue Jay sand was very close and hard. Forty feet of the sand was of a brownish color resembling the Bradford sand. This well cuts off all hopes of an extension south and east. The owners will probably shoot this well heavy to make it a thorough test. It has a good head of gas.

Dimmick & Co., on the northeast corner of warrent 2,878, are down over 600 feet and out down. They will

probably await further developments on the Falkner well.

That genial host, Tom Hill, still holds the fort in the Bennett House. Tom says they will have an oil field there yet if the money holds out. Five or six dry holes should not discourage operators.

—We will remove on Monday, October 24, to our new store room, and open a large assortment of Fresh Groceries, Notions and Underwear, Cattle Powders, Cranberries, Mince Meat, &c. Also Friday Oct. 28, Fresh Oysters.

It Wm. Smearbaugh & Co.

—Peruna will make your blood pure and healthy.

—It is simply marvelous how quickly constipation, biliousness, sick headache, fever and ague, and malaria are cured by "Sellers' Liver Pills." 012-4t
