—Rev. J. T. Michael will preach at the F. M. Church on Thursday and Friday evenings of this week. All are cordially invited.

—Rev. Hicks will occupy the pulpit of the M. E. Church next Sunday evening.

—Presbyterian Sabbath School at 3 p. m.; M. E. Sabbath School at 10 a. m., F. M. Sabbath School at 11 a. m.

—Thanksgiving next. —Election next Tuesday. —Christmas comes on Sunday this year.

—TAKE NO STOCK IN ELECTIONEERING LIES! —Thanksgiving will be the next legal holiday which will be Thursday, Nov. 24.

—The evening* are getting decidedly lengthy. Good books and papers are now in order,

—Republicans! this is the last opportunity we will have before election to warn you to be on your guard, and work for the ticket.

—Mr. and Mrs. John Auer, of Stark Co., Ohio, are paying a visit to Judge Reck's family. Mr. Auer is Mrs. Reck's oldest brother.

—Miss Agnes Sibbald of Philadelphia, and Mrs. Shields, of Ohio, wife of Rev. Shields, a former resident of this place, have been visiting friends in this county, being the guests of their brother, Mr. Geo. Sibbald.

—Mr. Peter Berry is one of the Michigan sufferers, the late fires having swept over and destroyed a large body of timber owned by him. He recently returned from a visit to that section and reports things looking rather gloomy.

—Mr. Theodore Stewart, of Silver Creek, N. Y., is paying a visit to Tionesta relatives, he being a brother of Mrs. P. O. Conner and Mrs. H. A. Adams. Mrs. Conner, who has been visiting at the above named place for several weeks, returned on Friday last.

—Mr. A. U. McKay, of Hadley, Mercer Co., Pa., accompanied by his daughter, Miss Eva, was here during the week visiting his brother, our worthy Postmaster. He is a pleasant and agreeable gentleman, and bears a close resemblance to the venerable P. M.

—Berry Bros. & Grandin have their well down 600 feet at Balltown, and with good luck will finish this venture in ten days or two weeks. This will be their last well on the Mill property this year, but in the spring will continue to search for the oil bearing rock.

—Mr. N. Burdick, who has just finished sawing lumber for Lawrence & Dale at the mouth of Lamentation, a short time ago, sawed 18 logs in one hour and five minutes, which is pretty fast work for a little mill; the lumber was well made, too. They will move the mill a mile or so farther up the creek in a short time.

—Chairman Brockway issues a short address to the Republicans, which will be found elsewhere in this paper, and we trust every Republican will read and act upon it. There is no possible excuse for any Republican to scratch his ticket at this election. It is first-class in every respect and entitled to the hearty support of all. Our enemies are building their only hope of success on the belief that Republicans will split their ticket. Now let us disappoint them and elect our ticket by handsome majorities. It can be done if every Republican voter will turn out.

—The following figures are given us as authentic of the lumber and timber which will be run on Tionesta creek this fall, should there be sufficient water; Rouse & Son will have 24,000 cubic feet of hemlock timber; The Edmon Creek Lumber Co., and N. G. Cole, 27,000 cubic feet hemlock, besides which the company has 28 creek pieces of mixed lumber rafted ready to run. Wheeler & Dusenbury, 24,000 cubic feet of pine. Dale & Lawrence, nine creek pieces of pine. Miles & Sheasley, 30 pieces of pine. Haggerty & Small, for Lacy, 33 pieces of pine. A "creek piece" is supposed to contain 30,000 feet.

—Pensioners of Forest County, vote for the Prothonotary who has executed your papers for the last three years without charging you a cent for fees, when he could have charged what would have amounted to several hundred dollars per year, if he had not been the friend of soldiers. Justus Shawkey is the man.

—The ladies of the M. E. Church will give a festival this (Wednesday) evening for the benefit of Rev. Hill, who departed for Kansas a short time ago. We hope to see the affair well patronized by our citizens as the object is a worthy one and deserves a good support. Choice refreshments will be served and a pleasant time may be expected. The festival will be held in the store building recently occupied by Mr. Einstein, opposite the M. E. Church. Let all go.

—Mr. H. O. Davis and family desire us to return thanks in their behalf to the friends who have kindly lent their assistance in their hour of great affliction. They will always be gratefully remembered. In this connection we take pleasure in stating that the family have secured the services of a competent lady nurse, and that, according to Dr. Morrow, there is a change for the better in the cases of the members now afflicted. He thinks the fever has passed its highest point and with good care both Mrs. Davis and Carrie will recover.

—Dr. Morrow will leave this evening for his former home in Armstrong county, for the purpose of bringing his family to Tionesta, and will return on Monday evening. The Doctor's practice has increased rapidly in this vicinity and his field now extends over a large portion of the county. We wish him success in the future, and predict for himself and family a pleasant abode in Tionesta. Dr. Blaine, of Pleasantville, will be over frequently during Dr. Morrow's absence to attend to his practice here.

—Take no stock in any of the lies that may be circulated about our candidates on the eve of the election. Every voter knows that such things are done when it is too late to refute them. There is not a voter in the county but knows by this time that every one of the candidates on the Republican ticket is perfectly fitted for the position to which he aspires, and that every one of them are honorable, upright and worthy citizens. We confidently believe that there is not a man in the county who will say otherwise of any of the Republican candidates.

—In the farmyard of Mr. Wesley Zentz, in Tionesta township, you may see three guineas following a large cock of the chicken species as young chickens do their mother hen and never separated any considerable distance from him. Mr. Zentz gives this account as explanatory of this curious state of things: He placed three guinea eggs under a hen that he had set upon a nest of eggs coming from her own kith and kin, and when in due process of time the young guineas came to a state of existence they did not find the natural affection toward them existing as strong in the heart and actions of their necessitated mother, or at least as congenial to them as they desired, and they sought protection and the other attributes of parentage near the feathers of the rooster aforesaid, who has ever since, so far as is consistent with the masculine nature, filled the place of a parent in the masculine gender. The guineas are much attached to their foster parent who seems to be proud of his appointed progeny.

—The Y. P. L. S., (Young People's Literary Society) met at the residence of Mr. H. A. Adams on last Saturday evening, and a particularly enjoyable as well as profitable time was had. A programme for the next meeting was prepared by the committee appointed for that purpose: the performances will consist of declamations, music, essays and select readings. This society is composed of some of the best talent our little burg affords, and bids fair to be a permanent organization, doing credit to its members as well as to Tionesta in general. C. M. Shawkey was elected Secretary, vice W. L. Klinefister, resigned. The next meeting will be held at the residence of Mr. T. B. Cobb next Saturday evening. The society cordially invites all interested in intellectual matters to attend. We would also mention the fact that the school literary societies are progressing in splendid style, and

the juveniles seem determined not to be outdone by the older ones. We wish both enterprises success, and our best wishes are with all such organizations, which will benefit the young people of Tionesta.

Neiltown and Vicinity. Times and seasons come to us, pass us by, and leave us; leaving little however in the way of thrilling startling news. No uncommon occurrence of news or of deeds bad or good beyond the ordinary incites our pencil to chirographical movement.

Fred, our blacksmith, shoes a horse as well now as he used to do, and smokes no less. Major Woodcock is the same genial landlord, and by the way, his pig pen holds one of the biggest porkers—if not the biggest—in Forest county. J. D. Burchfield is with us now and as gallant as ever. S. N. Burchfield is up at Bradford. Mrs. Woodcock has returned from her Eastern visit. Miss Johnson has gone back to Titusville. Miss Anna Neill has come home again after quite an extended visit to friends in Pittsburgh. Mr. McAllister may be seen wending his way over in the direction of Poverty Hill every morning regularly. Squire Hotchkiss still pulls teeth for nothing and treats his patients—kindly. Aside from the general drift of our remarks, the Squire is ahead in the number of squirrels slain by any one man in the township, so far as heard from this season. The Gorman school has closed for the school year, Miss Myers, the teacher, having finished her term and intending to attend school the coming winter, and in general everybody is in good health and spirits. In order to meet the minister's claim a festival will be given to-morrow evening; oysters and music are certain, and a good time is assured.

The Trunkville school has opened for the winter with Miss Cora Fisk, who taught the summer term, as teacher; the school grounds at Trunkville have been improved by a siding up and a new fence. The Fleming Hill school-house has had a new floor put therein, a new door hanged thereon and further made comfortable by being banked up around with earth; Miss Ella Mays began her winter term last Monday. The Berrytown school, under the management of Miss Cox, is more than half done with its winter session. Stewart's Run school opens next Monday. Allender school will open about the middle of November, and Neiltown about the same time. "QUILLS."

Nov. 1, '81. Westward to California.

YUBA CITY, CALA., Oct. 12, '81. [From a private letter from Mr. Clate E. Williams, who stopped in this place several months a year ago this summer, we take the liberty to quote the following. The letter is written from Yuba City, California, where the writer is engaged in teaching school at the handsome salary of \$75 per month, and board:] I left Columbus, Pa., in April and got to Omaha, or rather to Council Bluffs, on the other side of the river from Omaha, just in time to find the rail road tracks all under water and the depots completely surrounded. We were obliged to lay there nearly a week while the "Mad Missouri" held complete sway. It was a very watery journey all of the way, but the final result was that I got off the cars on the last day of April sound and hearty.

Yuba City is situated in the great Sacramento Valley, on Feather River, and is the centre of a large wheat country. The valley is between the Sierra Nevada on the east and the Coast Range on the West. You have mountains in sufficient quantities at home, but they have not the appearance of these. I had never seen a mountain as they are seen from the plains until I made the journey. Away out on the plains of Nebraska we first saw them. The base is indistinct, but above that can be seen plainly the dark green of the pine, which covers them until you get up toward the summit, when the white outlines of the snow covered peaks, towering above all, present themselves. It was quite refreshing during the summer to look off toward the mountains and see the snow. It cools one off—in their mind—when the thermometer is so hot that it boils, to think so near and yet so far can be found winter. We had a very cool summer this season, the mercury not going above 110°, while 120°

is not uncommon, and 130° has been known several times. There is a great difference in the atmosphere here from that in the East. I do not call 110° here hotter—that is, more oppressive—than 100° or 95° there. There is no moisture here, which makes the difference. For the first five months, nearly, that I was here I saw no rain, and then it rained a month earlier than usual. The fall and winter climate in this country is delicious. You can imagine nothing finer; Air clear and cool; no clouds now that it has rained; no dust, and everything just perfect. The nights are always cool. In the heat of summer two thick quilts are not uncomfortable. Ranchers here, when they hire a man, expect to board him but never furnish him a sleeping place. He has his roll of blankets and can spread them down wherever he can find a good place. One man told me his experience. He had just come from Buffalo; had never learned the habits here. He hired out to a man to work on his farm, or ranch, and went out just at night. It was a ranch of six thousand acres, and all the buildings on it would not cover as much space as Robinson stern—house, barns and everything. They sat in the cabin after supper and finally the new man said he would like to be showed to his room. The rancher said: "H—l, there's six thousand acres of land here, and room on it anywhere for you. Pick out the best spot you can find." Of course most of the ranchers who have a family, have more or less capacious houses.

One of the most striking features of this valley are the Butte Mountains, which rise abruptly from the plains. They are about twenty miles long, three miles wide, and the peaks are some 1500 feet high. They are perfectly disconnected from any and every other mountain range, and completely surrounded by the prairie. The whole of this country is so level, and the rivers have such low banks, that they have to protect themselves by an immense system of leveage. The height of the levee on Feather river is from six to thirty feet, averaging about twelve feet. The building of this levee makes a terrible rate of taxation necessary. The rate is 7 1/2 cents on the \$1, and the valuation about what the property would sell at on a forced sale. What do you think of that for a tax?

[The balance of the letter is of a private nature, and not of general interest. We hope Mr. Williams will favor us with an occasional letter for publication.] —Just received—Clothes Horses and Baskets, Mirrors, Hat racks, Cattle Ties, Slates &c., at Wm. Smearbaugh & Co. 2t.

—Peruna by giving health also gives beauty.

—At the change of every season sluggishness of the blood should be prevented by taking Peruna.

—The Broadhead Dress Goods can be worn in damp weather or a shower without being ruined by shrinking or curling. For sale by Robinson & Bonner. 2t.

—If you have the least uneasiness in your stomach Peruna will immediately correct the functions.

—Peruna will tone your whole system.

—"The doctors said my wife had consumption. Tried Lindsay's Blood Searcher, and she has better health than ever." G. H. Hubbard Hampden, Ohio. nov-4t.

—Dr. Kline's Great Nerve Restorer is the marvel of the age for all Nerve Diseases. All fits stopped free. Send to 931 Arch St., Philada. sep21-81f

DIED. DAVIS.—In Tionesta, Pa., Oct. 29, 1881, of typhoid fever, Leona E., daughter of Mr. and Mrs. H. O. Davis, aged 15 years, 5 months and 29 days.

Thus has Death again entered this stricken family circle and plucked another flower. But a few short weeks have passed since the afflicted ones were called upon to follow to the grave the remains of one of their beloved, and now they are obliged to pass through a similar affliction. Truly the Lord's works are mysterious and unfathomable. Let the bereaved ones take consolation in the fact that He doeth all things well, and that the darkest hour is just before dawn. The deepest sympathy of our community is with them in this hour, and the fervent hope of all is that these still afflicted with the disease may be speedily returned to health.

LORENZO FULTON, Manufacturer of and Dealer in HARNESS, COLLARS, BRIDLES, And all kinds of HORSE FURNISHING GOODS. may 181 TIONESTA, PA.
