Humbug Advertisements.

The time has never been and never will be when the people of this or any other country can buy a gold dollar for seventyfive cents. Neither can you, dear reader, purchase an organ worth three or four hundred dollars for \$60. This is all nonsense. Still we have no objection to other people doing their business just as they see fit. We are selling a good, honest made Piono at from \$185 to \$575, and a good, honest Organ (not all stops) for from \$48 to \$475. All our goods are made upon honor, and we send to any part of the world on test trial, and if no piessee no keepee, as the Chinaman would say, For the past ten years we have sent both Planos and Organs to every part of the world, and our instruments give the most universal satisfaction. If you wish a good instrument, one that will always last you, we shall be pleased to send you our catalogue and prices; and if you purchase one of the Thomas Brothers' Silver Tone Instruments you will get what you require, and one instrument sold in a neighborhood sells us more.
