We shall be gratehaving;" "Looks as though we might ful for the favor, and the subscribers have some winter yet;" are appropriate salutations that greet one's ears all within a week.

-Ben. Caldwell, one of the boys, has shaken the dust of Tionesta off his feet, and hied to Dallas, Texas, whither, we understand, he has gone to take charge of an extensive machine shop. Just what possessed him to go so far away from home we don't know but presume the almighty dollars were the one great inducement. Ben's absence leares a void in the young men's social circle of Tionesta which will not be filled entirely until he returns and takes up his abode among them again, and we hope that will not be far hence. He has few equals as a machinist and we bespeak for him a happy time and a suug fortune in the Lone Star State.

-The annual report of the Auditors of Forest county appears this week. As will be seen at a glance the condition of the county's finances are fine and healthy indeed. With assets to the amount of \$11.277.51 and no liabilities we ought to feel proud; and we do. If any of our sister counties can say as much we'd like to hear from them.

-Mrs. H. H. May and daughter, Mrs. Sharp, returned home last evening from Philadelphia, where Mrs. May has been under treatment for rheumatism since October. Her many friends will be pleased to learn that the skillful treatment she has received has benefited her very much, and that they may havethe pleasure of seeing her fully restored to health.

-Last Thursday George Mealy was arrested by Sheriff Clark, at the instance of George Haslet on a charge of arson. He was lodged in jail and on Saturday afternoon had a hearing before Esquire Brennan. The boy Harger, who is now awaiting trial for being implicated in the matter, swore that Mealy had robded and burned Haslet's shanty on the 12th of January, but as he (Harger) had told so many different stories about the afiair 'Squire Brennan did not deem his evidence of sufficient weight to bind gious. He hasn't changed any-only Mealy over, and so dismissed him. Harger told, at the time of his own hearing, a day or two previous, that one Samuel Clark had perpetrated the

A new venture in the oil business about to be made on Beaver creek, about a half mile from Collins' mill, in Hickory township. A company has been formed composed of citizens of our town and called the Tionesta Oil Co. Mr. S. J. Wolcott will have charge of putting down the well, and pushed to completion as soon as a short distance from the old one that was sunk in '65 or '66, and in which having thrown out a stream of oil the full size of the tubing for several were rained by being drowned out with salt water. Oil was worth nothing, so to speak, at that time, and anything less than a seventy-five or hundred barrel well did not pay. The Company is sauguine of making a strike, and from the best information we can gether it would seem that their territory is also supposed to be an extension of the Economite territory, near Tidioute.

Oll News.

Saturday's Derrick contained the following budget of oil news, which is of interest to land owners of Forest

SHEFFIELD.

Horton & Crary completed a small well up the East Branch, on lot 396, this week. It was turned into the tank at one o'clock Thursday, and at ten o'clock to-day had put in eight inches, or about twenty-four barrels. It will soon settle to an eight or ten barrel producer.

Melvin, Walker, Wetmore, Howe & Co.'s well, near the above, which was completed last week, is an eightinch well. The same company has a rig standing in the southwest corner of lot 408. They will probably make a few more locations after the first of the month. We suggest that this firm adopt some name for its grand aggregation of individuals, which we are assured by one of the firm is so large that their production in this district is scarcely large enough to allow them a barrel apiece. The Oscar Wilde company, or the "Æsthetic oil company," would be much easier to write.

McKinney, Emerson & Co.'s drillng well, on the Williamson farm, southwest of all developments, should reach the sand about the first of the month. It is an important test well, as on its result depends the extent of temperance work in the county, directing the pool to the southest, and also the connection with the Blue Jay district. Those who are best posted on the territory, anticipate a dry hole, but the field has been so fruitful of surprises that not much dependence can be placed on anticipations.

The Union oil company is building a rig for its No. 4, lot 409.

On lot 407, Stewart & Co., will be near the sand by the first of February. This is also an important well, as a test of the western extension of the

Monday's Derrick: Clark & Armor's No. 4, lot 397, Sheffield, was shot Saturday. After the shooting it filled up about 800 feet with oil. It must be reset, made up and reprinted, will probably make a twelve-barrel pointed to nominate officers for the union producer.

The Elliott & Torrey well, on lot 53, Alma, found twenty five feet of sand, fifteen feet of which is considered good. It had a small showing of oil, much like the other wells in that vicinity, and would probably make a five-barrel pumper. The Thornton in your vicinity will know the cause well, on lot 58, directly east of the Elliott venture, is drilling below the sand level, with no signs of sand or oil. The Elliott well found its sand is an irregular formation and between The undersigned desires to buy forty and fifty feet below the regular sand horizon.

Another Railroad for Tionesta.

A Harrisburg "special" to the Derrick under date of Jan. 26, says: Governor Hoyt to-day issued a

The company in its application for incorporation filed at the state department sets forth that the road is to run from South Oil City to Sheffield, Warren -Don't worry any longer with county, a distance of fifty-eight miles.
