LOCAL AND MISCELLANEOUS.

Condensed Time Table Tionesta Station. NORTH. SOUTH. Train 15... 6:36 am Train 18... 10:57 am

—Preaching in the Presbyterian Church next Sunday morning and evening, by Rev. Hickling.

—Rev. Hicks will occupy the pulpit of the M. E. Church next Sunday evening.

—Presbyterian Sabbath School at 3 p. m.; M. E. Sabbath School at 10 a. m.

—This is good maple sugar weather.

—The Y. P. L. S. will meet at the residence of Judge Dale.

—Several new and elegant pianos have arrived in town the past week.

—Mr. J. M. Hadley of Oil City, favored us with a short visit Monday.

—Has any one remarked that it is foolish to keep Wilde over an 'Oscar'?

—Notice to hens! Easter Sunday occurs on April 9th this year. Don't forget it.

—Yesterday was a lovely day; tomorrow ought to be, and to-day speaks for itself.

—The revival meetings at the M. E. Church are still in progress, and increasing in interest nightly.

—Miss Allie Grove, of Diamond, Venango Co., is visiting her cousins, Misses Alice and Retta Proper.

—Mr. J. B. Legend of Waukegan, Ill., son-in-law of Mr. H. H. May, is paying the family a visit at present.

—Walt Adams sandwiched the second finger of his left hand between two railroad ties last week, and now has it done up in a rag.

—A silk handkerchief was found and left at this office, where the owner can get it by paying for this notice and describing the same.

—Miss Kate Cobb returned home Thursday from a six week's visit with her cousins, Misses Ella and Kitty McVean, St. Marys, Pa.

—Mr. John Robinson, of Mercer county, has been visiting with his daughter and son-in-law, Mr. Geo. S. Allen, during the past week.

—Valentine day was principally honored in the breach in this place, and the P. O. D. didn't get much richer on account of the increase in sale of 1 cent stamps.

—But twenty-seven deer were killed in Forest county last season.—Meadville Republican. Ob, paw! what you talking about; why, Jake Guiton killed seventeen himself, and had no luck at all.

—The Committee on Graduation met at the school house in Tionesta Saturday afternoon last, but there not being a quorum present the Committee adjourned to meet Saturday, March 4, in the school house, Tionesta, at 2 p. m.

—Mr. M. Einstein came down from Sheffield last week to take a look at Tionesta once more. Morris is getting richer and richer in his new field, and his many friends about here won't be a bit sorry to hear of it, either.

—Considerable lumber was run out of the creek yesterday, the water having come up to good rafting stage. We understand there are between two and three million feet already rafted in and ready to run, and it will doubtless all be run on this water.

—Attention of the proper authorities is called to a dead cat lying in the gutter near Mr. Carson's jewelry store. If left there it will soon smell bad, and the fumes from a decomposed feline is not the most enjoyable aroma in the world, we opine.

—Baldwin's Official Railway Guide for February is out, and bristles with the freshest and most reliable railroad intelligence, statistics, time tables, &c. It has no superior, as a traveler's companion. Published by Henry Nauert & Co., 200 Main St., Buffalo, N. Y., at \$1.00 per year, or 10 cts. a single copy.

—The Scientific American, has risen, Phoenix-like out of the ashes of the late great fire in New York, and comes out with renewed vigor and life. The new offices are located at 261 Broadway, where all communications will receive prompt attention as heretofore.

—One of the most important offices to be filled at the election next Tuesday is that of assessor, this being the triennial year, and the rates fixed by the assessors elected then will prevail for three years. Therefore let none but level headed and impartial men be elected.

—An exchange says: "It is a common household experience to find caps of glass fruit jars so firmly screwed on that they cannot be removed by the hand. A cloth dipped in hot water and applied to the outside of the cap will cause it to expand, when it will come off without effort."

—The Postoffice department suggests that all letters of importance, and especially those containing checks, or other papers of value, shall have directions for returning the same to the sender, printed or written on the outside. If every letter could thus be provided, we should have but little use for the dead letter office.

—Golden Days, for boys and girls is once more upon our table. Of all the many magazines for young people Golden Days certainly takes the lead. Send for a sample copy to James Elverson, Philadelphia, Pa. Issued in weekly and monthly parts.

—Several good-sized flocks of pigeons have been seen flying about this section of late, which would seem to confirm the belief of some of our old "pigeoners" that the birds will nest in this county this spring. The outs are still abundant in the beech woods of Jenks and Howe townships, and will afford them plenty of feed.

—The season of Lent begins early this year. It began some time ago with us, as witness the absence of our only umbrella which makes the third or fourth one within a remarkably short space. Now, by the long-handled spoons! we give fair warning; don't leave your umbrella where we can get hold of it. Forbearance has ceased about this ranch.

—The Buffalo, Pittsburgh & Western has concluded a contract with the Pennsylvania Railroad for the use of its Philadelphia and Erie Division, between Irvineton, Pa., and Warren, Pa., a distance of six miles, connecting its Salamanca extension with the River Division, extending from Oil City to Irvineton. The track of the Salamanca extension is now laid almost to Kinzua.—Baldwin's Guide.

—Once upon a time it was customary for the bridegroom, after paying the wedding fee to the preacher, to hand him also a silver dollar or a bank note of the same denomination, to be sent to the publisher to pay for inserting the same. The custom has been neglected for some time past, but it would be just right to renew it again. And it would not be amiss for the preacher to remind the happy man of this fact.—Er.

—A clue to the ghost story mentioned last week, has been discovered. The "ghost" has always been seen near two large rocks close by the road leading to Hunter's Station, about a mile below town. A few days ago Jas. Burkett found near these rocks, a large plug of navy tobacco and a kid glove, supposed to belong to some female, that is, the glove; of course the tobacco didn't belong to a woman. No wonder people saw "ghosts" in that vicinity, but this will probably settle the matter.

—The young men's social fraternity gave a very enjoyable hop at the Lawrence House Hall on Friday evening. The attendance was good, numbering about forty couple of the elite of the burg. The supper was highly complimented and much relished; the music furnished by Prof. Gage's orchestra of Warren, was superior to any that has been brought to Tionesta for years, and will doubtless have calls from here in the future. They make splendid music and lots of it, and are not lazy about it, either. Last, but not least, the bill was very reasonable, and altogether the affair was a success.

—Arrived this week—Oranges Lemons, Sauerkraut, Split Peas, Cream Cheese—also, canned goods; oysters on Thursday, at Wm. Smearbaugh & Co. 11.

—Although less than a week remains before the spring elections take place there is very little said of the matter in Tionesta, and who will be the probable candidates is yet a question in the dark, so much so in fact that we have not heard of a single aspirant for any of the offices. No one seems to have the Mayorality bee in his bonnet, and it seems as though it would be difficult to get available timber for candidates for even that highly important and honorable position. Constable Walters, according to law, has posted notices of the election in this borough by which we see the following officers are to be filled: Burgess, six councilmen, high constable, judge of election, two inspectors of election, one constable, three school directors, (two to serve 3 years, and one to serve 1 year) two overseers of the poor, the one receiving the highest vote to serve 2 years, one auditor, one assessor and two assistant assessors.

—The rig for the new well at Balltown is finished, and drilling was commenced Monday. There is no telling when the well will be completed, but with good luck it ought to be down in three weeks or a little more. This is No. 5, and is located between No. 3 and May & Kelly's well, which is now flowing a barrel a day, and No. 3 is doing about three barrels daily. The new venture can hardly be anything but a paying well. The Tionesta Oil Company's wildcat on Beaver Valley is progressing as rapidly as possible, the rig, which is being built by Mr. R. W. Pimm of Fagundus, is about ready for the machinery and drillers. We have considerable faith in this venture, and hope it will meet with no bad luck to check its progress.

—A "wildcat" freight train down ran awful of a land-slide about half a mile above Hickory station on Monday night, and a general wreck resulted. The engine and several freight cars went over the bank in a heap, almost totally ruining the whole kettle of fish. The engine fell over on its side with the engineer on board, but, miraculously as it may seem, he escaped without a scratch. The fireman left the engine before it struck the slide, jumping over the bank and escaping injury. The accident was one of those which no one could be blamed as the trackwalker had been along only a few minutes previous, when everything was all right. The morning trains yesterday were somewhat delayed, but by noon the track was clear and trains running on regular time.

—The friends of the Hon. W. S. McMullen of Oil City, are urging his nomination as the Republican candidate for Congress in the Venango, Warren and Erie district. Mr. McMullen at one time represented Warren and Venango counties in the State Senate, during which time he made a brilliant record as a champion of oil the producing interests, and the Republicans of the district would do themselves proud by presenting the able ex-Senator to the voters of the district for their support. Of his triumphant election their would be no doubt, and the people would have a representative who would be an honor to them.

About the Blind.

The number of blind persons in Pennsylvania according to the census of 1880, is nearly 4000. The number in Forest county, we notice, is three. The "Pennsylvania Institution for the Instruction of the blind," will receive applicants between the ages of 10 and 25.

The "Pennsylvania Working Home for Blind men" will receive those between 25 and 60, to learn trades and receive employment therein.

The "Pennsylvania Industrial Home for Blind Women" will instruct and employ blind females of 21 years and upward.

The last two institutions are supported mainly by legacies and benevolent contributions.

It is very certain a large number of the blind know nothing about these institutions; and also that many who do know them have not had the friendly hand to prepare the way for their going there.

It is obviously the kind of office of every good citizen, and certainly the official duty of the guardians of the poor to look faithfully into this matter.

William Chapin is principal of the Pennsylvania Institution for the Instruction of the Blind. H. L. Hall is superintendent of the Pennsylvania Working Home for Blind Men.

—Much better to do without sugar and coffee than to be out of Peruna.

Brookston Briefs.

The T. V. (Tionesta Valley) R. R., has got no further than at last reported with the cars. They have their trestle nearly built across the flat and are now waiting for spikes. Are making two trips to Brookston daily: Leaving Sheffield at 7:12 a. m. and 4:35 p. m., arriving here at 8:00 a. m. and 5:35 p. m. Leave Brookston 9:45 a. m. and 6:00 p. m., arriving at Sheffield at 10:50 a. m. and 7:00 p. m. And right here I would say a word about the youths of Brookston on Sunday last, (ages ranging from 10 to 15 years), who spent the day running and riding on the two small cars which the men use to move timber and iron with. They seemed to be having a good time even if it did rain. But is there no danger to them? We leave that question to the parents and the Railroad Company.

Speaking of the cars reminds us that the other day a lady came up from Barnes on the train who had never before rode on a railroad; We refer to Mrs. J. G. Warner, of Barnes.

The railroad has five stations between here and Sheffield as per time table, viz: Martins, Donaldsons, Hoovers, Barnes and Gilsons; just think of it, on a road 7 miles long.

Fare from Sheffield to Brookston, fifty cents, by either stage or cars.

We see "Bill" Black has the town billed for a performance at the Library Hall on Tuesday, 21st, and has engaged the election officers to give their "serio-comic" entertainment.

Few of our people are aware that two miles from here, on the T. V. R. R., is a new settlement called Martins, where they have a saw mill and six buildings.

The Mr. Kightlinger, of Meadville, who died suddenly Sunday morning, Feb. 5th, was a relation of Mrs. Anthony Deet of this place.

Charley Nelson formerly of this place has sold his lot to Emanuel Anderson. Miles Pryor is moving to Wayne Co., this State. Mr. and Mrs. Murrin came to town Monday evening and will occupy the house vacated by Pryor. ANESRAM. Feb. 13, '82.

—The Oriental Casket, published by L. Lum Smith, 912 Arch St., Phila., is before us. It is a large handsomely printed magazine, and contains a fine collection of rare literary gems. It comes at \$2.00 a year and is worth all the publishers ask for it.

—The first law of nature is self-preservation; but to do it she needs Peruna.

—For headache, sick headache, take Peruna.

—Your duty is to keep from getting sick, if you can. With Peruna you can.
