This is a remarkable line -low grades and easy alignment. Mr. Whittekin informs us that the maximum grade will be about 12 feet per mile, and maximum cirvature 8°. Tke line is crooked but yet its general direction is on about a direct line between the termini, South Oil City, and Sheffield, Pa. Hurry the thing along and let us have the thing done with ; there has been talk enough to build three roads, but it now looks like one of the certainties of the near future. Good.

-The lumbermen of Warren county met at Warren on the 2d and organized the "Northwestern Lumberman's Association," with Hon. L. D. Wetmore as President, H. A. Jamieson, Vice President, James Clark, Treasurer, and James A. Wood, Secretary. The objects of the association are to ascertain the amount of production and consumption, the cost of manufacture, and to fix prices for certain grades and lengths .- Ridgway Democrat. This association held their second meeting in Warren last week, perfecting an organization and further cars : "From 20 feet long and under, \$9 per M.; 22 feet to 26 feet inclusive, \$10 ; 28 feet to 32 feet, inclusive \$11 ; stocks, \$11."- Tidioute News.

> We have repeatedly spoken of the necessity of repairing the streets and sidewalks of our town, and have predicted that some one would yet be hurt and the borough be brought into a good-sized bill of damages. In some cases the warning was hecded and in others it was not. Now the borough is in imminent danger of a suit of damages for injuries received from a fall on the sidewalk extending from the corner of the Martin House to the railroad. The injured party is Mr. John W. C. Sedgewick, a painter by trade, who has been confined to his room for a week or more with a severe attack of heruia, or rupture, brought on by a fall on this sidewalk. This gentlemap will in all probability be confided to his room for several weeks yet, as well as being in a measure crippled for life. The only thing which we can see that would prevent Mercantile Appraiser's Notice the borough from being brought in for the damages would be a nonpressure

of the suit. Brookville had a trial of it, it is our turn now, and all the other towns that neglect their pavements will catch it in turn, just see if they don't.

nity to get a nice lot of their lumber out, and on Saturday and Monday most of them pulled out down the river. Messrs. Wheeler & Dusenbury have run several Alleghenies and have one, and five creek rafts at this place yet, and twenty-six creek pieces at ther mills at Newtown. Ford & Lacy have their lumber pretty much out, and likewise all the rest at Nebraska. There is considerable yet to come from Bearcreek, Lamentation, Buckmills, Bob's creek, Minister and Foxburg. The Salmon Creek Lumber Co. will not be ready to run until the next rise. We believe they uid not run any on the present water. Messrs-Brace & Allen of Braceville, will, we understand, build a number of barges for the down-river trade for the present and comiug season. This is as it should be. Build the barges and boats at home and then run them down, instead of running the lumber and let some one else do the building. This industry belongs to us and it is but right that we should have it. Let others do likewise.

# Oil News.

The drillers will commence work on the Tionesta Oil Co.'s Beaver Valley Lak well this week, perhaps to-day. The reason they have not begun sooner is that their boiler was delayed at the shops. The well ought to be down in two weeks with good luck.

The Derrick yesterday morning contained the following items from the oleaginous regions of Sheffield :

Clark, Armor & Foster's No. 4, was completed last week. The drill found Lar from four to five feet more sand than in the other wells, but the showing of oil is no better. It will make an average Sheffield well.

The Shank & Stewart well is a small producer.

The Wetmore well is showing up for a hundred baarel send off.

The Sigel Crofey company's, on East Branch, will be a good one. The Horton & Magee, on lot 408,

is on top of the sand with the tools stuck. Mark her a good one. The Union oil company's No. 3 is good one.
