—The most important thing that occurred at the Adjourned Court held here on Monday and Tuesday of this week, was the revocation of the licenses at both hotels for one month. Thirty days is a good while to go dry, but that's the verdict, and so mote it be.

—Harvey Foreman took a short trip out of town last week, for the reason that the town was too small to contain him, for the time being. It was all on account of his wife presenting him with a bouncing boy on Wednesday morning last, the very image of his good-looking pap. Harvey's cigar bill has been somewhat larger in consequence.

—Miss Elmira Prather, who was well known to many of our citizens, died at her home in East Hickory on Monday night, June 15. She was in her fiftieth year, and was very much esteemed by those who were acquainted with her. She was a sister-in-law of Commissioner Henderson.

—Mr. Robinson is having a very substantial oak sidewalk laid in front of his property opposite the Lawrence House. His example should be emulated by a large number of our property owners, and if they don't soon take the hint the town dads ought to commence kicking them.

—Mrs. Elizabeth Butler, widow of the late Col. Cyrus Butler, who lost his life while arresting deserters in Clearfield county, in 1864, died at her home in DuBois, on the 29th of May, at the age of 54 years. The husband of the deceased was a cousin of Mrs. H. O. Davis, of this place.

—Mr. H. L. Hastings has sold his paper, the New Bethlehem Vindicator, to Messrs. John F. Dale & Co. The paper under Mr. Hastings' able management was a good one, and if the new proprietors keep it up to the present standard, and we believe they will, the patrons cannot reasonably complain.

—We publish to-day the grand program arranged for the coming Fourth, as well as the different committees appointed to assist in carrying out the same. There is every indication that the celebration will be a grand one, and the people in every part of the county are invited to attend and "take a hand." Come one, come all.

—An interesting game of base ball between the Buck Mills and Dutch Hill boys was played at Salmon Creek on Saturday last. The storm stopped the game before it was finished. In the evening all partook of an elegant supper gotten up by Mrs. L. Arner at the new hotel, which the boys say was one of the best they had relished for a long time.

—The 4th of July is coming and we are prepared with a full line of Fire works, Flags, Confections, Fruit, and Groceries; Boys' Wagons, \$1.25; Canned goods low, also Strawberries after June 25th.

—Considerable of a change has taken place in the arrival and departure of mails on the R. R. The mail which formerly came up at 4 p. m. now arrives at 7:24 a. m.; the evening mail formerly due at 8:08 p. m. now arrives at 1:33 p. m. The change seems to please all parties, but whether the old schedule was not the best remains to be seen.

—For the benefit of the publishers of this section we would suggest that they drop the ad. of Guilmette's French Kidney Pad, which appears weekly in nearly every exchange arriving at this office. The advertisement are frauds as far as payment is concerned, and if publishers depend on the receipt of cash from this source they will soon be as destitute of clothing as the female that illustrates the ad.—Brookville Republican.

—Charlie Davis has about completed a building next to his father's office, in which he will open a news stand that will be a credit to the place. All the first-class dailies and periodicals will be found on his counter. There is a good opening here for such an enterprise, and if kept up in good style, as we know Charlie is capable of doing, it will be a paying institution and a source of pleasure and convenience to our citizens. First class cigars, confections, and many fancy articles will be kept on hand. Give Charlie your trade, and thus encourage him to keep up a nice stock.

Killed by Lightning.

The heavy storm on Saturday afternoon last was not without its fatal results in this county. When the storm came up at Salmon Creek, George Harrington, with three other men under his employ, was building a fence. Geo., with two of the others took shelter under some boards which they had arranged for the purpose, while one of the others, Charles Walters by name, took shelter under a tree near by. This position did not seem to suit him and he changed to another tree, and to still another, until he got out of sight of the other men sheltered under the boards. After the storm had subsided somewhat the three started for the house some distance away, but young Walters did not put in an appearance. Towards evening the men around the premises became somewhat uneasy concerning Walters, and started out in search of him. Going to the place where he had last been seen he was discovered near by, lying at the foot of a tree, dead. He was taken to his boarding place and Justice Catlin of Newtown Mills sent for, who, after some delay, arrived and held an inquest, the verdict being that the young man came to his death by a stroke of lightning. The only marks to be found on the body was a black stripe down the spinal column and running down the left leg, tearing the seam of the boot and cutting through the sole. The body was dressed and placed in a neat coffin, and about \$20 was raised in a short time among the men at the mills, which was applied towards paying expenses of the funeral, and the corpse was sent to the former home of the young man near Helen Furnace, Clarion county, on Sunday. His age was about 20 years. He was an industrious young man, well thought of by his comrades.

Oil News.

There is little or no news concerning oil matters in this county that we have learned. The wells drilling are no greater in number than those we reported last week. There was a rumor on the streets last week that a new fifty barrel well had been struck in Howe township, but we have been able to trace the report to any reliable source. There is an endeavor to make a mystery of the affair. The big wells in Warren county are holding up to their production of from 1000 to 2000 barrels each in good shape, and are likewise holding the market down to 52 cents, just the same. Three weeks hence will see some big changes, either for better or worse.

WELL ON FIRE.

The following "specials" appeared in this morning's Derrick: This evening at 9:30 p. m. Cadwaller No. 1, lot 647, was discovered to be on fire. The watchman who first saw the fire escaped injury, but his partner, John Gibson, who was asleep alongside the boiler, was caught by the flames and badly burned. I can't learn the nature of his injuries. He was taken to Gaffield for treatment. The origin of the fire is unknown. The entire rig of 647 was rapidly consumed with about 5,000 barrels of oil. The well is now flowing fifty feet in the air and burning. Union pump station, just below the well, is entirely destroyed. Most of the United station will be torn down and saved. The United loss will be small. Six-thirty-five and 646 are in no immediate danger, but oil from the latter is now being run down the creek and being burned to prevent the tanks from running over and causing greater trouble. No means have been tried yet to put the fire out. Men and teams have started from Clarendon with pipe and the work of laying new lines will be rapidly pushed. 11:45 p. m.—The fire is about over now. The derrick, engine house and tanks are all destroyed. No other wells burned. It was another case of a man with a lantern passing by, when the gas caught, and away it all went. The well is still gushing.

A Card.

To the Members of Forest Lodge No. 184, A. O. U. W.: I hereby return to you my sincere thanks for the prompt payment to me, of Two Thousand Dollars, the full amount due me as beneficiary upon the death of my husband, A. H. Partridge. JENNIE C. PARTRIDGE. Tionesta, Pa., June 15, 1882. —To the weak Peruna gives strength.

Brookston Brevities.

The past week there have been two deaths in our community. First, the child of Mr. Hall, of Hickory, son-in-law of the late Abram Bean. Cause, diphtheria. Second, on Thursday the infant child of Braden Spencer. We learn that Curtis, youngest son of the late Abram Bean, is very low with diphtheria.

Miss Maude Fox, of Foxburg, attended the Teachers' examinations before Supt. Hillard on Friday.

Barney Smith and Jim White spent Friday and Saturday fishing on Watson Branch. Had good success and wet coat.

Cherry Grove is all the talk here.

Mr. Livingston the gentleman who is putting up the saw mill on the "Oil Lot," 2366, moved in during the week with his family, occupying A. P. Anderson's house.

One of the mill boys cut his leg quite severely while scoring timber.

Chas. A. Bailey has removed to Five Mile Run near Wilcox.

Dave Miller and boy are with their teams hauling from Sheffield to Cherry Grove; also, Fred Anderson.

Subscribers should be more like young ducks and occasionally liquidate their bills. [Come down here and let us pat you on the back for that remark.—Ed.]

How is this for the name of a Green-back paper in Maine: "Thom Steers."

Sunday morning one of the iron supports to the grate in the Tannery boiler house having burnt out caused the grate to fall. It will be fixed, we hear, as soon as the ovens are cool enough to work at.

The mills going up are progressing. Heavy thunder storm Monday morning. ANESRAM. June 20, '82.

Kansas Letter.

MARQUETTE, KAN., June 12, '82. EDITOR REPUBLICAN—While my pen has long been silent my thoughts have oft wandered back to the land of my nativity, and as eagerly as of yore do I wait for the coming of the welcome visitor—The REPUBLICAN—sometimes bringing glad tidings, sometimes sad. During the past year it has chronicled the departure of many from earth, whom I have known and loved. Oft do I find myself wondering, should I ever return to the old home will it seem like the old place I bid farewell to, some years since—so many passed away, their places filled by new and strange faces, or shall I even care to return.

I notice by your paper that you are having your share of cold, wet weather, as well as ourselves. This spring has been unusually cold and wet here, much more so than last year. The winter was very mild, but little snow fell. I plowed some every month and almost every week during the winter. Spring opened up early, a good deal of oats were sowed in March. Corn planting commenced in April, but cold, rainy weather set in and much of the corn had to be replanted. During the forepart of May it became quite dry, so much so that many of the farmers feared the dry weather, together with the Chinch bug, would greatly damage the wheat, but since that time we have had an abundance of rain and grain of all kinds bids fair to yield an abundant harvest. Wheat harvest commences here this week. Harvest hands are scarce owing to the fact that many of the farmers have not finished cultivating their corn, the ground being too wet to work in most of the time. New potatoes and almost all kinds of garden vegetables have found their way into the market, from home production. I notice from the agricultural report of this county that the number of acres of winter wheat out are 105,362; spring wheat 1,492; corn, 87,642; oats, 20,178; broom corn, 15,556, making quite a large amount of land under cultivation for a new county, but recently peopled, that is to any extent. Our county has been visited by two or three cyclones this spring, together with several hail storms and some frost in May, but none of these did very much damage in this immediate vicinity.

—Rheumatism, disordered blood, general debility, and many chronic diseases pronounced incurable, are often cured by Brown's Iron Bitters. —To the hesitating Peruna gives courage.
