LOCAL AND MISCELLANEOUS.

Condensed Time Table Tionesta Station.

Table with columns for NORTH and SOUTH, listing train numbers and times.

—Rev. G. A. B. Robinson, of the United Presbyterian church of Brookville, Pa., will preach in the Presbyterian church in this place next Sabbath at 11 a. m., and 8 p. m.

—Rev. R. W. Hawkins will preach in the F. M. Church on Sabbath evening next, July 30.

—Rev. Hicks will occupy the pulpit of the M. E. Church next Sunday evening.

—Presbyterian Sabbath School at 3 p. m.; M. E. Sabbath School at 10 a. m.

—Chestnuts are in "full blow," and give promise of a big crop.

—The exodus to Chautauqua from this place has not commenced yet.

—Miss Bertha Legard, of Waukegan, Ill., is the guest of her cousin, Miss May Kelly.

—Mr. Henderson's eldest son arrived in town Monday and is stopping with him at present.

—Oil has gained a step or two during the week. It touched 63 1-8c. yesterday and closed at 62 3-8c.

—The river is lower now than it has been any time this season, and it is in pretty fair "skipper" stage now.

—One touch of summer, in the opinion of the New Orleans Picayune, makes the whole world want to swim.

—Dr. Morrow reports the arrival of a boy at Frank Gaiton's house, at Root & Watson's mill, on Sunday last.

—Bruce Crawford has added much to the beauty and value of his property by enclosing it with a nice paling fence.

—Quintain Jamieson has four acres of wheat on the island above the flats which will without doubt yield 30 bushels to the acre.

—The first drowning accident of the season occurred at Chautauqua Lake last week. The victims were Dr. A. J. King and wife, of Mansfield, O.

—An Armstrong county crank has commenced the erection of an ark on the bank of the Allegheny river, near Pine creek, in the anticipation of a big flood which he says will come on October 18.

—The lecture in the M. E. Church last evening by Rev. Dr. Herron, of Oil City, was well attended, and those who heard the eloquent gentleman were highly edified by his remarks on "the price of success."

—Our base ball club now has a chance to show its sand; if it can muster up enough courage to accept the challenge of the Buck Mills club published in this issue, an interesting game may be expected.

—We'd encourage summer tourists to come to Tionesta and recreate if we weren't afraid some of them might sustain the loss of a limb on our dilapidated sidewalks and bring in a bill of damages against the borough.

—Mrs. J. S. Hood, who has been confined to her bed for the past week or ten days, is at present in a very critical condition, and her physicians Drs. Morrow and Davis, are quite uneasy concerning her symptoms.

—Beef took a tumble one afternoon last week when the 4:04 train rounded the curve just below town; a steer and a heifer, the property of Wm. Hood, were the principal actors in the sad tragedy. Neither will do it again.

—Butter and eggs are getting fearfully scarce in this neck o' woods; in fact it is almost impossible to buy a pound of good butter at any price, and as for eggs, they don't see this market once a week. The cause of this scarcity is attributed to the fact that huckster are scouring the country, buying up these articles and carting them to Garfield where they find ready sale at fabulous figures.

"The cherry crop is a failure in this section," remarks an exchange. And so it is in this, but as much blame is attached to Robin Redbreast for the failure as to any other cause, the luscious cherry being a favorite morsel with him.

—Baldwin's Official Railway Guide for July is the handsomest and most complete number yet issued of that popular publication. It is a genuine midsummer number, in which the traveler and tourist can find plenty to interest and instruct him.

—There was quite a sprinkling of outside Democratic politicians in the county last week. The fight was for the Senatorial instructions of Forest county, between Messrs. Hall and Barr, and the friends of both were putting their best foot forward.

—The borough school board held a meeting on Monday evening for the purpose of selecting teachers for the ensuing school term. The election resulted as follows: J. H. Bell, of Franklin, Pa.; intermediate, Mrs. H. M. L. Dithridge; primary, Miss Aggie Kerr.

—Samuel Walker passed through town on Monday night with his oldest son, who had the misfortune to cut three of the toes of the left foot off, about three weeks ago, while at work on Blute & Charlson's bark job, on the headwaters of Queen, Hickory township.

—S. J. Row Esq., senior editor of the Raftman's Journal, has been appointed Postmaster of Clearfield. If Mr. Row manages the post office with as much care and honor as he does his paper the citizens of that ancient borough are hard to satisfy if they growl.

—The "Oriental Casket" for July is a rare number and will delight its many readers. It is rapidly gaining in popular favor, and is a truly good magazine for everybody. Published at the nominal sum of \$2.00 per annum, by L. Lum Smith, 912 Arch St., Phila., Pa.

—Along with other immense crops the yield of rattlesnakes promises to be good. Hardly a day passes but some one has a story to tell. Neither the snakes nor stories diminish in size. The last one was fifteen feet long and had four and a half rattlers, if we remember rightly.

—We learn from the Warren Mail that Mr. Elmer E. Morgan was married in Warren, Pa., July 23, 1882, to Miss Matilda Campbell, of Eau Clair, the Rev. James Rea officiating. Elmer has many friends in this section who will join us in wishing him and his bride a long and happy life.

—The policemen of Oil City gobbled up five safe-crackers on Monday afternoon. They had robbed the safe in the express office of the N. Y. P. & O. Ry., at Greenville, on Saturday night last. In less than thirty-six hours after the robbery the whole gang were safely caged. That was pretty lively work.

—The young base ballists of this place, who style themselves the "Red White and Blue," played a game on their ground, Hunter's Island, on Saturday last with a picked nine, resulting in a victory for the p. u., the score being 20 to 25. The game was quite spirited, and the "kids" held the men down pretty well.

—Hark Wentworth presented us with a big hoot owl last Saturday, and just as we began to get rightly interested in the beautiful bird, and were on the lookout for some nice spring chickens to feed him, what should he do but "kick the bucket," keel over and give up the ghost, as it were. 'Twas ever thus, &c.

—A. G. Comstock, of Millville, Erie county, well known to our older class of citizens as a former resident of Tionesta, is suffering from a sore leg, and his condition, we learn from a gentleman of this county, who had lately visited him, is rather critical. Mr. Comstock has many friends still living here who will regret to hear of his trouble.

—The lettuce crop is by no means behind this year, judging from the handsome specimens we have received lately. A short time ago Pritner Agnew, of Hunter Run, presented us with a basket of lettuce which was simply immense in size and handsome to look upon. And now comes Mr. King of Hickory, twp., who hands us a head raised in his garden which weighed an even pound, and as tender as a mushroom. Both gents have our thanks.

—Business has been lively in the harvest fields since the latter part of last week. Our farmers seem to realize that they must "make hay while the sun shines" this year, for it don't shine very long at a time. A day or two more of such weather as we have been having and the hay, and most of the grain will be safely garnered.

—Among the substantial improvements going on in town, the new and handsome picket fence of Mrs. Cot. Thomas has hitherto escaped our notice. Mrs. Thomas evidently thinks if the town council has deserted her in the way of fixing the street up there so that it will outline her premises she can easily make the premises outside the street.

—Mr. John Hawthorne, of Venango county, paid us a visit on Thursday last, having been called here to see his brother Samuel, who has been suffering with some disease of the mind for a few months past. We are pleased to state that he seems to be improving now, and the probabilities are that he may recover entirely. We hope that such may be the case.

—District Attorney Irwin has our thanks for a copy of "The Rights and Duties of County and Township Officers," by Willis R. Bierly. It is compiled from the Acts of Assembly and reports and digests of the State to Oct. 1879, and should be in the hands of every public officer of the State. The regular price of the book is \$2.00 per copy, but by promptly applying to Mr. Irwin, who has a few copies left, you can get it for \$1.50.

—The Democrats of this county held their primaries last Saturday. The contest for State Senate was rather hot between the friends of Senator Hall of Elk, and W. W. Barr Esq., of Clarion, each of whom had the instructions of his own county, and wanted Forest. Senator Hall won the game by a score of 131 to 71. No other nominations were made, but just why this was so they didn't inform us; we suppose, however, it was because they could not get men to accept the empty honor of a nomination. In the absence of any other explanation we are bound to come to this conclusion. Perhaps they can find enough material, that is willing to be slaughtered, to fill the ticket between this and November.—P. S.—Since the above was in type we learn that the convention nominated the following county ticket: Assembly, S. H. Haslett; District Attorney, T. F. Ritchey; Jury Commissioner, Archie Black, of Barnett twp. Col. John Peterson was made chairman of the county committee.

—Mr. J. Patton Thompson, of Kittanning, has sent us a copy of The Emigrant, printed at Warren, Pa., dated Nov. 4, 1825, by Richard Hill. The commissioners of the county at that time were R. Falconer, J. Bonner and R. Russell, and they advertise four tracts of land in Kinzua township for sale. Dr. A. Hazeltine has his card as doctor and proprietor of a drug store. The postmaster was Archibald Tanner, and the list of letters remaining in the office Sept. 30, 1825, is given. L. S. Parmlee has a half-column advertisement in which he states he has just received a large and extensive assortment of fall and winter goods, among which is found cognac, brandy, St. Croix rum, port, teneuride and sherry wine. The list of causes set down for trial at the Dec. term is published by L. Wetmore, prothonotary, and among the parties litigant, we notice Jacob Hook, Poland Hunter, John M. Berry, Mathew Young, Richard Duprey and Roger Files. An original poem appears on "The Departure of Lafayette." The government has just sold the four large vessels sunk in the Erie harbor, the Detroit, Queen Charlotte, Lawrence and Niagara—for \$375. The purchaser expects to raise them and convert two of them into steamboats. The official vote of the county on the question of constitutional convention is given as 286 for, and 88 against—total vote of the county 374.—Warren Ledger.

Oil News.

There is nothing positive as yet concerning the Beaver Valley well, warrant 5211. The derrick is still boarded up, and no one allowed to enter except those directly interested, and an occasional outsider who possesses a little more cheek than the average mortal. From the little information obtainable it seems the hole is something over 1600 feet deep, and thus far, dry, with some gas. This condition will not, however, stop the drill, as we understand, but the territory in the hands of the company, some 600 acres, will be thoroughly tested before it is abandoned.

Grove, Hart & Co. commenced drilling at their well on Beaver creek, about three-quarters of a mile west of the late Mystery, on warrant 5219, ten days ago, and are now down 500 or 600 feet.

The parties who have been doing the operating at Balltown, have commenced a new well a short distance southwest of former developments. It is located on a small stream called Brush Camp, on the Cook lands, and is in the direction of Bobs creek from Balltown. The rig is completed and drilling should commence very soon if not already begun.

Over near Root & Watson's mill, Kingsley township, Mr. Cornwell has a rig up ready to commence drilling; it is located about fifty rods east of his last well, with which he had such miserable luck. Mr. C. has great confidence in the territory up there and we hope his pluck may be rewarded by a nice gusher.

Kennedy & Hancock are getting ready as fast as possible to put down their well on Whig Hill, on the farm of George Watson. A week or ten days will see them drilling, if they have anything like decent luck in getting rig up and machinery on the ground.

A company headed by H. H. Stow, are getting things in shape as fast as possible to put a well down a mile or mile and a half directly east of Tionesta. As soon as satisfactory arrangements can be made with the property owners of that vicinity the rig will be built and the well put down with a rush. That is where we want to see the big well struck.

The above ventures, if put down to a proper depth will test a good deal of territory in Forest county, and it will be surprising if some of them don't strike a good well.

The following is a list of combined wells completed and an estimate of their production in the Cherry Grove district up to Saturday night last, taken from the Derrick:

"Lot 610, Bayne, Fuller & Co.; 611, Forest oil company, No. 1 and No. 8; 618, C. K. Brook; 619, Murphy, Nos. 1 and 2; Tack Bros., No. 1; 620, Carter & Hood; Grace & Book; 634, Union oil company, No. 1; 635, Anchor oil company, No. 1; Barry & Kelly, Stafford & Barnsdall, J. R. Goldsborough, Nickle oil company, Clark & Goldsborough, A. P. Tanner, A. Sheidmantle, Reed & Brenneinan, W. Allhouse, Caldron Bros. & Locky, C. H. Cramer, Valiant oil company, Thompson & Andrews; 645, Kervin & Glatsav; 646, Union oil company, Nos. 1 and 2; 647, Anchor oil company, Nos. 1 and 2; 659, Wetmore & Murphy; 672, J. R. Goldsborough and Tim Mullen, jr.; total 32. The production of these wells is variously estimated, and may be put at somewhere between 15,000 and 18,000 barrels."

The largest flowing well ever struck was the Murphy No. 2, on lot No. 619, a short distance from the Murphy No. 1. The well started at the rate of 4,800 barrels a day, when only one bit in the sand. Nothing this wonderful field may do hereafter will create any surprise. It seems to be capable of anything.

Another Railroad Story.

The Bradford correspondent of the Pittsburgh Evening Leader has the following to say concerning the latest railroad scheme which we give for what it is worth: "A short time ago the Leader contained a special from this place giving the details of a gigantic gridiron of narrow gauge roads, extending from Attica, N. Y., to Pittsburgh, with numerous ramifications touching the oil and timber lands of Western Pennsylvania, and aggregating 1,500 miles in length. Some of these roads are in active operation, and the rest will soon be completed. The newest road was organized on Tuesday. It is to be called the Bradford, Garfield and Air Line railroad running from Bradford to Andersons, where it will connect with the Garfield and Tionesta, twenty miles from its terminus. It completes a chain of four links of narrow gauges as follows: The Bradford line above mentioned, the Bradford and Tionesta, the Garfield and Cherry Grove, and the Garfield and Tionesta. The entire line will be one of about seventy miles, connecting this city by substantially an air line with Tionesta and thus to Titusville and Oil City and Franklin. Four companies have been organized, charters obtained, the surveys are being pushed and the work will begin within a week on the most important line to Bradford of any one yet. The road is owned by eastern capitalists."
