

AND MISCELLANEOUS.

Expressed Time Table Tionesta Station.

Preaching in the Presbyterian Church next Sunday morning and evening, by Rev. Hickling.

Oil market closed yesterday 78 1/2. Opening this morning at 78 1/2.

Mr. A. Carson has moved into his new building on Walnut St.

Attendance at the Sunday Schools is increasing. Christmas is coming.

Charlie Killmer cut his foot quite seriously with an ax last Sunday evening.

Attention is called to the Holiday card of Wm. Smearbaugh & Co. in this issue.

Mr. C. F. Gillespie of Whig Hill paid his respects to our sanctum yesterday morning by a pleasant call.

MISSING MAN! H. J. HOPKINS, who was found in New York buying Holiday Goods for H. J. Hopkins & Co.

Geo. Smith carries his arm in a sling, the effects of a few "exhibition shots" at the roller skating rink last Thursday.

Mr. Ben. W. May of Chicago, is home for a brief visit with mother and friends. We never saw Ben. looking quite so fine as now.

And now W. A. Eagles wears a pleasanter smile than ever. The arrival, Monday morning, of a bouncing boy is the cause of it.

C. W. Baker killed a fine buck last week, since which time he has been wearing his former overcoat for a rest. Good boy Clint.

G. W. Sawyer is fixing up his dwelling house near Robinson & Bonner's mill. When completed he will have a very comfortable abode.

Mr. Craig has temporarily moved his family into Samuel Clark's vacant house. His own edifice will not be ready for occupancy much before the first of January.

Harve Foreman has succeeded, since the snow fell, in finding two deer sufficiently blind to run into the muzzle of his gun. But all the same Harve attributes it to his superior marksmanship.

Three families will shortly occupy H. O. Davis' house at the east end of the river bridge, viz: Chas. Hinton's, J. A. Huling's and A. Wisner's. This illustrates the scarcity of dwelling houses very forcibly.

E. E. Clapp Esq., of President, looked in upon us a few moments yesterday morning. He was feeling jubilant as usual, except over the defeat of Blaine, but we won't tell just now what he said about the "change."

During the past week the hunting has been very good, yet very little venison has reached our market. Most every man that has a particle of conceit and the time to spare has hied to the big woods, loaded down with ammunition, expectations, &c.

Thanksgiving Day passed like a Sabbath in Tionesta so quiet was everything, and that is the way it should always be spent. Union services were held in the Presbyterian church, Rev. Small preaching an excellent sermon to a fair congregation.

There will be a shooting match at Herman Blum's, on Dutch Hill, next Saturday, Dec. 6th. A number of fat turkeys, chickens and geese will be shot off, and those who think they can shoot and would like something in the poultry line for Christmas should be on hand.

A telegram received last week by Mr. Adams conveyed the intelligence that his son, Walter, who had stopped at Bradford on his way to Buffalo, was quite seriously ill, but later advices stated his condition to be much improved. On Monday evening, however, a message was received announcing that he was worse, and summoning his father to his bedside. We hope to hear better reports soon.

those who expect to and the Institute on the 10th inst. The Superintendent expects to have a good supply of instructors in all branches, and with the proper encouragement by the teachers and citizens the Institute will be a success.

We understand that Mr. Lawrence has about consummated the sale of his hotel property in this place to a Bradford gentleman. Possession will not be taken right away, but arrangements for the transfer are now pending. We also learn that the purchaser is an old and first class hotel man.

Forest Lodge, A. O. U. W., will be ready soon to announce its second annual ball, which will take place some time during the holidays. The pronounced success of their last year's effort is a sufficient guarantee that this one will be the ball of the season. The music will be the best the country affords.

The County Commissioners have put in their office within the past week a large and excellent safe; one that will accommodate the records of that office for the next twenty-five years. This is something that was badly needed, as the records of a county cannot be replaced when once fire gets a good hold of them.

We are informed that, owing to the great depression in the trade, Horton, Cray & Co., have shut down operations at their tanneries both in this and Warren county, thus throwing out of employment a large number of workmen. The capacity of all their tanneries is upwards of 2,000 sides of sole leather a day.

Mr. and Mrs. J. L. Craig wish publicly to acknowledge many thanks to all those who so generously lent their assistance in rescuing their household goods from the recent fire. But for the prompt and vigorous efforts on the part of our citizens most of their goods must have burned, and they therefore feel duly grateful to all.

A special from Olean says: Abraham James, a spiritual medium through whose instrumentality the once celebrated oil district at Pleasantville was discovered, has died in Oregon. James claimed the spirits had shown him a great oil lake at Pleasantville. He made a fortune of half a million in oil which he lost on the Pacific coast.

Writing of the chestnut output in that vicinity, the Cochranton Times says: "The returns are all in, and from the official count we learn that 2,035 bushels of chestnuts were shipped from Cochranton station this fall. Dunbar & McGrath shipped 1,235 bushels, Coley Bros., 700, and others 100." The average price paid was \$2.50, showing that \$5,000 was left in that vicinity from the sale of the chestnut crop.

The two young highwaymen, Paxon and Gilson, who so brutally beat and robbed the young Jewish peddler, Talamo, near Pleasantville in September last, mention of which we made at the time, received their sentence at the late term of court at Franklin. They each got four years and six months in the Penitentiary, which, considering the fact that they all but killed the peddler—in fact left him for dead—is thought to be a merciful sentence.

The "opening" of the skating rink last Wednesday evening was a success all round. Pleasantville's cornet band furnished excellent skating music, while the boys of the Hill, assisted by part of the Pleasantville band, made splendid music for the dance. Supper was served by Mr. Brownell of the Central House, and was pronounced a superior article by all who partook of it. Joe Landers, proprietor, may well feel proud of his rink, as no town the size of this can boast of a nicer one.

From the St. George, Tacker Co., W. Va., Democrat, we take the following items of interest to some of our readers: "A slight raise in the river this week brought many logs down from the head of the stream. At one time they were so thick that it would have been possible for one to cross on them at this point. They were mostly Huling & Co.'s logs.—Mr. Frank Keck arrived in St. George last Saturday evening and spent several days up the river looking at our immense quantity of timber."

Don't wait until the Season is over to get bargains, but come now and buy Men and Boy's Clothing at reduced prices from already low prices to suit times.

Lineville Lines. Hunters plenty. "Dears" rather scarce. At least J. W. Miller says so, and he ought to know.

Miss Emma Hale and Mr. Oscar Strikenbarger were united in the bonds of everlasting bliss, and, we hope, eternal happiness, a few days since. The couple have the best wishes of their numerous friends, including the writer.

H. L. Miller has closed his school at Triumph, Warren county, on account of sickness, which is abundant among the children around there.

F. F. Whittekin is on deck again. Protracted meeting is in progress in the M. E. Church, conducted by Rev. Platt.

J. W. Springer has been visiting his mother recently. He returned to Duke Centre last week.

Andy Rieckbrode has left for Pittsburgh to engage in drilling for gas.

Kahl Brothers are engaged in drilling water wells in Tionesta twp, Forest Co.

We think that from the number of persons who are turning up thieves, that the interrogatory "Who does steal?" might be turned into "Who don't steal?" One of the causes of so much pilfering is the practice of compromising with the guilty parties for a pecuniary consideration; and although criminal we know many who have so done. If the practice is not stopped, and the guilty parties prosecuted as they should be, such persons will be proceeded against. Justice and the interests of the community require something to be done one way or the other.

S. J. Beck is the champion walker of the township. He walks 12 1/2 miles per day (to and from his school), which, in a term of five months, equal 1375 miles. LANK. Lineville, Pa., Nov. 29, 1884.

Roller Skate Flirtation. Lying on the right side, "My heart is at your feet."

Lying on the left side, "I have money in bank."

Standing on your nose, "I have no objection to a mother-in-law."

Jumping on the skates, "I am afraid I can't trust you."

Lying on the back, "Assist me."

One leg in the air means, "Catch me."

Two legs in the air means, "Mashed."

One skate in your mouth, "Crushed again."

Hitting the back of your head with the heel, "I am gone."

Suddenly placing your legs horizontally on the floor like the letter V indicates, "I am paralyzed."

Punching your neighbor in the stomach with your left foot, "I am onto your little game."

A backward flip of the heels and sudden cohesion of the knees to the floor, "May I skate the next music with you?"—[Exchange.]

J. E. HILLARD, Co. SUPT. That school is too noisy in which the teacher can not control the noise.

That school is too noisy in which the noise is caused by other than the necessary activity and bustle of the school-room.

That school, as a general thing, is too noisy in which the teacher will not control the noise.

A school should be kept quiet because there are pupils in the school who can not study where there is much noise; these pupils have the same rights other pupils have, and their rights should be secured to them.

Noise is not a necessary condition to study. It is always a hindrance to a greater or lesser degree. All sounds can not be called noise. Noise is uncontrolled sound; it is sound jumbled, tumbled, rolled, mixed, tangled. Noise is sound without distinctive character; it is wrecked, bankrupted sound. It indicates misapplied force, wasted energy. It arises from confusion. It is not a necessary out-come of study and activity. It has no place in a well directed and well organized school.
