A Notorious Character Killed.

George Coyle, for many years the county, Coyle has been making that his headquarters, and as of old has been a terror to the well disposed citizens. It seems that on Monday he took occasion to slap an inoffensive man, who had in no way molested him, in the face whereupon the man, whose name, at this writing we have not learned, picked up a heavy stick of wood and struck Coyle on the bead, crushing his skull from which he died. Coroner Church, of East Hickory was telegraphed for, but whether he quest we do not konw. Coyle is said to have been powerful in stature but coward by nature, and when he got hold of a person whom he could handle would beat him unmercifully; on many occasions, however, he met bis match, and has several times been beaten within an inch of his life. What the outcome of the affair will be cannot be told at present, but that little attention will be paid to it is a natural conclusion.

P. S.-Since the above was in type we learned the following different account of Coyle's death: He was engaged in a row on Saturday night, -Our parrow gauge railroads are during which he received a shot in the foot. On Sunday the doctor administered chloroform for the purpose of extracting the ball, and it is said he died foom the effects of the drug. This is perhaps the true story.

Death of Isaac Siggins.

Isaac Siggins, whose serious illness we noted last week, died at his home, West Hickory, on Saturday night, Feb. 24th, 1883. Mr. Siggins, as nearly as we are able to learn, was born near where he died, in the year 1812, and at the time of his death was 70 years and 5 months of age. His sickness was only of about six weeks' duration. Thus has another of the old landmarks been swept away by the ruthless hand of Death. The familliar form of Uncle Isaac Siggins was well known to those who had occasion to travel past his place. He was an energetic man in his younger days, and by that energy he amassed quite a fortune which kept him in ease and comfort in old age. He had some peculiar characteristics in his make up, one of which was that he never married; yet withal he was one of the most highly esteemed and respected citizens of our county. He was ever at peace with his neighbors, by whom he will be greatly missed. He leaves one brother who lives near Pleasantville, and a large number of nephews and nieces, among whom we understand he divides his fortune equally, showing that he had no favorites, but loved them all. The terror of new oil region towns, and funeral took place Monday, his remains who is known all through oildom as being laid to rest beside other relathe most notorious ruffian in the dig- tives in the family burial lot, near the -Lust week the snow all disap- giugs has at last met his death, and as old homestead. An Instautaneous Light.

Such in a word is the unique apparatus on exhibition at the rooms of the Portable Electric Light Company, 22 Water Street. It occupies the space of only five square inches and weighs but five pounds, and can be carried with ease. The light, or more properly lighter, requires no extra power, wires or connections, and is so constructed that any part can be replaced at a very small cost. The chemicals are placed in a glass retort; a carbon and zinc apparatus, with a spiral platinum attachment, is then adjusted so as to form a battery. and the light is ready. The pressure, on a little knob produces an electric current by which the spiral of platinum is heated to incandescence. The Portable Electric Light Company was recently incorporated with a capital of \$100,000, under the laws of Massachusetts. Some of the prominent business men of the State are identified with this enterprise. In addition to its use as a lighter, the apparatus can be used in connection with a burglaralarm and galvanic battery.
