—The court came to an abrupt end last Saturday—not however, until a large amount of business had been transacted. The law requires the jury commissioners to be sworn each time a jury is drawn; whereas they did the business as Benjamin Franklin recommended his father to say grace over the barrel of pork in order to save the time at each meal. They have conceived that once taking the oath sufficient, and this on the occasion of being sworn in. Lieut. Gov. Stone raised the question after all other methods had failed to get a thief's trial to be put over had failed. Then he sprung the illegality of the jury, which Judge Brown decided well taken and the court adjourned. The jury was good enough for all purposes but that of a pick pocket. The next jury will be constituted according to the law.—Warren Ledger.

—The most timely of modern discoveries is noted by an exchange. A young lady, being afflicted by an obstinate cold, concluded as a last desperate resort to try the curative effect of tackling the family washing. To her own surprise and the infinite gratification of her cold and restored to health and unwonted usefulness. The happy beneficiary of the wash-tub cure says that the steam arising from the tub wrought the magical change, and she at once imparted her secret to young lady friends similarly afflicted, who have tried the remedy with like wonderful results. We hasten to lay this important discovery before the young ladies of our land, who have so long been weeping and sneezing beneath a weight of catarrhal woe, almost unable to play the piano or warble the wailing inquiry, "Why am I so weak and weary?" Let the stricken things look up and brace up. There's balm in the wash-tub. Suffering sisters, try it, and all sighing and snuffling shall flee away, and a sense of relief shall reign in your heads, your homes, and the wash house.—Franklin Press.

TIDIOUTE.

About fifty new books have been added to the High School library. Reverend Mr. Rhea of Warren spent several days in town last week visiting our schools. Such visitors are always very welcome.

Miss Nellie Hague, of Toronto, who has been visiting here for some time, returned home last Monday.

A piece of the Warrea covered bridge is now lying on Magill Island, having been carried there by the high water. The owners can have the remains by identifying property and paying charges.

Reverend Mr. Gilleland delivered another of his interesting lectures before the High School, Friday morning. The subject was "Mistakes to be Avoided."

Jahu Hunter is confined to the house with a severe cold. Bishop Whitehead, of Pittsburgh, held service in the Episcopal church Tuesday eve; Wednesday morning he baptized two children. He also took up a collection preparatory to obtaining a pastor to preach there at regular intervals.

Mr. Hanchett has refitted the empire Hotel and will open it to the public in a few days in good style. March, 19th, 1883. BOB.

—PETERSON'S MAGAZINE for April is already on our table as welcome as the flowers of Spring and quite as fresh and beautiful. The embellishments as usual are very fine, particularly the steel-plate, "A Modern Cinderella"; and the colored steel fashion plate; and the colored pattern in crewels, a bunch of dog daises. But the specialty of the number is its stories, which, though always superior in "Peterson," are better this month than ever. No lady should be without this magazine. It is not too late to subscribe for 1883, as all the back numbers can be supplied, if desired. The price is but two dollars. Subscribe at once. Address Chas. J. Peterson, 306 Chestnut Street, Philadelphia, Pa.

OIL NOTES.

BALLTOWN PHAZ.

Peter Berry and his amiable wife set a good table, and Peter keeps the best quality of sand rectified cider, and cigars.

The Kelly & Grandin Nos. 3 and 5 are keeping up their production. The Porkey well is good for 15 barrels. Of the new wells: J. C. Welsh is about 800 feet deep. He has had a great deal of trouble casing off the salt water. In fact all the wells in that vicinity are troubled with salt water. No. 3 of Grandin & Kelly wells has to be bailed out twice a week. Grandin & Kelly are drilling their No. 6, and putting up a rig for No. 7. These two wells are located on a 45 degree line drawn half way between 3 and 5; No. 6 being to the northwest and No. 7 to the southwest.

Murphy's well, on 3194, will be in by the time you go to press, if they have no bad luck. This well is about 80 rods north of the Porkey well. The Gailey Bros. well is dry, Dr. Book with all his "mystery" and Andy Gartland to the contrary notwithstanding. Murphy is starting two rigs on the southeast corner of 3133. The Bailtown Oil Co. is putting up a rig on 4821, about 250 rods east of the Gailey Bros. Jas. Welsh is starting a rig east of his well. The "Big K" will be drilling this week. Bro K.

Reports from the Cooper Tract of the past week are of a rather damaging nature. It is said the production of the principal wells has fallen off more than one-half within the past five or six days, and at the present rate of decline that territory will be a second Cherry Grove in less than two weeks. A gauge of the entire Cooper district on Saturday last showed that the production was 1,532 barrels, fully one hundred barrels less than before the Patterson, McCalmont No. 2, Reno No. 2, and Murphy were completed. Add to this the fact that the Sherman well, which was expected to be a good one, came in dry, likewise the Shannon No. 6 and the Clark & Foster, and the outlook is decidedly not very rosy. It is believed, however, that when these large wells get down to fair sized producers their staying qualities will be good. The activity in building and operations is still kept up and increasing, and as soon as the backbone of winter is thoroughly broken things will grow very lively there.

The Wolcott well on Sugar Run, near Nebsaska, was completed last week, but what it is none of the outside world seems to know, and the owners refuse to divulge, either because they think it's nobody's business, or from a lack of knowledge on their own part. The general supposition is that it is a duster; some think it is not. May the latter party win their guess. The Tionesta Oil Co. is locating a new well somewhere on its Beaver Valley territory. The exact spot we have not yet learned.

Derrick, this morning: The Anchor Oil Company will have two wells in the sand this week, provided they have no bad luck. One is No. 16, located west of the Forest Oil Company's producer, and from its situation a hundred barrel well may be anticipated. The other is No. 14, on division 5 of the Cooper tract. Its location is north of the Fertig & Hense light well, and directly south, about 200 rods from the Shannon No. 5. It may be a dry hole or a small producer, but a large well would not be looked for from its location.

W. C. COBURN, M. D. Tionesta, Pa. Mar. 14, 1883. 3t —A. D. Spalding & Sons, Wellsboro, Pa., says: "We do not hesitate to recommend Brown's Iron Bottles to our customers."

SPECIAL ANNOUNCEMENT.

We take pleasure in announcing that we have perfected arrangements with the publishers of the American Farmer that enable us to club that magazine with the FOREST REPUBLICAN at the low price of \$1.75 per year, a trifle over the price of the REPUBLICAN alone. This is beyond question the first time that a reliable agricultural paper has been offered at so cheap a price, and we trust all our subscribers will avail themselves of this unusual opportunity of securing a first class agricultural magazine. The American Farmer is beyond doubt worth three times the price, at which we place it. Try it. It is a monthly publication.

Walnut Leaf Hair Restorer.

It is entirely different from all others. It is as clear as water, and, as its name indicates, is a perfect Vegetable Hair Restorer. It will immediately free the head from all dandruff, restore gray hair to its natural color, and produce a new growth where it has fallen off. It does not in any manner affect the health, which Sulphur, Sugar of Lead, and Nitrate of Silver preparations have done. It will change light or faded hair in a few days to a beautiful glossy brown. Ask your druggist for it. Each bottle is warranted. SMITH, KLINE & CO., Wholesale Agents, Philadelphia, and HALL & RUCKEL New York. July 14-82.
