OIL NOTES.

Balltown seems to be attracting the bulk of attention now-a-days among oil men. The Welsh well was opened Monday, and although not as large as expected is still a fair sized producer, it having opened up at the rate of 1000 berrels a day. This well is principally owned by James Welsh whom we are pleased to state, will reap a nice fortune from his interests-

The Grandin & Kelly No. 6 was expecting to reach the sand vesterday and will be shortly followed by the Murphy, on 3,133. Grandin No. 6 is eighty rods east and a little north of the Grandin No. 3, and is south-west of the Welsh about forty rods. Both of these wells are expected to be gushers of the regulation size, especially the Grandin & Kelly. P. S .- Grandin No. 6 is in, and reported to be good for 1500 barrels a day.

COOPER TRACT

Yesterday's Derrick furnished the following news from the Cooper district :

"Anchor Oil Company's No. 9 struck the third sand yesterday. It made tour flows between 2 o'clock in the morning and 7 a. m. The location of this well is directly south of Clark & Foster's third sand producer on tract 2,736. They are still fishing at the same company's No. 13. Their No. 4 is doing 100 barrels. It has not yet place it. Try it. It is a monthly been tubed, and they are engaged in publication. cleaning out .- Shannon No. 9, on division 8 of the Cooper tract, struck a large gas vein in the second sand last week. This well is located be tween the Anchor's No. 14 and the Shauson No. 3 dry hole on the same division, neither of which got the gas. It is only another proof of the very spotted condition of this territory. The formation in the Cooper tract district is so broken that the record of one well is no guide to the driller on the next well, no matter how near the two may be .- L. A. Brenneman & Co.'s No. 2 was flowing at the rate of 150 barrels yesterday. L. A. Breuneman & Co.'s No. 3 will strike the sand to morrow. It is located between Nos. 1 and 2. Their No. 5 is expected in Friday. No. 5 is spudding; a rig is up for No. 6, and a rig building for No. 7. The last three wells are located west of their No. 1."

The Tionesta Oil Co's No. 2 Beaver Valley, commenced operations last Wednesday. This venture is located on tract 5218 near Mr. Braces mill. Of course the company expects to strike it this time, and it is hoped it

The well on the Walters farm is Flour & barrel choice down between 1400 and 1500 feet, Flour p sack, with still a strong vein of gas. It will doubtless be ready to bring in by the latter part of this or the first of next week.

The Wolcott well near Nebraska, is being drilled into the sand this week. This well has lain idle so long that it had almost dropped out of notice. What its prospects are for a producer cannot be told at this writing, but the general impression is that it will not bust the market much.

The rig-stuff for the Tubbs Run well is all on the ground, and the machinery will be there also when the rig is ready. A 250-barrel tank has been set, evidincing that the owners expect to make a strike. This well will be put down with all possible haste, and as soon as this one is fairly under way another rig will be put up on the same tract. The parties mean to give it a fair test.

Walnut Leaf Hair Restorer.

It is entirely different from all others. It is as clear as water, and, as its name indicates, is a perfect Vegetable Hair Restorer. It will immediately free the head from all dandruff, restore gray bair to its natural color, and produce a new growth where it has fallen off. It does not in any manner affect the health, which Sulpher, Sugar of Lead, and Nitrate of Silver preparations have done. It will change light or faded hair in a few days to a beautiful glossy brown. Ask your druggist for it. Each bottle is warranted. SMITH, KLINE & CO., Wholesale Agents, Philadelphia, and HALL & RUCKEL New York july 14-82.

#### SPECIAL ANNOUNCEMENT.

We take pleasure in announcing that we have perfected arrangements with the publishers of the American Farmer that enable us to club that magazine with the Forest, REPUBLI-CAN at the low price of \$1.75 per year, a trifle over the price of the REFURLI-CAN alone. This is beyond question the first time that a reliable agricultural paper has been offered at so cheap a price, and we trust all our subscribers will avail themselves of this unusual opportunity of securing a first class agricultural magazine. The American Farmer is beyond doubt worth three times the price, at which we
