INDUSTRIOUS REFORMERS.

The present Legislature of Pennsylvania deserves great credit for iadustry and good intentions. Of course we speak of the Legislature generally, and not of the obstructionists, who seem disposed to put in there alloted time, draw their money and go home without affecting any good purpose. For the more important purposes or reform the democrats and independents co-operate in supporting the administration of Gov. Pattison, who has proved worthy the confidence reposed in him by the people. If anything that ought to be done remains undone, or if anything that ought not to be done is accomplished, the blame thereof will be attributable to the unfair tricks of the Stalwarts who are under the influence of Tom Conper and the intrigues of those who were so much disappointed and chagrined at the defeat of General Beaver last Nevember.

The above editorial from the Craw-

ford Democrat reads like a tale from dall means a Democratic do-nothing the Arabian Nights or a fragment of committee. In either case the results testimony in the Star Route trial to will be the same, as both are a standanyone familiar with the course of ing menace of the industrial interests events since the Legislature met at of the whole country. The experience Harrisburg three months ago. If in and ability of Mr. Randall would be dustry consists in doing three days invaluable in managing the large work for seven days' pay, then is the Democratic majority in the House, Legislature of Pennsylvania most industrious, and deserves credit, but if it consists in doing the work for which it draws pay in a thorough and expeditious manner, the present Legislature has none of it. What has this industrious Legislature to show for its three months labor? Absolutely nothing. The people of Pennsylvania are not to to be deceived by wind and thunder. They want work and will only give credit for it when it is done. The editor of the Democrat may give the reformers at Harrisburg credit for as much of that material with which the road to that place where bad democrats deserve to be relegated is said to be paved, as he sees fit, but for the sake of decency he ought to omit the "industry." Will the editor of the Democrat please mention the important legislation that has originated in the democratic brauch of the legislature? The perfect accord between the Governor and majority in the House has been illustrated on more than one occasion. The Governor has shown his appreciation of the statesmanship of the reformers at Harrisburg by vetoing about one half the bills passed by them. The republican minority in the House are not following the tactics of the democrats in Congress, nor can the Democrat point out a single instance since the Legislature met where they have acted in the character of obstructionists. The democratic reformers went to Harrisburg firm in the belief that republicans would oppose every reform measure proposed by them; that they could kill any legislation objectionable to them and lay the blame on the republicans. The democrats soon found to their disgust that the republicans were ready and willing to support any and every true reform measure proposed. In this dilemma the democratic majority in the House conceived the brilliant idea of doing nothing and blaming it on rapublican obstruction; but it will not avail them. Every important bill in the interest of reform has originated in the republican Senate where democratic opposition is powerless; every reform measure that has been killed has been smothered in the democratic house. The Democrat may entertain the fond hope that "if anything that ought to be done remains andone, or if anything that ought not to be done is accomplished," the blame will be attributed to the republicans, but the people of Pennsylvania are

-The Ladies' Floral Cabinet (New York) for April has, for its opening articles a poem entitled "In April," which is one of Eben Bexford's best efforts, its very rythm being suggestive "of song and sunshine, and all sweet things that summer brings," and very fittingly introduces the good things that are offered in the pages that follow. C. E. Parnell contributes a very useful article upon "Lawns," that much neglected portion of our home surroundings, giving directions to start a good lawn, and how to care for one when procured. As before stated, any of our readers may have a copy of the Cabinet for examination at half price (six cents), by mentioning this paper. Address, Ladies' Floral Cabinet, 22 Vesey to care for one when procured. As Ladies' Floral Cabinet, 22 Vesey county Pennsylvania, and the territory Street, New York.

SPECIAL ANNOUNCEMENT.

We take pleasure in announcing that we have perfected arrangements with the publishers of the American Farmer that enable us to club that magazine with the FOREST REPUBLI-CAN at the low price of \$1.75 per year, Ex Speaker Randall is actively a trifle over the price of the Refuellat work on his campaign for the Speak- CAN alone. One morning while he (her husdand) was holding her up in order that she could breathe more easily, after having strug-gled with a had spell of coughing, he made the remark that he did not believe shr would ever get well, when she, in he weakness, said: "Yes, I will, if you will bring Dr. Hartman." The doctor was brought. He prescribed a teaspoonful of Peruna every hour. She began to improve from the first dose she took. She told me from the first dose she took. She told me to-day she has never felt letter in her life than she does now, and that she cannot say to much for Peruna. A. J. Miller.
