Republican State Convention.

The Republican State Convention will be held in the hall of the House of Representatives on the second Wednesday (11th) of July, 1883, at 12 o'clock noon, for the purpose of nominating candidates for Auditor General and State Treasurer and the transaction of other business. The attention of Republicans throughout the State is respectfully directed to the following permanent rules established for the holding of State Conventions and the conduct of the party: First, that delegates to State Conventions shall be chosen in the manner in which candidates for the General Assembly are nominated, except in Senatorial districts composed of more than one county, in which conferees for the selection of Senatorial delegates shall be chosen in the manner aforesaid; second, hereafter the State Convention of the Republican party shall be held on the second Wednesday of July, except in the year of the Presidential election, when it shall be held not more than thirty days previous to the day fixed for the National Convention, and at least sixty days' notice shall be given of the date of the State Convention; third, that we recommend to the organizations that in their rules they allow the largest freedom in the general participation in the primaries consistent with the preservation of the party organization. By order of the Republican State Committee.

THOMAS V. COOPER, Chairman. Harrisburg, May 3, 1883.

The bills requiring two years practice at the bar for eligibility to the office of District Attorney and authorizing agricultural and horticultural societies to appoint special police for the protection of their property have been signed by the Governor.

The fact that the next House of Representatives will have on its roll an unusually large number of young men having attracted attention, a bookworm has unearthed a relevant fact that John Randolph of Roanoke, was the youngest man ever elected to Congress. He was but twenty-two and beardless. When he presented himself, the austere Speaker eyed him for a moment, and then demanded to know whether the gentleman from Virginia was of age. "Ask my constituents, sir, who sent me here," replied the young Randolph, to the astonishment of the Speaker, and the House. The signs of the present times point to younger men in the councils of the Nation.

The Republican forces are fast harmonizing their differences throughout this State, and there is virtually now no such thing as an Independent or a Stalwart. The Mercer Republican last year one of the leading Independent journals of the State, has this item in its last issue;

The two wings of the Republican party met in committee meeting in Butler, on the 12th inst. In the interest of harmony the chairman of each resigned his position, when the party united and elected a new chairman for the remainder of the term. Harmony prevailed and Saturday, June 24, at 2 o'clock p. m., was fixed as the time of holding the primary elections. A like closing of the breach has been effected in Huntingdon county.

In compliance with Rule First adopted by the Republican State Convention at its meeting last year, and which we have published for the past three weeks in the call for a State Convention in July next, it will be necessary to choose delegates to the convention in the same manner as candidates for the General Assembly are nominated, that is, by ballot of the Republican vote. This being the case, it will be necessary for candidates to announce their names, if they would comply strictly with these rules, and be balloted for at the primary election, fixed for the last Saturday in June. Forest county should be represented in the approaching Republican State convention by a good man; who will consider well the wishes of the Republicans, and the party ought to be looking up such an one. Who wants to go?

SENATOR CAMERON, accompanied by his family, sailed for Europe on the 19th inst., on the steamer Celtic.

WALTER EVANS, of Kentucky, is the new Commissioner of Internal Revenue to succeed Green B. Raum, resigned. Mr. Evans is a lawyer by profession, and during the war served as a Union Soldier. He is about forty-five years of age.

The incoming tide of immigration does not stop for one moment. Fourteen hundred and seventy-four immigrants landed at Baltimore, Saturday, and eight thousand Germans are en route from Hull, England. The vast army of those leaving homes in Europe for the land of the setting sun can hardly be satisfactorily computed, but we of the East are hardly aware of the mass of people who are pouring on to the prairies of the West. Their names is legion, and beneath their tread the wilderness is blossoming as the rose, and the waste places being occupied. The day is not far distant when Uncle Sam's broad acres will be narrowed to but small and insignificant patches of land, and "Going West" be like traveling to any part of the Union, as regards settlement and population.—Derricks

The Oil Tax Bill.

The attempt to tax oil is in keeping with many other unjust and reckless schemes which have characterized this Reform Legislature. Years ago this oil tax was thoroughly ventilated, and its unfairness toward the industries of three or four small counties of the State resulted in its being rejected by several legislatures. Our reformers, however, who have depleted the revenues of the State to the extent of some two and a half millions, find themselves without resources and the State Treasury threatened with a deficiency. Hence the revival of this old and very objectionable and unjust scheme. The quiet and effective work of the oil country members and their friends in other parts of the State, which has resulted in the defeat of the bill in the House, will be highly appreciated by their constituents. The zeal which the reformers have manifested by their persistent fight for the tax day after day, and the great necessity for the revenue which the reformers created, made the contest against the bill a very unequal one. It may be useless now to allude to any features of the bill since it is dead, but as an illustration of the inconsiderate haste and incompetency which characterizes the work of reformers it may be stated that the bill was so full of holes as to be utterly worthless, except in its injurious effects upon the oil producer. It failed to provide which company should pay the tax, where one or more companies handled the same oil, and it made no provision for taxing limited partnership companies engaged in transporting oil. If it had become a law, any pipe line company could have surrendered its charter, formed a limited co-partnership, and have been exempt from the tax, without any interruption to the flow of oil through its pipe.—Harrisburg Telegraph.

A Miracle in Oil City.

Doctors dumfounded—druggists and the people wild with excitement. From the Oil City Derrick, July 21st, 1881: Miss Maggie Martin, of this city, has been ill and confined to the house for several years. Our best physicians failed to give her relief. She took Peruna and, to the astonishment of all who knew her, she is now up and about again. Mr. Simmons, the druggist, sold 184 bottles last week. He buys in gross lots. Mr. Cavell, too, sells it. Ask your druggist for Dr. Hartman's book—"Ills of Life", gratis or address Dr. H., at Osborn, O., for one.

PE-RU-NA

Is a new remedy, originally compounded and introduced to the public at large, by S. B. Hartman, M. D. He has prescribed it to over 80,000 patients with the most gratifying results. It acts upon the system in such a way that it cleanses the blood, and is the only medicine needed in almost every disease to which flesh is heir. In Consumption, Diseases of the Liver and Kidneys, Rheumatism, each one, according to medical authorities, is a great remedy in itself. Dr. Hartman has succeeded in extracting and combining the active principles of these ingredients into one simple compound, which perfectly coincides with the Via Medica NATURE in every disease, and a cure necessarily follows. There is not an organ it will not reach nor a disease it will not cure. Ask your Druggist for it. It is sold in the "Bills of Life," Dr. S. B. Hartman & Co., Osborn, O., proprietors. Influence of the Soil on Health. The influence of the soil upon health, of those living upon it, is brought out very plainly during the prevalence of epidemic diseases. That malarial diseases originate from the soil, is already accepted; and recent investigations show pretty conclusively that the germs of cholera, Abdominal Typhus, Yellow Fever, and the plague are in some way connected with the soil, which is daily corroborated by letters from all parts of the country, stating the marvelous effect Peruna has on those diseases, and in their convalescent state, John E. Courtney, of Corry, Pa., says: "I am getting better, thank you very much for Peruna and Manalin." See page 24 in "Bills of Life."

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and insist on having it. Don't be imposed on with something recommended as "just as good." The genuine is made only by the Brown Chemical Co. Baltimore, Md.
