Heibel's little boy in some manner got in front of the horses and fell down between the team, and before Zach. noticed him he had driven the entire length of the wagon, but very luckily the little fellow escaped unhurt. It was an exceedingly narrow escape from death, and caused all who saw it to shudder with fright.

Yes, go West, young man, and blow up with the country."

—A new plan for the safety of registered letters has been submitted to Postmaster General Gresham for adoption. It is a metallic substitute for the gummed flap, and is a rivet made of a compound of hard metals which is flattened by compression after the envelope is filled and cannot be removed except by the mutilation of the envelope. It is said to be simple and effective. This new device enables the theft to be detected by the first hands the package reaches after being broken open and fixes the guilt at once.

—Brother Carlisle of the Clarion Jacksonian, who never misses the mark to any great extent, mutters thusly: "The difference.—Some of these fine days Co. D. will take a free junketing trip, at the expense of the State, to Conneaut Lake, and then it will be found that the organization numbers about seventy men. The casual observer would never have dreamed of this while looking at the beggarly array of a dozen muskets in the Fourth of July parade. But then nothing was at stake but the credit of the town on Independence Day and it 'wasnt of the slightest consequence' as the immortal Toots would say."

Oil Notes.

There is nothing startling from the Forest county oil field this week. It is stated that Balltown Oil Co.'s No. 4, tract 4792 was opened Sunday afternoon, and began flowing at five o'clock. The first twelve hours it made ninety barrels. In the next two hours it put ten barrels in the tank. Drilling continued and the well declined to four barrels an hour. At three o'clock Monday afternoon they were twelve feet in the sand.

A gauge taken of the Balltown field Friday last showed the production to be 2,285 barrels per day.

Anchor No. 7 is down and showing for a 150 barrel well.

The Tubbs Run well is still drilling and the indications are that it will be finished the latter part of this or the first of next week. We are unable to learn its depth.

The rig and tools used to drill the well on the David Walters farm near Newmanville last spring, were hauled through town yesterday and the well abandoned. There is still considerable gas escaping from the hole.

Kellettville Krumbs.

The 4th of July passed by with us as it usually does in small towns like ours; the anvil was fired at intervals from the evening of the 3rd until late in the night of the 4th and from the appearance of some of the men something stronger than water was drunk. Although there are no saloons in this place and liquor is not sold in any form it finds its way in here occasionally, and the nights are made hideous from the yells and vulgar language of those under the influence of it, but we are happy to say that the number that so degrade themselves is quite small.

Since our last letter to your paper quite a number of visitors have been noticed in our town.

Miss Anna Jackson, of Tionesta, was the guest of Mrs. C. M. Whiteman for a few days.

J. B. Hagarty and family spent the week of the fourth with their parents Mr. and Mrs. L. Arner.

W. W. Kellett paid a flying visit to Kellettville looking after his interest here.

Mr. and Mrs. H. W. Ledebur were the guests of L. Arner and family over Sunday.

The school house is about finished, and we hope by next writing to be able to report a school in progress.

The Presbyterian services in this place have been very interesting to those that have attended, and we are sorry to learn that Rev. Hays will not be with us but one Sabbath more.

All that attended the Picnic on Whig Hill the 4th have pronounced it a very pleasant affair.

Rev. Hays will preach his farewell sermon in this place July 22, at half past three o'clock p. m.

Miss May Sloan, teacher of the Minister school, was visiting friends in Kellettville Friday and Saturday of the present week.

The Salmon creek mills have resumed business after a few weeks rest and expect to run very steady the remainder of the summer.

SPECIAL ANNOUNCEMENT.

We take pleasure in announcing that we have perfected arrangements with the publishers of the American Farmer that enable us to club that magazine with the FOREST REPUBLICAN at the low price of \$1.75 per year, a trifle over the price of the REPUBLICAN alone. This is beyond question the first time that a reliable agricultural paper has been offered at so cheap a price, and we trust all our subscribers will avail themselves of this unusual opportunity of securing a first class agricultural magazine. The American Farmer is beyond doubt worth three times the price, at which we place it. Try it. It is a monthly publication.
