—Warren lost one of her most prominent citizens last week in the death of Capt. Robert Dennis, which occurred on the 15th.

—Work was commenced yesterday on the abutments of the new bridge at Hickory, and will be prosecuted with all possible haste.

—Mr. George Kerr, of Tylersburg, who will wield the birch in the upper room of our borough schools, was on our streets to-day.

—Misses Blanch and May McIntire of Philadelphia, and Miss Jessie Henderson of Pleasantville, are the guests of Miss Maud Davis this week.

—Miles W. Tate Esq., is away on a ten days' trip combining business with pleasure, and will doubtless visit his old home in Clearfield county before returning.

—Some of our citizens stepped up to the captain's desk yesterday morning and redeemed their cows which had been kindly cared for during the night by the Poundmaster.

—Blackberries are abundant and are selling at eight cents per quart. It is likely many of our citizens will make their usual trip to the berry woods before the season is over.

—Harvey Foreman took a tumble to himself on Friday last, falling from the scaffold of his building a distance of about 15 feet, but fortunately escaping with but two or three slight bruises.

—This is the month for registration. Look at the registry lists at the polling places and see that your name is registered there. To secure a vote the elector must be registered before September 1st.

—Baldwin's official Railway Guide is issued for August and will prove a boon to the summer tourist. This excellent Guide has grown so steadily in public favor that it has become an actual necessity to the traveler.

—Since the high constable has "got his hand in" we hope he will rigidly enforce the cow ordinance, and let no guilty man escape. If the law is a good one it is good for all, and if a bad one let it be bad for all. The h. c. aforesaid informs us that all offenders will be served alike.

—The ice cream festival last evening by the W. C. T. U. was a well patronized and very nicely conducted affair. The cream and accompaniments were delicious and all that could be wished, and no doubt the Union's exchequer was quite handsomely replenished.

—Mrs. W. R. Dunn, of Crookston, Minn., arrived in town Monday, and will remain with Tionesta friends for six weeks or two months. She is accompanied by her little daughter Louise. We understand Mr. Dunn expects to make his old friends here a visit during his wife's stay, and we hope he will.

—One week from next Saturday, Sept. 1st, it will be lawful to kill squirrels, and already we hear some of the boys talking of opening the season with a grand match hunt. As yet we have heard of but few squirrels being seen, but that never deters a Tionesta crowd from hunting, just as hard, and a good deal harder, in fact. If the boys want to hunt they ought to do it, and the scarcer the game the more skill is shown in bringing a good bag.

—Capt. Stow Post will meet to-morrow evening to take steps looking to the arrangements for the reception and care of the veterans of the 83d regiment at the reunion here on the 18th of next month, and it is hoped that a full attendance of the comrades of the Post will be had. The time is growing short—only three weeks from next Tuesday—and by the time the committees are named and all get to work there will be none to lose, and it will require active work to have everything in readiness. Let our citizens both of this place and the surroundings, turn in and assist to make the affair a success and give the boys a royal welcome, such an one as they will remember in years to come and that shall be a credit to our county and show the hospitality of her citizens. We must not let the reputation of our community suffer on this occasion.

—Fairs will be held at the following places and dates:

—The government land sale took place at the Court House in this place Wednesday forenoon and was quite largely attended. As will be seen by the following the lands commanded fair prices, I. N. Patterson of Franklin Pa., being the purchaser of all except the Island, which was sold in a lump to Eli Holeman of this place for \$520.00. The Elder farm 100 acres, went for \$4 per acre; Eli Pierson farm, 100 acres, at \$9.75 per acre; Wm. Pierson farm, 100 acres at \$9.25 per acre; Eli Holeman farm, 91 acres, at \$9.25 per acre; Holeman farm, 401 acres, at \$8.25 per acre.

—As the time of year is here when the Canadian thistle will begin to ripen its seed, a little attention to the law on that subject will not be out of place. The law says that any person or corporation owning or leasing lands upon which the Canada thistle grows, and neglects or refuses to destroy the same is liable to a fine of fifteen dollars, one-half to the county and one-half to the informant or if after five days notice to destroy them so as to prevent the spread of the seed, another man can enter upon the land and destroy them and recover pay at the rate of two dollars per day for the work.

—The time is not far away when our county will feel the need of holding an annual fair; indeed, we think it would not be out of place to begin agitating the subject now, as we have no doubt our county could show up some farm products equal to any of our neighboring counties. In this connection it might be well to read what the Franklin Independent Press has to say on the subject: More than in any preceding season the more enlightened papers and agricultural authorities are commending the value and usefulness of the county fair. The new ideas gathered at the annual exhibitions are good seeds that often fall on rich ground, and spring up to the honor of all who have aided in making the fair a success. The American Agriculturist asserts that the foundations of social and esthetic improvements, which are manifest in the various departments of the town or county fair. It is to be hoped that no opportunity will be lost to profit by a day of sight-seeing, social intercourse, and study of the various new and improved implements, fruits, farm animals, etc., that should be found on the grounds of every well-conducted agricultural fair.

—Peterson's magazine for September has made its appearance. The principal steel engraving is one of the handsomest that has appeared in this magazine for many months; the colored fashion plate is always gay, while the many different patterns are among its grandest features. This number contains a tidy pattern on Java Canvas which is well worth the price of the book. Send to Chas. J. Peterson, 306 Chestnut St. Philadelphia for sample copy.

—BALLOU'S MAGAZINE for September contains a long installment of the popular story of the day, "The Belle of Australia," by William H. Thomas. There is much in Ballou that should command attention, as it has some excellent stories besides "The Belle," and there is no magazine in the country that has such a variety of matter. Published by Thomas & Talbot, 23 Hawley Street, Boston, at \$1.50 per annum.

OIL NOTES.

Porcupine Oil Co.'s No. 9, of which we gave a report last week, was opened Thursday and the first twenty-four hours it made between 2,000 and 2,400 barrels. It has declined considerably since, but is still good for 1,200 barrels.

The next wells due at the front are Grandin No. 11 on 5,236, and Balltown No. 10. Grandin eleven is located on a line between Nos. 3 and 10, and there is no reason why it shouldn't be a large producer. Balltown No. 11 is on 4,821.

Grove & Co. have another wildcat about completed on tract 5210, Beaver Valley. It is located on the northwest corner of the tract, which lies about four miles nearly due west from Balltown. They are making a mystery of this well.

The last gauge of the Cooper tract was 3,218 barrels, and of Balltown 4,327 barrels, this being on Saturday.

This morning's Derrick says: Two wells in the Balltown district may be expected in the sand to-morrow, or possibly next day, viz, Grandin & Kelly's No. 11, warrant 5,236, and the Balltown Oil Company's No. 10, on warrant 4,822. The former is located sixty rods southwest of Grandin No. 3, between the latter and Grandin No. 10. It is favorably located, but may show drainage. From the location it should make a record of from 400 and 600 barrels for the first twenty-four hours gauge. No. 3 is making now about 250 barrels and has been shot once.

Balltown No. 10, on 4,821, is about sixty rods north of No. 7. It is on a 63° line between Grandin No. 3 and the old Porcupine well, No. 1.

A cluster of wells, viz, Balltown wells Nos. 3 and 6, Porcupine Nos. 1, 3, 6, 8 and 9 have declined over forty per cent, since Saturday night. Their aggregate production for that day was 2,337 barrels; for the twenty-four hours ending last (Monday) night the production of the same wells was 1355 barrels, a decline of 997 barrels since Saturday. Syndicate well No. 2 was shot to-day with good results. The Anchor Oil Company's No. 2 was also torpedoed to-day. The Anchor Oil Company's No. 27 struck second sand to-day. There is 200 or 360 feet of oil in the hole this afternoon, and it is showing for a fair second sand producer. They are moving the boiler this afternoon.

Wellin, Walker, Shannon & Company's No. 20, is on top of the sand to-day. They are moving the boiler. No. 20 is west of the old Shultz well. The same company are five bits in the sand, and showing for a forty barrel well after a shot. It is 700 feet north of the company's No. 10.

The Syndicate drilling well, No. 6, is expected in the sand Thursday of this week. It is 700 feet north of Syndicate No. 4. The latter was torpedoed Friday and started at the rate of forty barrels per hour. It is now doing 120 barrels per diem. No. 2 was torpedoed the same day and is now making 150 barrels per diem, or thereabouts.

The McCalmont Oil Company's No. 10 is in the southeast corner of lot 10, Henry lands, drilled through the second sand, and the latter is minus the expected crude. It will probably make a third sand producer of uncertain calibre. The company's No. 7 on the Reid & Brennan lease is due to-morrow. Probabilities—a dry hole.

A Dangerous Counterfeit. There are dangerous counterfeits in circulation purporting to be "Walnut Leaf Hair Restorer." The strongest evidence of its great value is the fact that parties knowing its great efficiency try to imitate it. Each bottle of the genuine has a fac simile of a walnut leaf—blown in the glass; and a Green Leaf on the outside wrapper. The "Restorer" is as harmless as water, while it possesses all the properties necessary to restore life, vigor, growth and color to the hair. Purchase only from responsible parties. Ask your druggist for it. Each bottle warranted. JOHNSTON, HOLLOWAY & Co., Philadelphia, and HALL & RUCKEL, New York, wholesale agents.

SPECIAL ANNOUNCEMENT. We take pleasure in announcing that we have perfected arrangements with the publishers of the American Farmer that enable us to club that magazine with the FOREST REPUBLICAN at the low price of \$1.75 per year, a trifle over the price of the REPUBLICAN alone. This is beyond question the first time that a reliable agricultural paper has been offered at so cheap a price, and we trust all our subscribers will avail themselves of this unusual opportunity of securing a first class agricultural magazine. The American Farmer is beyond doubt worth three times the price, at which we place it. Try it. It is a monthly publication.
