THE whole truth of the matter is contained in these few words from the New York Tribune: "Alter all the professed jackals and anonymous jackasses have finished disputing as to Garfield's character and purposes it is not unlikely that decent people will Post of the true application to the object conclude that it is only another version of the dead lion and his assailants.

THE reporters who are always noting odd things, report that Methodist ministers are arriving at Chautauqua by every boat, but that few of them are accompanied by their wives or any lady members of their families. Various inferences are rawn from this. One is, that the ministers prefer to travel for pleasure; another, that their wives know the absentees can be trusted alone; another that the wives prefer to take their summer vacation in this way. The most correct inference is probably the fact that the demands of Chautauqua oversize the wallets of a class of men who are, as a rule, irregularly and scantily paid .- Franklin Press.

THE Pittsburg Dispatch publishes an interview with Chairman McKee, of the Independent State Committee, in which the "boss" of that 'party makes some statements of the intentions of his political associates for the future, breathing defiance of the "old machine," but closing with an assurance of confidence in the purity of the Republican nominees this year, and the belief that the great body of the Independents will give them their votes. This is mainly of interest be-cause the Democratic organs persist in claiming that the Independents are Goodman. votes. This is mainly of interest be-

As the 14th Annual Re-union of the 83d a, Vols, will be held at Tionesta, the excutive committee of that organization, aving requested Captain George Stowe Post, No. 274, G. A. Barnum is overjoyed with his ecquisition -the baby elephat—and declares that \$300,-000 could not buy it. He offers \$2,000 for an insurance of the life of the infant for 52 weeks. JAMES NUTT is to be tried for the murder of Dukes a week from to-morrow. The prosecution is to be conducted by District Attorney Johnson, assisted by the Messrs. Boyle and the defense by W. H. Playford and A. D. Boyd. The case is set down for trial at Uniontown, but it is probable a change of venue will be asked for, as the farce of the Dukes trial is still fresh in the memories of the public, and there is good reason to doubt whether the boy can have a fair show which acquitted his father's murderer and his sister's destroyer. While there is no doubt that James Natt did the deed there are extenuating circumstances, in the minds of many peotence.

THE Philadelphia Record, a dimocratic sheet with independent tendencies, and that has had ample opportunity of knowing the make up of that party, is not pleased with the platform adopted at the recent Harrisburg conelave, giving utterance to its convictions in the following forcible terms: "Not a journal nor an orator among the valient defenders of Democracy in Pennsylvania raises a voice of rebuke or remonstrance against the dodging platform which was reared by the State Convention for the party to stand on. Yet this platform is at distinct variance with the creed of the party as enunciated at the last three National Conventions, and as illustrated in the history of the Democratic Federal administration. The truth is the leaders of the Democratic party in Pennsylvania are brevet-Republicans. They are political sunuchs who bave lost the vitality and force that make them capable of doing either much good or bad in the world."
