The hunting season is every day becoming more attractive and it is well to observe common caution in handling guns as in other matters. Don't pull a gun toward you by the muzzle ; don't get into the wagon with your gun loaded; don't carry your gun at full cock unless you are flushing a covey of chickens; don't point your gun at anybody, whether it is loaded or not; in short, don't be a fool."

Next Tuesday will be a gala day in Tionesta. All arrangements for a grand, good time are being fast perfected and by Monday evening everything will be in readiness to receive the largest crowd of veteran soldiers and visitors that ever honored the town with their presence. From all parts come reports of large delegations that expect to be here on that day, and there is every reason to believe our town will be crowded as it never was before, but the citizeus will spare ap pains to entertain and take care of their guests is royal style. The grounds have been tastefully fixed up, tables built, speaker's stand erected aud seats in abundance provided. We can see no reason why the reunion should not be a complete success, will show their patriotism by a liberal come to Tionesta on next Tuesday. Excursion tickets over "the B., N. Y. P. R. R. will be sold from Bradfor Tionests. Returning, will leave Tionesta at 5 in the evening.

# OIL NOTES.

There is nothing of importance in oil matters to chronicle this week, no well having been struck worth mentioning since our last report.

Balltown No. 11 was expected in this week, but owing to some trouble with the casing work on it has been delayed.

Grandin No. 13, on 5236, was expected in vesterday. It is located between Nos.6 and 8, and will doubtless be a good well.

The production of the Cooper tract last Friday was 3,118 barrels from 111 well.

According to the Derrick the production at Bailtown on the same day was 3,290 barrels from 39 wells. Competent witnesses put the production at nearer 5,000 barrels.

The Beaver Valley well is down county. There is an immense body of over 1800 feet and still drilling. How deep they intend going we have not learned.

### Jenks Township

The Gilfoyle Mills are doing a rattling business, and are over crowded with orders. An order of 200,000 feet now awaits the attention of the proprietor but will not be allowed to lay in waiting very long. Mr. Delo is the general superitendent of the mills.

Mr. David Long, the store keeper, is a general favorite in the community, and always gives customers good satisfaction.

Col. Hunt's new dwelling at Marenville which, by the way will be a very fine one, will be completed and ready for occupation before cold weather sets in. 1500

Mr. A. M. Doutt, of your place expects to commence painting Mr. Ward's new house in a few days.

The building of an extension to Frank Reck's mill goes bravely on and when completed will add greatly to its already large capacity.

Gilfoyle is now a freight, express and telegraph station, and all trains stop there now. Miss Mary M. Mc-Fillen is telegraph operator as well as express agent.

The school house at Frost's mill is finished and is a very neat and commodious building,

The Gilfoyle school house is a nice one in every particular, and reflectscredit upon the directors of our township.

The roads in the 2d and 3d districts are in first-class order now.

Dr. Towler is kept on the jump by his medical practice, and what time he has to spare is devoted principally to the interests of our schools.

The extension to the hub factory is about completed. Their orders are now much ahead of their ability to fill.

-The Tidioute News of last Friday says : "Tidioate Post last night accepted the invitation of Tionesta Pest to attend the reunion of the 83d Regt., to be held in Tionesta the 18th inst."

-The pound master still gets little to do in his line these frosty nights, and when people can't find their cows in the evening they generally make a straight shot for the pound next morning.

-Forest county has a new post office. It is situated near Russell's Mill, at what is known as Red Brush. The new office is called Guitonville, in honor of Forest's noted hunter, Uncle Robert Guiton. Charles Murphy is postmaster.

-From what we can learn from those who have tramped over the county there has not been the industry in the bark woods that there has been for several years past. This was mainly on account of the wet season, and much of the bark peeled in the fore part of the season is con

siderably damaged by the rain.

-The P , B. & B. R. R. division of the Pittsburgh & Western Railway has opened their road to Kane, McKean county, and are running two fast express trains each way a day cutting only hardwood, such as cherry, The trains are scheduled about 30 miles per hour. The T. V. R. R. makes close connections each way with the above trains and has several trains

scheduled at 31 miles per hour.

-The gentlemen who have given such satisfactory dances on formor occasions, have arranged for a grand ball at the Lawrence House on the

afternoon and evening of the 18th, to which they extend a general invitation. They have arranged for a band of music that will be better than any they have ever had before, and those who wish a good time should not fail to attend. The fare as on former occasions

will be very reasonable. -The boiler for the saw mill to be erected on Tubbs Run has arrived. It is quite a large one, weighing upward of four and a half tons, and S. S. Canfield, the boss of this section on moving heavy machinery, has the contract of hauling it to its place. Mr. Canfield will also commence the hauling of a lot more machinery to Balltown in a few days. He can't be beat on this kind of teaming, and has a

reputation for it that extends back to the palmy days of Oil Creek. No use sending away to get such work done, the congratulations of a large gatheras that machinery never struck the place that he cannot move easily and been declining in health, yet was with perfect safety. "Shell" takes the cake.

will manufacture the lumber off about 300 acres, and if the railroad be constructed to that part of the county there will be a still further developmeat of that section and our resources.

-Our enterprising wagon and carriage maker Chas. Raisig, has recently turned out three new wagons which are beauties. Two of them are sold already but are still to bo seen at his factory, and the third is liable to go at any time. Charlie is daily increasing his capacity for doing good work on short notice, and is bound not to be outdone by any manufacturer in the country. His large factory is now over-run with work, yet he never allows a customer to wait a minute over time. He is also pleased to have his work inspected, and extends an invitation to all to drop in and look over his shop.

.-Thomas Howarth, one of the pioneer settlers of this section of country, died suddenly of heart disease on Friday last. He had left his "home at Howarth's Corners in the morning to visit a daughter Mrs. Shattuck. at Titusville. In the afternoon he started for home and had driven but a short distance, when he dropped dead in his cerriage. Mr. Howarth of the day, was 74 years of age and was well known to the older class of our citizens, among all of whom he always bore an honorable reputation, being ever highly esteemed by his neighbors and acquaintances. He came to America with his parents upward of 60 years ago, who settled on the farm occupied by him at the time of his death.
