—Dr. Morrow lost his rubber coat or left it some place on October 2d. Any person knowing its whereabouts will confer a favor by returning the same or informing him where it is.

—Phil. Emert has not recovered that genuine buck skin glove with the wool on the back yet, and still holds out the offer to give 50 cents for its return or take 50 cents for the one he has. Nothing could be fairer than this.

—1883 Prunes, Cramberries, Mince Meat, &c., at Wm. Smearbaugh & Co.

—Frank Walker has rented the Einstein store building of Judge Proper, and will put in three good billiard tables right away. The room is quite well adapted for a billiard hall, and if well attended to, and Frank knows how to do that, it ought to be a paying investment.

—Tuesday evening of last week, as will be seen by notice in its proper place, Mr. Andrew Carr took unto himself a wife in the person of Miss Clara E. Mauk. None of the boys "tumbled to the racket," hence Andy has escaped the customary compliments of the band boys up to this writing, but they may call around yet. Best wishes and long life to you and yours, Andy.

—From what could be gathered concerning Sunday School work in the county it appears that Sunday School work in the county needs looking after by those interested.

We are moving along slow but sure. W. McCalman has put up a large building for a blacksmith and wagon shop.

Whitney Bros. & Co. have built a large addition to their hub factory; they are running every day with a full crew of men, turning out eight hundred hubs per day.

Our merchants, J. W. Kahle and T. J. Reynier, are doing a good business.

Miss Campbell of Tylersburg, has a millinery store here and her goods are going off like hot cakes.

We understand Mr. Bullers is fitting up his building for a feed store.

M. C. Corenger is doing a thriving business in the restaurant.

Z. S. Himes & Son still continue to supply us with the best of beef.

Our school taught by Prof. Rohrer is one of the best in the county.

I went to see Doctor S. S. Towler's mill the other day and found it doing a good business. The doctor is a live lumberman and knows how to put a mill in shape to make lumber; everything about the mill moves like clock-work and his men are as good as could be found in the county.

Thanksgiving Proclamation. The President has issued the following Thanksgiving proclamation: By the President of the United States of America:

In furtherance of the custom of this people at the close of each year to engage, upon a day set apart for that purpose, in a special festival of praise to the Giver of all Good, I, Chester A. Arthur, President of the United States do hereby designate Thursday, the 29th day of November next, as a day of National Thanksgiving.

The prevalence of health, fullness of harvests, stability of peace and order, growth of fraternal feeling, spread of intelligence and learning, continued enjoyment of civil and religious liberty, all these and countless other blessings, are the cause for reverent rejoicing.

I do therefore recommend that on the day above appointed the people rest from their accustomed labors, and meeting in their several places of worship, express their devout gratitude to God, who hath dealt so bountifully with this nation, and pray that His grace and favor abide with it forever.

CHESTER A. ARTHUR, President. FREDERICK T. FRELINGHUYSEN, Secretary of State.

Sunday School Convention. The First Annual Convention of the Forest County Sunday School Association met, according to previous announcement, October 26 and 27, at Tionesta.

The programme was carried out as published, with the following exceptions: Mrs. N. P. Wheeler, on account of sickness in her family, was not present; Dr. Towler and Rev. Toby were not present.

The following schools were represented: Greenwood, Whig Hill, East Hickory, Stewart's Run, Neiltown, both of Tionesta borough schools, and Fagundus.

The exercises were of an interesting character. The sentiment of the Convention was pronouncedly favorable to the view that the Sunday School is invaluable, not only as a Biblical and Gospel nursery and church aid, but as the greatest moral agent the State can find.

News from the upper oil field is rather scarce these days. Anything less than a 500 or 1000 barrel well gets very little attention, and even these are not made much of unless they are struck a little out of the defined limits of the field.

Grandin & Kelly No. 17 made 300 barrels in the first sixteen hours. It was drilled deeper and its production increased a little, but no gauge has yet been obtained on it.

Porcupine Nos. 13 and 14 should be completed the latter part of this week. The Hunter well, opposite this place is still barking away somewhere below 1400 feet. It is confidently expected to reach the sand or quit the drill this week. It may astonish the natives yet, and we hope it will.

Lineville Lines. Mr. E. L. Owens is engaged in fencing up the large tract of timber which adjoins town.

Henry Wise, who lives one mile west of Lineville, accidentally shot himself while out hunting on Tuesday of this week. It was a narrow escape for Henry, the charge taking effect between the eyes.

Andy Rickenbrode is at home with his family. He is operating in the Forest oil field.

The schools in this (Pinegrove) township will commence Nov. 5.

Mr. H. L. Miller and Miss Lizzie Lauler have been visiting at Mr. Emmert's on Dutch Hill.

The teachers in this place were attending institute at Franklin last week. They report one of the best institutes ever held in Venango Co.

J. G. Betz, one of our enterprising merchants is digging a well.

Prof. John Hoy is wielding (or supposed to be) the "gad" in the Lineville "University."

SPECIAL ANNOUNCEMENT. We take pleasure in announcing that we have perfected arrangements with the publishers of the American Farmer that enable us to club that magazine with the FOREST REPUBLICAN at the low price of \$1.75 per year, a trifle over the price of the REPUBLICAN alone.

This is beyond question the first time that a reliable agricultural paper has been offered at so cheap a price, and we trust all our subscribers will avail themselves of this unusual opportunity of securing a first class agricultural magazine. The American Farmer is beyond doubt worth three times the price, at which we place it. Try it. It is a monthly publication.

A Dangerous Counterfeit. There are dangerous counterfeits in circulation purporting to be "Walnut Leaf Hair Restorer." The strongest evidence of its great value is the fact that parties knowing its great efficacy try to imitate it. Each bottle of the genuine has a fac simile of a walnut leaf—blown in the glass; and a Green Leaf on the outside wrapper. The "Restorer" is as harmless as water, while it possesses all the properties necessary to restore life vigor, growth and color to the hair. Purchase only from responsible parties. Ask your druggist for it. Each bottle warranted.

Doctor's Disagree Over a case that Puzzled the Whole Faculty—How a Woman's Life Was Saved—A Remarkable Cure.

A talented reporter of that sprightly journal, the Pittsburg-Commercial Gazette, tells in the most highly interesting manner, a terrible story of the suffering of a gentle little lady named Mrs. Milo Ingram, now 43 Fayettest, Allegheny City, Pa. the daughter of Captain Hugh McKelvey, of the same place. It was told to the reporter by Mrs. Ingram herself, and the news gatherer says it would have been too much to believe only the evidence was close at hand to substantiate every word of what he said.

"It was another instance," says the reporter, "of the culpable ignorance of a large class of practitioners of medicine who, while they pretend to be perfectly familiar with the minutest details of the science, are often brought to bay by some difficult case, which they are ashamed to acknowledge they do not understand. The little lady gave the names of some of the most reputable physicians in the two cities, to whom she had paid large sums of money for treatment, and all they had succeeded in doing was making big fees, while she grew rapidly worse."

Her troubles began about six years ago, when she experienced a fall while attempting to cross a sewer drain that had just been dug. A large swelling came on her right side, which rapidly spread, became very much discolored, and caused the most intolerable pain. She sent for the leading physician of Allegheny, who summoned a consultation of prominent physicians and surgeons who united in pronouncing it a case of malignant cancer, and they told her it was incurable. She next consulted a well known cancer doctor of Kittanning, under whose treatment she remained six months. Her case not manifesting the slightest improvement, she experienced the most excruciating torture all the time. Her relatives took her to Rome, New York, where she remained for two years under the care of Dr. Kingsley. He pronounced it rose cancer, and although he failed to cure her, he very much relieved her sufferings. He also pronounced her case incurable.

The flesh of her breast was eaten away down to the ribs, the breast-bone was laid bare, and the disease made its way upward, causing the breast to become detached from the wall of the chest, hanging loose from above. After awhile this healed partially and the disease made its appearance in the limbs, with even ten-fold greater virulence, not only eating away the flesh, but attacking the bones beneath. It affected both limbs and then broke out on her head and face, affecting her eyes, making her almost blind, and causing her face to swell out of all its former likeness. Her mind was affected, and at last her death became only a question of time. A very reputable herb doctor pronounced her at death's door.

At this juncture, her friends were told of the remarkable recoveries effected by Peruna, and without any real hope of benefiting her, they determined to see if the wonderful remedy would be of any avail in her case. Four months after commencing the use of Peruna she showed remarkable signs of improvement and to-day she is a perfectly healthy woman. All her sores are healed.

Some fearful scars remain behind to tell the terrible story. Her sight is completely restored, and a more grateful patient a doctor never had. She says she never grows tired sounding Peruna's praise.

Mrs. Ingram says they had paid over one thousand dollars to her previous doctors, without any permanent good, and her father would gladly have paid as much for Peruna had a cure been guaranteed. About one hundred bottles of Peruna, each one containing half an ounce of iodide of Potassium, was the whole cost of her cure. She took at first one teaspoonful four times a day, until she took four table spoonful every two hours. Notwithstanding these large doses, her appetite at once improved, and continued good all the time until she was perfectly cured. She gained forty-five pounds while under treatment.

There are only two cases on record where it is known to have required half so many bottles to effect a cure. Generally speaking, ordinary chronic cases require only from six to thirty bottles, and thousands of cases of recent date have recovered perfectly on a single bottle.
