What of the Future.

When the Democratic Senators in Congress get done snaffling the Free Traders so that their purposes shall not become too palpable, to the alarm of investors, we shall be able to form some judgment as to what is in store selected Chicago as the place and June for the country in the next few years. 3d as the date for holding the next That time will come when the com- Republican National Convention for mittees have been made, and they get nominating a President. Senator down to the work of the session. Dwight M. Sabine, of Minnesota, was What the organization wishes to do, elected Chairman of the Committee no one in the habit of informing himself as to current of affairs will be in doubt for a moment. They would put the Legislature of the country in line with the vievs of the Cobden Club; of which most of their leaders are members; from Watterson down or up, if they dared. The difficulty is that they find themselves with a big elephant on their hands in the realization that, they have now control of the house, and do not know where to stable him. It has often been remarked that parties are more conservative in power than when seekring it, and the Carlisle Democrats sare not proving exceptions to the rule, and this is the way it comes. Their theory of free trade did very well to enthuse over while they were talking and anathemetizing protection in their clubs, but when they now have it in their power to give it practical application they shrink from the risk, like men will shake upon the verge of a plunge into ice water. Therefore, they stand "letting I dare not wait upon I would," which will contique until the time comes when Morrison, Hurd and their congeners have the position they can hardly be refused, and then, they not being afflicted with the doubts troubling the Randalls and bidding them go slow, the boost will be given that sends the whole shivering crew into the pool of tariff revision. That this is to be the course is plain from the general tone. of Democratic newspapers all over the country. Only here and there does one of them sound a note of protest; and they are those who have not received notice of what they are to say. This is plain from the fact that none of them are heard to give the segond croak, but follow with the cut and dried talk about the wickedness of high duties for the benefit of monopolies. It is all the same though whether Carlisle or Randall be Speaker. The party, es we have repeatedly said is not the Randalls, the Wallaces, or other leaders of Pennsylvania, but the reactionists of the south who still hope to revive the lost cause. This is why the Telegraph asked, what would have been gained had Randall been elected Speaker? Not what good it would have done Randall, but what difference it would have made to the public. All the men whose public spirit has induced them to invest their capital in productive industries which build up the country can do, is to wait with what fortitude they can command and see what the cranks who imagine the theories of long hired professors coustitute statesmanship are going to do with them.-Harrisburg Telegraph. The people of Obio are beginning to shake in their shoes because Governor elect Hoadly objects to a parade and inauguration ball on his induction into his office. They are scared badly, lest these symptoms the county, except such cities and may pan out into the disease which has so sadly afflicted Pennsylvania for the past year. It does not follow of course, that because Governor Hoadly expresses his taste for simplicity that he is going to slip out the back way and walk up to the capitol to save the cost of a carriage his friends have provided for him to ride in, and then cut the high jinks our Governor has to the tune of more than a half a million wasted treasure in an attempt to compel such legislation as he wants. Still, with the experience of Pennsylvania before their eyes, it is no wonder they shake in their shoes, when they hear their man talking about simplicity. Let us hope they will be luckier than we were.

WATTERSON is so jubilant over the election of Carlisle that he exclaims: "If Pennsylvania cannot fall in with us, she must stand aside." So she expects to do; andj when Pennsylvania "stands aside," as she has been doing for nearly twenty-five years, the chances of the Democrats for electing a President are scarcely worth mentioning .- Norristawn Herald,

NO WONDER.

A Man That Suffered Mental and Phy-sical Agony Eight Years Pro-claims His Happiness.

Mental agony is dreadful, but when that and a physical ailment combine, it is simply terrible. Such was the condition of George W. Frampton, W. Va., for eight years. He was a sufferer of necroses : that is, the legbone at the ankle was inflamed and mortified, which caused a running sore. He says: "Pieces of bone the size of a silver three-cent piece came out of the sore on my leg. The discharge from the sore was almost continual, and I was unable to walk. For eight years I have been doctoring. I have been under the treatment of a physician at Newport, Ky., for a year; another at Burlington, Ohio, attended me for three years, and a doctor here at Huntington, worked with me for a long time. None of them did me any good, and they all finally said my case was hopeless. A few months ago I commenced trying Peruna, and now I am well. have perfect use of my limb. Words are inadequate to describe the mental agony I suffered when I thought I was always to be a sufferer. The thoughts of the affliction caused me more distress than the sore, so the two combined was indeed agony. Being now free from both mental and physical suffering, my happiness knows no bounds. Peruna has furnished me that which I prayed for during my eight years of suffering.
