Dare The Democrats Be Honest.

Speaker Carlisle is reaping a harvest of praise for the judicious manner a which he made up his committees, and we do not doubt but that he deserves it. If his selections mean anything, they mean that he honestly proposes to carry out so far as lies in his low with it the Democratic National power, the traditional policy of his Convention, and a strong movement party as expounded by the Sounthern in favor of St. Louis as the place has wing of it. He could do nothing else and deserves the character he bears for personal integrity and honor. With a strong free trade majority in the Committee on Ways and Means, he has done his part. FOR THE PRESIDENTIAL YEAR, 1884. Weekly Press, - - - \$1.00 a Year. Daily Press, - - - - 38.00 a Year.

The coming year will be notable. Congress, divided between a Republican Senate and a Democratic House, will be busy President-making. The great battle of Protection against Free Trade will agitate the Capitol and the country. The Presidential campaign will be the hardest fought and most exciting political struggle for a quarter of a century. Europe, in the opinion of the best informed, trembles on the eye of a great war.

With such an outlook a live newspaper which prints all the news and tails the whole truth about

With such an outlook a live newspaper which prints all the news and tells the whole truth about it is more than ever a necessity. Such a newspaper is The Philadelphia Pares. Telegraph wires in its own office place it in instantaneous communication with a corps of ever five hundred news gatherers distributed all over the civilized world. The special daily cable service which it shares with the New York Herald covers every phase of activity in European life. No paper excels it in all the elements which go to make up a broad, full, complete journal.

phase of activity in European life. No paper excels it in all the elements which go to make up a broad, full, complete journal.

Besides being a complete newspaper, The Weekly Priss has several special features which put it at the top. The Agricultural Department, enriched by constant contributions from the foremost writers in various branches, gives the practical things that people want to know on the farm and in the garden. The Helping Hand for Women or Home Department, edited by Mrs. Kate Upsen Clark, is full of information, hints and happy thoughts for every wife, mother and head of a household.

A great feature of the coming year will be the highly valuable letters of Joann't D. Weeks on Wages of Working-mon, the general conditions of Labor and the Cost of Living in Europe as compared with America. Mr. Weeks, who had charge of this, subject for the Consus of 1889, has made it a life study, and has been abroad this year conducting a special investigation. His letters will give the facts as to carnings in all the various industries, the purchasing was a wages, atrices, trades unionism, are a great of choice home reading, with puzzles and other matter for the little folks, stories and pastimes for adults and of fashion hotes, recipes, gleanings from our literature, a careful summary of domestic of foreign news, and an earsest discussion of the great questions of the day.
