IRWIN, Chairman. Tionesta, Pa., Feb'y 11, 1884.

An exchange thinks that Hewitt's Presidential boom has been slain by the wespon which Samson used so effectively against the Philistines.

Morrison's tariff scaling bill has been born, but in less than a week many eminent statesmen will be wishing it hadn't. It will be an offspring to make life a burden for its parents.

THE bill redistricting the State of Ohio for Congressional purposes became a law last Tuesday. It gives the Democrats twelve districts and the Republicans nine. That's the way the Democrats do when they have accidental control of a Republicon

So it wants Mr. Morrison nominated on the platform of an honest man.

Judge Acheson, rendered a decision in the United States Court at Pittsburgh, last week, which is of considerable interest to rivermen. It is to the effect that while it is the recognized law that moving crafts are required to keep out of the way of stationary vessels, the latter should be anchored in such a way as to interfere with navagation as little as poss-negligence in this matter the owner or negligence in this matter the owner or owners of the anchored vessels are liable for damages.

The Democratic Tariff.

Tionesta, Pa., Jan. 16, 1884.

If there is to be action on the tariff at this session it is likely to be the theory of the free traders is correct against them as shall be just. Given under my hand and seal this 20th day of January, A. D. 1884. geet as any that is likely to be devised. I

Twenty per cent. reduction from the present low tariff, on all our most important manufactures, and the abolition of specific duties entirely in all cases where the advalorum system can be made to apply, This, if we are not mistaken will make the rate of duties lower by a considerable margin than those of Walker's tariff of 1846 and about the same as the last Democratic tariff-that of 1857. The effect of it may be illustrated by the result in one kind of goods. The tariff of last March reduced the duties on steel railway bars to \$17.00 per ton, and the result was that the importation was largely increased. This bill will reduce it to \$13.60 per ton and be substantially no protection at all. office on Tuesday evening, February, How they expect to reduce the reve-26, at 7 o'clock, to transact important | nue by a bill that must substantially close the mills, unless it be by making the country so poor our people cannot buy, is a puzzle to all unless it may be to the free trade journals. Of course this egregious' folly cannot become a law, until the Democrats control the Senate and the President as well as the House but suppose they succeed this fall then it will be realized. Well as to what the workingmen and farmers, without whose help they cannot succeed, may expect as the result of their victory they have only to look back to the very last loan a Democratic administration asked for, we think to meet the expenses of Harney's Mormon expedition. Five millions was wanted, and average bid was 12 per cent interest. No borrowing then by the nation of hundreds of millions at 3 per cent, but 12 per cent asked for \$5,000,000. Wise and astute statesman. Patriotic party, full of faith in the folly of the people indeed they are if they believe they will be intrusted with power.-Harrisburg Telegraph.

PROCLAMATION.

WHEREAS, The Hon. W. D. Brown, President Judge of the Court of Common bill which has been introduced in the House by Morrison though it could not get the endorsement of a majority of the committee of which he is chairman. This fact is quite nignificant, as suggesting the measure of unity existing in the party. Morrison, determined to make his bid for the Presidency, lets them go when they refuse to go with him and strikes out on his own hook. If the theory of the free traders is correct.
