

STILL IN DOUBT.

The Presidency Still Depends on How York State Cast her Vote.

"THAT SAME OLD COON!"

Still Occupies the Top Rail.

As we stated last week concerning the election of President, so it is this morning—still in doubt. All eyes have been turned to New York for the past week, which State is so very close that nothing but the official count can decide whether she has elected Blaine or Cleveland.

In the meantime let all be patient, and wait for the law to take its course. Justice must and will be done. If Grover Cleveland has a plurality of one in New York he will be our next President.

It will also be seen that the Democrats made large gains over the years 1880 and 1882. In 1880 we polled 325 votes, and in 1882 275. This year Cleveland gets 437, a gain of 112 over 1880 and a gain of 162 over 1882.

For a fine specimen of cheek the above "caps the climax." The Republicans increased their vote 335 over 1882 and 340 over 1880. According to these figures how long will it take the Democrats to get within gunshot of the Republicans? Will some scientific cuss rise and explain? Why Belva Lockwood stands as good a chance of "cleaning out the Republicans next time" as the Democrats do.

One thing may be regarded as certain in the results of the election, which requires no official returns to settle, and that is, that there will be no horizontal or other unfriendly tinkering with the tariff. The reduction of the Democratic majority in the House of Representatives and the increase of the Republican majority in the Senate, shut the door upon that kind of fooling effectually. Should it turn out that Cleveland is elected, he will have to devote himself for distinction to making his Cabinet, taking care of the Mugwump and illustrating high morality in government by dividing the spoils among his followers.

Election Notes.

The vote of Forest county was the largest by ever 500 ever before cast. The Republicans increased their vote 340 over 1880, and 311 over last year. This is certainly a very gratifying showing.

In Pennsylvania the Republicans have made a net gain of four Congressmen. The delegation now stands 20 Republicans, and 8 Democrats. The last Congress stood 12 Democrats and 16 Republicans.

Upon canvassing the returns last Thursday it was discovered, to the surprise of all, that Quintain Jamieson, Republican candidate for Auditor, Quint might have turned the tables the other way had he given the matter more attention, but the emoluments of the office would not justify a man in losing much time in securing it, and Quint's heart will hardly break on account of his defeat.

SEVENTY-SEVEN THOUSAND! That is the way Pennsylvania rolled up the majority for America's greatest statesman, James G. Blaine.

KANSAS, St. John's state, gives Blaine over 50,000 majority. The people out there seem to know all about the saint.

THERE were Democratic gains in Franklin, Lawrence, McKean, Mifflin, Potter, and Venango counties, amounting in all to 503. There were Republican gains in all the remaining counties amounting to 38,192. Pennsylvania Republicans were true to their candidate and true to their principles.

WHERE the power of the Stalwarts in Pennsylvania was the greatest Blaine's majority was the largest. Philadelphia, Lancaster, Dauphin and Allegheny, all Stalwart strongholds, gave him the largest majorities ever given a Presidential candidate, except Grant's second election, which from the circumstances surrounding it, don't count.

In all Pennsylvania there was not a single Stalwart Republican who opposed Mr. Blaine. On the other hand, he received their hearty, earnest, and constant support. If he is defeated, it was not their fault.

The Remingtons, of Ilion.

You must lose a fly to catch a trout is an old saying, and a true one; but is not the investment safe? A piece of iron suggests but little to a village blacksmith. To the Remingtons, of Ilion, it means work, process, development, fame, fortune, everything; a rifle, a plough, an engine, a typewriter, or the sewing machine! It is the same iron, but in different hands. It lives it grows, it travels. It plants itself in every field of war or peace, it enters every town and hamlet, it seeks the merchant in his counting room, and the clergyman in his study; it crosses the threshold of every home, becoming a necessity and a household word. It has character, fibre, force, and makes itself felt. It has power, it asserts dominion, it commands success. The history and travels of a bar of iron in the different departments at Ilion would make an interesting book. The children of our public schools think so, for many of our little ones up and down the land are to be seen daily going to their homes each with a copy of "Sunshine" in hand, on which are the words "Remington" and "Ilion." Hereafter, if advertisements lie not, a farm without a Remington plough, or a home without a Remington sewing machine will be rare indeed.

The Remingtons are the most popular gun manufacturers of America. They have the largest establishment in the world. They build on no man's foundation. They have no superior nor equal in their special line. From any standpoint the work of the Remingtons is a marvelous success.

In 1816, over sixty-eight years ago, Eliphalet Remington founded the works which still bear his name, and to-day the Remington goods are known in New York and in London, in Sydney and in Brazil, in Chicago and in Hong Kong alike, and from the rivers to the ends of the earth the name of "Remington" is a household word. Their business is simply gigantic. It costs over a million a year to run it. The past has been full of work, and the future will simply take up the past, and carry it on through the years to come.
