Good News of Gen. Grant.

A wonderful change for the better has taken place in the condition of General Grant. Ever since the latter part of last week he has been showing marked symptoms of improvement, and gaining strength almost daily.

WORK AT HARRISBURG.

HARRISBURG, April 20, '85. The House abandoned the usual funny business and with remarkable enterprise craved out considerable work for itself. The legal one hundred days exhausted itself on Thursday and now but fifty days remain for which statesmen can draw pay, unless in case of extra session, which by present appearance is very doubtful.

Friday morning session was devoted to buncomb talk on the question of prolonging the sessions. It was finally decided that the sessions hereafter during the morning on Tuesdays, Wednesdays and Thursdays shall be from 9:30 a. m. to 1:00 p. m., while the afternoon sessions shall last from 2:30 to 5:00; the session on Fridays shall last from 9:00 to 1:00.

Mr. Mackin of Phila., offered a resolution that the legislature adjourn sine die April 29th, which was laid over under the rules where it will remain. Mackin, who is inclined to be facetious, offered a resolution that if the members persist in reading bills in place the Chief Clerk be authorized to procure derricks to move the files; the resolution was ruled out of order.

Several members of the largest brewing firms of Philada., were on the floor of the House on Thursday morning as interested hearers on the debate on the proposed increase of the taxes on brewers and wholesale liquor dealers. The entire session of the House was consumed by the discussion of the General Revenue bill, which contains Thomas' proposition to tax brewers and liquor dealers one per cent. on their sales, ranging through twenty classes, from \$100,000 down to \$10,000; the bill is close behind the General Revenue bill and will probably be reached next week.

During the debate on Mr. McCullough's new section prohibiting railroad companies from issuing free passes, Mr. Berry arose in his seat and offered a resolution to deny any officer of a railroad company admittance on the floor of the House, which was acknowledged a wise move, but unfortunately did not pass.

The House passed finally the following appropriation bills: \$700,000 for the continuance of the education and maintenance of the Orphans of Soldiers; for the Penna. Institution for the Deaf and Dumb, \$175,000; to supply a deficiency in the appropriation for the support of destitute Children of deceased Soldiers, \$22,250; for the payment of a part of salary due Diller Luther, \$2000; for the support and maintenance of your correspondent, \$800,000.

THE Democrats who are waiting for an account of the unearthing of great frauds by the Republican rascals at Washington, will still be waiting after many moons have waxed and waned.

HENRI WATTERSON is heard from again, and again he is not en rapporte with the administration. He announces that "The Courier Journal" thinks that Miss Sweet ought to go. Just so. But inasmuch as the administration and not Henri, has the last guess at it, and the administration does not think Miss Sweet ought to go, she will not. And Henri is still out in the cold, cold, storm.

WHILE the country will hear with much satisfaction and joy the news that General Grant is much improved and enjoying some hours of rest from pain, they will accept with little credit the statement that there are hopes of his getting well. Unless the physicians have been mistaken as to the nature and character of the disease and its location, there are no prospects of cure; his life may be prolonged, but cure is impossible. It seems to a layman that a cancer in the throat was impossible of cure. This fact has been the source of much distress to the people during the days and nights of the great soldiers sufferings, but anything that indicates a mistake on the part of the physicians as to the character of the disease is seized upon with avidity.

WASHINGTON LETTER.

From our regular Correspondent. WASHINGTON, D. C., April 17, '85. The talk of the hotel lobbies is the decided change in the character of the office-seekers who are now in the city. "At the beginning of the present Administration," said a Congressman yesterday morning, "every aspirant for official honors wanted a foreign mission, or a consulship, or a berth in the Federal judiciary. Well, that class have gone home disheartened and disgruntled. They are in the mental condition of the man who, before he tried it, was confident of winning a girl, but afterward found that all minds do not run in the same channel. Now we are besieged by another bevy of office hunters who are clamorous for anything they can get—the smallest nubbin in the row—even the little cross-roads postoffices."

Information has been received here that Representative Morrison will be in Washington in the course of a few days. The object of his visit is not definitely known, but the belief is that it has some relation to the senatorial fight in Illinois. Just as soon as the democrats of the legislature are reinforced by the successor of Mr. Ward, who recently died, it is the intention of that party to make a determined effort to elect a Senator. It is understood that every influence of the party will be exerted to that end, and the presumption is that Mr. Morrison, at present the regular candidate of his party, is coming to confer with Gen. Black, Chairman Oberly, of the state committee, and other prominent democratic leaders of Illinois, who are in Washington, as to the best means of concentrating all the strength of the party can command upon some acceptable man. It is still thought, that if Mr. Morrison gets out of the way, Pension Commissioner Black will be put forward.

Hugh Grant, Tammany's defeated candidate for mayor of New York city, called upon the President this week in company with Thomas F. Gilroy and Judge McQuade. Mr. Grant said that they had come merely to pay their respects, and were not looking after any office.

While Mr. Grant and his associates gave out that they were not here after office, friends of Tammany in this city understood that the mission of the delegation was to look after several important government offices of New York city. The customs collectorship was mentioned as being the principal object of the visit; if Tammany's representatives, but they deny it.

The Alert, which was presented to the United States by the English government to be used on the Greely relief expedition, will start from New York next week, commanded by Commander Coffin, for Halifax, where she will be turned over to the English government with the thanks of Congress. She will be manned by about thirty officers and men, who will return by the regular steamers. There is talk in Canada of sending the Alert on the Hudson Bay expedition. The Central American difficulty

has been settled by a treaty of peace between Salvador and Guatemala. Transit across the Isthmus is also unimpeded, and our noble marines can return to their ordinary occupation of guard duty, and appearing in spectacular dramas where soldiers are required upon the stage.

The Hygiene Act.

The following act relating to the study of physiology and hygiene in the public schools of the Commonwealth, and educational institutions receiving aid from the Commonwealth, has passed both branches of the Legislature and received the Governor's approval:

Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by authority of the same, that physiology and hygiene, which shall, in each division of the subject so pursued, include special reference to the effect of alcoholic drinks, stimulants and narcotics upon the human system, shall be included in the branches of study now required by law to be taught in the common schools, and shall be introduced and studied as a regular branch by all pupils in all departments of the public schools of the Commonwealth, and in all educational institutions supported wholly or in part by money from the Commonwealth.

Sec. 2. It shall be the duty of county, city and borough superintendents and principals of all educational institutions, receiving aid from the Commonwealth, to report to the Superintendent of Public Instruction, any failure or neglect on the part of boards of school controllers, boards of education and boards of all educational institutions receiving aid from the Commonwealth, to make proper provision in any and all of the schools or districts under their jurisdiction, for instruction in physiology and hygiene, which, in each division of the subject so pursued gives special reference to the effects of alcoholic drinks, stimulants and narcotics upon the human system, as required by this act, and such failures on the part of directors, controllers, boards of education and boards of educational institutions receiving money from the Commonwealth thus reported, or otherwise satisfactorily proven, shall be deemed sufficient cause for withholding the warrant for State appropriation of school money to which such district or educational institution would otherwise be entitled.

Sec. 3. No certificate shall be granted any person to teach in the public schools of the Commonwealth, or in any of the educational institutions receiving money from the Commonwealth, after the first Monday of June, Anno Domini one thousand eight hundred and eighty-six, who has not passed a satisfactory examination in physiology and hygiene with special reference to the effects of alcoholic drinks, stimulants and narcotics upon the human system.

Sec. 4. All laws or parts of laws inconsistent with the provisions of this act are hereby repealed.

—J. T. Brennan has now for sale 136 acres of warrant 5213 and 5214, Kingsley Twp., probably on the new oil belt. Also 108 acres of warrant 5186, and 79 acres of warrant 5187, in same twp.
