General Grant.

General Grant has kept getting stronger and better nearly all week, and with each day's improvement the hope of his recovery grows stronger. His ultimate recovery, however, is a matter of grave doubt, and it would not be surprising to hear of a sudden bad spell any time.

WORK AT HARRISBURG.

Special to REPUBLICAN.

HARRISBURG, April 27, '85.

The verdict of the Investigating Committee of the Connellsville Miners Hospital is looked for with anxiety; it is the general topic of the day. Dr. Buttermore, the President of the Trustees of the mythical Hospital, arrived here on Monday night; he seemed evidently much disturbed by the uncomfortable facts which the Committee discovered.

Thursday was taken up with the High License Bill, and quite a lively discussion took place; the fight against the bill and on behalf of the liquor dealers was conducted by Mackin. Brooks, of Germantown, upheld his measure against every attack; as soon as the bill came up, on Brooks' own motion, it was amended so as to make the fee for filing a petition for license with the Clerk of Quarter Sessions \$5 instead of \$10.

A number of appropriation bills were considered in the House on Friday on second reading. The leading topic of discussion was on the bill to appropriate \$25,000 to the fish commission.

The president will take up his summer residence at Soldier's Home early next month, occupying the cottage which has been set apart for a number of years for that use. By residing there he will have much more time to himself and will be able to take exercise. He is a great walker, but he is prevented from taking his customary walk by a want of time and an unwillingness to attract public attention by appearing on the street.

WASHINGTON LETTER.

From our regular Correspondent.)

WASHINGTON, D. C., April 25, '85.

No one can take a walk through Washington without being struck with the thought that it is not only a "city of magnificent distances," but a city of abrupt contrasts. This is especially true of the northwestern part of town, where elegant residences sometimes stand opposite or side by side with tumble-down shanties.

The remark has been made, but it is worth repeating, that Washington affords more opportunities for picturesque architecture than any other city. An architect who takes any pleasure in his profession must delight in the oddly-shaped and irregular lots that abound here.

By the resignation of Hon. A. U. Wyman, as Treasurer of the United States, the country loses the service of an honest, faithful official, one who has been of great service, and that Secretary Manning should accept his resignation with regret can be well understood.

THE Philadelphia Record, noting the fact that "President Cleveland's policy so far as developed, meets with the disapproval of many of the long headed politicians," opines cruelly that in measuring their heads they have included the length of their ears in the calculation.

MR. MORRISON, is gradually getting through his brain the fact, that the reason why he cannot get the full vote of his party in the Illinois Legislature, is because there are a few honest Democrats in that body who are not willing to intrust the industrial interests of the country to the hands of philosophers of the British free trade school.

COL. SHACKLEBORD, of New York, thinks all earthly hopes are illusory. He made forty-four speeches in New York and Connecticut last campaign for Cleveland, and applied for the Consul Generalship to Melbourne, endorsed by the committees of both States, and while looking for notice of his appointment he reads how a fellow from South Carolina, who wrote a pamphlet defending Blaine's foreign policy has been appointed to his place.

DEMOCRATS are consoled by the thought that President Cleveland's appointments in Ohio will not please John R. M'Lean.

It is remarked that the more back-bone Governor Pattison exhibits the more he is cordially hated by the Bourbons. But the Governor does not scare worth a cent.

THE war cloud which has hung for weeks over England and Russia thickens daily and is liable to burst forth in a bloody conflict any day. The two great nations are making awful faces at each other.

If President Cleveland had gone over New England with a fine tooth comb he might have found a more unfit man for the Boston revenue collectorship than Pillsbury, but hardly without having a jail delivery somewhere.

THERE are those ungenerous enough to suspect that Vice President Hendrick's extreme solicitude for Mr. McDonald's appointment to the Russian mission was inspired by the fact that three ministers to that court, Jewell, Stoughton and Hunt, have died since 1876, and that it might prove as easy a way, and as effective, to eliminate "old saddle bags" from Indiana politics, as could be devised.

HON. HENRY R. PIERSON, of Albany, Chancellor of the Board of Regents of the University of New York, visited Harrisburg Thursday last to confer with the State officers and members of the Legislature concerning the completion of the work of marking the boundary line between the states of New York and Pennsylvania. This work has been going forward for some years under the direction of a commission representing both states, of which Chancellor Pierson is the head, and it is now nearly finished.

—J. T. Brennan has now for sale 136 acres of warrant 5213 and 5214, Kingsley Twp., probably on the new oil belt. Also 105 acres of warrant 5186, and 79 acres of warrant 5187, in same twp.
