For Associate Judge, Hon, JOHN A. PROPER. For District Attorney. P. M. CLARK, Esq.

GET REGISTERED.

All Republicans should see that their names are on the list of voters of their respective districts. These lists should now be posted at the places of holding the election in each district. Young men, who voted on age at the last election, especially should see that they are registered this year.

THE check of the Ohio Democrat is monumental. At a time of greatest business depression since 1857 he cooly resolves that a "revival of business" has occurred during the last five overproduction, and overproduction is monthe.

He is writing a life of Henry Clay. been greater in Great Britian and It is likely that Schurz will go to longer continued than in this country, Ohio this Fall and do a little stumping for Hoadly and malaria, at \$150 over production. So strong is this per stump.

THE Ohio Democrats have discovered a "revival in business" and "an increase in the value of property" since the advent of the Democratic administration. It is to be hoped they will advertise their discovery so that the people of the country will learn of it.

WE suspect that one trouble with this Administration will be that it will be found to contain too many candidates for president and vice-president in 1888. For president there are Cleveland, Bayard and Hendricks ; for vice-president there are Vilas, Pension Commissioner Black and Manning. All this means trouble to come.

THE Grand Army men in Obio will do their share in putting Hoadly on the shelf. He waited until the elevtive state.

Revision of the Tariff. The activity to be noted in the free trade journals just now, and at the same time a marked lowering of tone tion at the next term of Court, C. M. SHAWKEY, in their manner of treatment of tariff revision, gives color to the report that the protectionist and free trade Democrats have made a compromise, and agreed upon a measure which will be pressed with all their vigor at the coming session of Congress. The current representation now is that the proposed reduction will be about thirty-three per cent., or forty million dollars in the revenue from import duties. This reduction might or might not be borne, if judiciously distributed, without serious detriment to the industries of the country, and if it could be so borne there would be no objection to it on the part of intelligent protectionists, who only insist that the principle of protection shall be maintained; but there is grave doubt of the fitness of theoretical free traders to be the distributors of the reduction, especially when they approach the work with the usual Democratic insincerity and false pretence. They would make the people believe that the depression of trade is due to due to the protective tariff. In making this assertion they take no account CARL SCHURZ has been heard from. of the fact that the depression has and that it is universally attributed to conviction in England, that Senator Edmunds reports of his late visit to that country, "that he found everywhere trade suffering from over pro-

duction." "England" says he "has gone on manufactoring until she has glutted all her markets. There is already a wide spread feeling that England can only save herself and prevent starvation and emigration among her working people by following the example of this country and adopting a protective tariff policy." Even they will not call in question either the intelligence of observation or honesty of representation of Senator Edmunds and they evade the issue by simply ignoring it. Another of their favorite pleas is, that it is an oppression to tax raw materials, and promise all kinds of revival of trade when the mines and quarries of the country

WITH one accord the Bourbon or-

gans are reviling John Rouch because that his assets are greater than his liabilities and that he can pay his debts journals Mr. Roach ought to have announced that he could pay only ten or fifteen cents on the dollar. His determination to pay in full will be looked upon as establishing a bad precedent.

THE Evening Telegraph of this city has succeeded in obtaining from our Record, a specific statement in regard offering some good values. See our to the raw materials it proposes to place upon the free list should the tariff be revised according to the Record's ideas. It would first strike at the farmers of the country and put wool on the free list; next at the mi-ners by making iron ore and coal free; next at the chemical industries, which abound in its own city; then at our flax industry, and finally at salt and lumber. With the exception of chem-icals, these are all industries which, in a greater or less degree, affect the ag-riculturist, whose interests the Record pretends to defend. The opposition the farmers of the country and put to the Record's proposition will come mainly from the agricultural districts of the country. We are glad to ob-tain a definite statement of what the tariff reformers want — Phila. Press.
