Vick's Floral Guide for 1886.

The pioneer seed annual of America, comes to us this year a real gem, not a dry list of hard botanical names but over thirty pages of reading mat-ter, among which are articles on roses, house plants, cheap greenhouse, onion culture, mushrooms, manures, young gardners, and very interesting reading, followed by 150 pages containing illustrations, descriptions and prices of seemingly everythi g the heart could desire in the line of seeds, plants, bulbs, potatoes, etc. It is a mystery how this firm can afford to publish, and really give away, this beautiful work of nearly 200 pages of finest paper, with hundreds of illustrations and two fine colored plates all enclosed in an elegant cover. Any one desiring goods in this line cannot do better than send 10 cents for the Floral Guide, to James Vick, Seed-man, Rochester, N. Y. Deduct the 10 cents from first order sent for seeds.
