Neighboring Notes. John Goodwin of Erie was the successful competitor for a West Point cadetship in a contest held there last week. He was not strong physically, however, and the honor fell to Harry Ferguson of Tidioute, who stood next in the examination.

Calvin Connelly, of McKean county, met with a singular accident the other day. He was stripping tobacco, when a can of Paris green fell on it. Throwing both the tobacco and the potato bug exterminator into the stove, a puff of gas from the burning poison struck him in the face and destroyed the sight of both eyes.—Ez.

A young man in Meadville is said to be in a peculiar strait. He wants to marry a girl, but can get no license, as she is an orphan of 17 and has no guardian—a consenty, in short, in the eye of the law; while in the y. m.'s eye she is all the world. The suspense is terrifying, but all the young man needs is plenty of patience, and, in three years, if the girl don't die or change her mind, he can have her for keeps.—Times.

The peculiar case of Martin Hauns, of Columbus, Crawford county, who is being attended by Dr. Spencer, of Erie, is exciting a great deal of interest in the medical fraternity. Some time ago Hanna injured himself internally by overlifting. He is wasting away by slow and painful degrees, internal abscesses discharging enormously and literally killing him by inches. His weight at the time of the accident was nearly 200 pounds. Now he weighs 100 pounds.—Franklin News.

From an Oldtime Resident.

PALO, MICH., Jan. 21, '86. ED. REPUBLICAN:— Seventy years ago to day if the record is true, I first saw the light of this world in the town of Greenbush, Rensselaer Co., N. Y. In 1837 I found myself in Olean, Cattaraugus Co., N. Y. In 1857 in Newtown (then) Venango Co., Pa., and to-day in Palo, Iowa Co., Mich. There are times in a person's life when it is well perhaps to look back over the past. When I was twenty one, I took my leave of home and came west to seek my fortune. I remained in Olean a few years, and did as many had done before, and many have done since—I married a wife for better or worse, went to Portville, where we lived until we removed to the Newtown Mills, about twenty-eight years ago. At three score and ten I am looking back, and I miss many of the friends that were traveling with me to the better land. In Olean and Portville relatives and friends have passed on before and only a few of the old ones are left. While I have read your paper each week I have noticed from time to time the death of some one with whom I was acquainted, and some with whom I have spent many pleasant hours—Mr. May, Frank Perry, Mr. Shriver, and others. There are many still living at Tionesta and in its vicinity that I would be glad to meet once more on this side of the "sweet by-and-bye."

When I see the names of Judge Aroer and Capt. Knox mentioned in your paper it brings to mind old times. I have looked for the hunters, Bob Guiton and Andy Weller. Have they finished up their hunting? I failed last fall to take my usual hunt, which had not occurred before in some fourteen years. I hope to enjoy at least one more good hunt. I felt like—I won't say what when I read that Calvin Arner was removed from the Post Office.

Last season was one of abundant crops, and plenty of fruit. Potatoes in some sections rotted to some extent, but it was not general. We are having a mild winter, the mercury not being below zero but two or three times and then but three or four degrees. We have now a foot or more of snow and the sleighing is first rate. Jan. 23d, yesterday afternoon, a cold wave struck us, and this morning the mercury was eighteen degrees below zero, and this evening four degrees above. I judge from the accounts I read in your paper that Tionesta has changed wonderfully since I came west. If I should visit the place again, I should find so much improvement there, that I would hardly recognize it. I can hardly think how Kellettsville looks. I can think how it looked years ago about the mouth of Salmon Creek, when J. V. Watson, Cosper, and others, with myself, were sitting listening to the music of the hounds, and watching for the deer to come to water. I think of those times with pleasure. Since I came to Michigan about all the hunting I have done has been without dogs. Three of our party, with whom I have enjoyed some very pleasant hunts, have passed over the river, and three of us are left. I was glad to hear to-day that Mr. Hamilton Stow of Cincinnati, was well. Were it not for the FOREST REPUBLICAN I should be very much in the dark in regard to my friends and neighbors of former years. I am glad that those living at different points along the Tionesta, are enjoying much greater social and religious privileges, than were to be found there twenty-eight years ago. Yours Truly, J. C. PERCIVAL.

Nebraska Notes.

As we note the various points of interest in your worthy paper, we observe Nebraska is left out.

Well, here we are in the midst of a busy lumber season.

The Messrs. Lacy have about finished hauling their boards, which is something over a million.

P. Haskell will have about 13,500 of square timber when all in; half of it is now piled on the banks; also in the neighborhood of a million of boards.

J. B. Haggerty has 60,000 of boards to put in. Several other parties will be noted later. We predict a busy time in the spring if the ice does not steal a march on us.

Mr. Gillfillan of Meadville is one of us again; doing some necessary work on the sawmill.

Among the improvements recently are three new houses, built in what might be termed the suburbs, two of which are occupied. Also a blacksmith shop which is not quite finished.

We are loth to acknowledge that our P. O. and grist mill do not come up to the standard idea of convenience, yet we despair not.

The school is flourishing under the tutorage of Miss Murphy, who gives general satisfaction.

Mr. Fidler has returned from attending his brother's funeral. He reports the cause of his sudden death to spasms of a malignant character.

Read what the people say concerning the ability of Dr. Thomas' Electric Oil to cure asthma, catarrh, croup, cold, etc. Mrs. Dora Keck, of Erie, Pa., writes: "For cough it is decidedly efficacious." (Mrs. Jacob Mellinger of Marion, Ohio, says the same thing.) S. S. Graves, Akron, N. Y., writes: "Had asthma of the worst kind, took one dose of Thomas' Electric Oil and was relieved in a few minutes. Would walk five miles for the medicine and say a bottle for it." Druggist C. R. Hall, Grayville, Ill., says: "Cured an ulcerated throat for me in twenty-four hours." "Saw up to bed and cough, &c. the itching was wet with perspiration. My wife insisted that I use Thomas' Electric Oil. The first respiratory ailment relieved me. E. H. Perkins, Creek Centre, N. Y., writes: "Thomas' Electric Oil is also a Tropic external application for rheumatism, cutaneous eruptions, bruises, etc. When visiting the drugstore, ask him what he knows of it." Dr. Thomas' Electric Oil; if he has been else in the place, he will speak highly of it.

Worked Wonders. "My daughter was very bad off on account of a cold and pain in her lungs. Dr. Thomas' Electric Oil cured her in twenty-four hours. One of the boys was cured of sore throat. This medicine has worked wonders in our family." Alvah Plockney, Lake Mohopop, N. Y.
