WEDNESDAY MORNING, FEB. 10, 1886.

FERRUARY'S early blizzard was ed all over the country and the reports are able to see on every side of us. of intense cold and heavy snowfalls coming from all directions. It has that the time spent at the school house brought with it destruction to vegeta- was profitable and pleasant. The nex tion in some places, loss of cattle in local will be held at Whig Hill on th western cattle countries, and sacrifice second Saturday of June, 1886. of life in some instances.

It is difficult for any careful thinker, accustomed to consider the influences which rule the minds of intelligent men, to understand how the present great telephone scandal can pass away without compelling a reconstruction of the cabinet. Mr. Garland, the Attorney General, ane Mr. Lamar, the Secretary of the Interior, are very deeply implicated in this scandal; and it is incomparably the greatest scandal by which any members of any president's cabinet have ever been affeeted .- N. Y. Sun.

that our Sam Randall has virtually er, Allentown, anti friction bearing surrendered his protectionist views A. J. Lenox, and J. Krepp, Alleghe Traders can avail themselves of to convince him when they really want him. They will be more astonished bill is being prepared by Englishman J. S. Moore, regarded as one of the most facile talking machines the Free Traders have in this country. There prised at, though, considering that it is a purely English job they have on hand, and is very properly intrusted to an Englishman.

GOVERNOR FORAKER, of Obio, has dismissed from office the Cincinnati Board of Police Commissioners. The grounds for dismissal were stated as official misconduct in keeping on the force men of notorious characters and wholly unfit to hold any kind of place on the force. Upon the hearing of the charges, the defense was, that the pardon of the Policeman Mullen had condoned his offense, and he stood as if no such charges had ever been made against him. The counsel of the Board also plead that the Governor's jurisdiction did not extend to the removal of the Board except on the judgment of the courts. The Commis sioners refuse to recognize their re moval and have issued orders to the police inspectors to refuse to obey any orders but what come through the Board. What is called the "boodle gang" and the "coal oilers," seem to be determined to do as much as in them lies, to hold on to power, and prevent purification, even to the extent of riot and bloodshed.

IF Mr. Cleveland has decided to stand by his Attorney General, as report says, so much the worse for Mr. Cleveland. The latter mistakes greatly if he thinks there is a disposition to hound down Mr. Garland. The exposure of the telephone scandal was made in a Democratic paper which aided in electing the present Administation, and the severest things that have said concerning Mr. Garland have appeared in Democratic papers. The Republican papers have contained no more urgent demands upon the President to free his Administration from the scandal by asking for Mr. Garland's resignation than have appeared in such Democratic organs as the New York Sun, the Utica Observer and the Rochester Union. Many other Democratic papers also have frankly admitted that if a prompt and complete denial was not made of the facts already published the scandal was a grave one and compromising to the Administration. So if Mr. Cleveland decides to keep Mr. Garland in his Cabinet he will be giving only another instance of his contemptuous disregard of advice from his own party organs,-Phila. Press.

EDUCATIONAL.

There was a Local Institute beld at Whig Hill, Pa., Feb. 6, 1886. Many valuable thoughts were brought forth, showing that the teachers are fully awake to their duty. During the evening there was an educational meeting held. Prof. Hillard spoke upon the educational advantages of to-day, and closed with an earnest ap-

term, and also the teachers' wages.

R. Z. Gillespie spoke upon Physio ogy and Hygiene, giving reasons wh it is necessary for children to kno the use and abuse of their bodie showing the advantage of a liberal er uestion, and hoped the young people worse than that of January. It reach- would profit by the blasted lives w
