—William B. Hoyt, aged 58 years, died at the residence of his son, Ezra S. Hoyt, in this place on Saturday, July 31, at about 9 o'clock. Mr. Hoyt had been in feeble health for upward of ten years, and for the past four months had not been able to leave his bed. He was the father of six children, three sons and three daughters, all of whom survive him. Mr. Hoyt was a highly respected citizen of Sheffield, Pa., for more than 25 years, whither his remains were taken and laid to rest by the side of a loving wife, who had preceded him in death eight years.

We hope, with all others who expect to use gas, that a satisfactory ordinance will be passed and the admission of gas into the borough be speedily accomplished.

—The REPUBLICAN takes pleasure in extending heartiest congratulations to its young friend J. W. Pettigrew of President, upon the happy event of his marriage with Miss Abbie C. Carbaugh, at the Presbyterian parsonage, Tionesta, on Saturday last. "Billy" is an excellent young man, and has, we learn, made a wise choice in the selection of a life-partner. We join his many friends in wishing him abundant prosperity and joy.

Bray, Presiding Elder, will be present Saturday evening and Sabbath morning to conduct the services. Love Feast Sabbath morning at 9:30, and Communion after the sermon. Rev. —Mrs. J. R. Clark narrowly escaped serious injury while attempting to drive Mr. Clark's horse over the river bridge last Thursday morning. The animal became frightened by a passing train as he was entering the east end of the bridge, and commenced backing until the vehicle went over the abutment, a distance of about 10 feet among the rocks, and finally going over himself. Strange to say Mrs. Clark was only slightly bruised and was able to walk home. The buggy was quite badly damaged, and the horse received some bruises.

—We are in receipt of a large and very carefully executed engraving of the new Standard Oil Company Building, 26 Broadway, New York, which is noteworthy as the finest business structure on the greatest commercial thoroughfare of this continent. —The seventeenth annual reunion of the Eighty-third Regiment Association will be held in this city September 9th, and the third annual reunion of the Northwestern G. A. R. Excursion rates will be made over the railroads. The program is not yet completed for publication, but will soon be ready, and will be perfect in every detail.—Meadville Tribune.

Sherman," by Gen. Joseph E. Johnston, the Confederate General, in which he tells the story of the end of the Confederacy; and shorter articles by Dr. Dexter, Gen. Wm. Farrar Smith, Gideon J. Tucker, Wm. Holmes, Francis L. Ferguson, and ex-Minister Soruggs.

—Use Electric Light Flour, the best in the world for the money. Ask your grocer for it. my5.

—The Tionesta Gas Co. has established its rates, and issued a schedule for the inspection of its consumers. The rates are substantially as follows: For heating, per month, No. 7 burner \$4.44; No. 5 burner, \$3.33; No. 3 burner, \$2.22, with a discount of 10 per cent. if paid before the 10th of the month. These rates will be charged for the months of November, December, January, February and March. One-half rates for April and October, and \$1.11 per month for May, June, July, August and September. For cooking purposes the rates from October first to May first will be, No. 7, \$4.44, No. 5, \$3.33, No. 3, \$2.22. And from May first to October first, No. 7, \$2.22, No. 5, \$1.67, No. 3, \$1.67, with 10 per cent. off for cash. We believe it is calculated that the No. 3 burner will be sufficient for ordinary family use, and the No. 5 for stores, hotels, &c. This brings the fuel down to a very reasonable sum; fully as low, in fact, as wood or coal, to say nothing of the great trouble and vexation saved by its use. The above rates are the same as those of Warren, Pa., where a compromise between the People's and the Penn'a Gas companies was effected, which rates have given entire satisfaction to the citizens of that place. The Company will have completed the laying of its main to the borough limits to-day or to-morrow, and doubtless before two weeks have elapsed will commence making connections. It is our opinion that nine-tenths of the houses in town will take on gas. Hurry on the gas.

Ho, for Niagara!

The B. N. Y. & P. R. R. will give one of its popular excursions to Niagara Falls on Thursday, August 12. The special through train will leave Tionesta at 6:00 a. m., arriving at the Falls at 1:00 p. m., returning will leave the Falls at 8:00 p. m., giving excursionists seven hours to view the sights of that greatest of natural wonders. The fare for the round trip is placed at the nominal sum of \$2.50, which is simply dirt cheap. Those who have never been there should take in this excursion as it will be the only one of the season. Don't forget the date and be on hand early.

Council Meeting.

TIONESTA, PA., Aug. 3, 1886. Council met at residence of Burgess Reck. Present, Burgess Reck and all Councilmen.

On motion it was ordered, That the Borough Ordinance passed July 27, 1886, relating to Natural Gas Companies, not having been accepted by any of said companies, be and the same is hereby repealed.

On motion, the Secretary was requested to notify the President and Secretary of Tionesta Gas Co. of the repeal of ordinance relating to admission of Natural Gas Companies into this Borough, and that they be invited to appear, if they see fit to do so, at a meeting of Council to be held Aug. 9th, 1886, to offer any suggestions in relation to new ordinance on that subject. P. M. CLARK, Sec'y.

Oil News.

The Derrick says, in its monthly oil report for July, that Balltown proper is quiet. At Fool's creek N. F. Clark is drilling a small well. Grandin, Kelly & Co. besides keeping up their end of the skirmish line on 5215, have gone back to the mouth of Phelps's run to drill for an eastward extension of the old field opposite their first two wells on 5214, and James C. Welch is believed to have a well on the Green farm a mile southwest of the Anchor wells on the same warrant. The Green well is said to be plugged. It is on a good line which is all that may be said about it at this writing. If the personal of the prospector has anything to do with the success of the prospect, the well will be a producer. In the event that this is a well, either it is the beginning of a new pool or the narrow suckerrod belt narrowly extended. At the Anchor front the belt is only 300 feet wide, and a mile further along it will be very narrow indeed. It is heading for the narrow space between the Dufur duster and the Hancock & Kennedy dry hole on Whig Hill.

For Sale.

Barnett Notes.

One can see a great deal that is news to himself as he travels along through this district and that, but when he attempts to reduce the same to news for the columns of a newspaper it is like trying to reduce the froth and flutter that fills 11-10ths of a glass of soda water to something that's tangible. It smells good and tickles your nose and face and mustache kindly and pleases your palate while you drink it, or while you think you're drinking it, but try to reduce it to something real and you find it to be simply and solely the product of a previous "fizz"—a "fizzle."

Almost everybody out here is waiting and wishing for a flood in the Clarion.

A colored minister occupied the pulpit in the M. E. Church on the evening of July 27th. The Rev. brother is working through the adjacent neighborhoods in search of funds for the completion of a church for colored people somewhere, we think near or in Mercer. He had a large audience, and preached them a straight sermon. He is meeting with some success in gathering money.

A. J. Wallace will leave the Reid House in October. His future home for awhile at least will be near Balltown where he has oil interests.

Lester Warner of Redclyffe long an esteemed citizen of "Old Forest" is lying quite ill at his home there. We trust he may recover.

The Coleman Mill is shut down on account of scarcity of water to "bracket" logs down the run.

A stove mill is to be put in at the spring near the Fitzgerald school-house before long.

Some time ago a piece of vandalism was perpetrated here that deserves severest censure and punishment. A flatboat belonging to Braden & Elder is lying at Maple creek under the pier there. At the time referred to it was partly loaded with large hemlock plank of three inches thickness, laid lengthwise along the boat, there being a short space where the ends of the plank met. R. J. Hillard lives in the old boarding house standing back from the bank not far from the place where the boat lay. About 3 o'clock in the morning some one of the family was awakened by an unusual light streaming through the window. Inquiry led to the discovery that the boat was on fire. Anson and Philip Hillard were aroused and hurried down to the boat. The fire was burning among the plank near the ends of the piles. At first water thrown on seemed to do no good. Other help was summoned, the plank pulled up, and the fire put out. It had undoubtedly been fired purposely and maliciously.

The school at Oak Woods closed on last Thursday with a picnic.

The Shriver school closed on Friday with a similar good time. Some of the patrons of the school and a number of visitors were present. A table was spread out under "the greenwood tree," seats were arranged, and the feast eaten. There was chicken and pickle and cake—14 kinds and each better than the other—and pie, just one kind, good pie, and all the other et ceteras that help make up a picnic and a good time. TRAMP.

The Wrong Man Caged.

Recently we published a letter from H. H. Wilson, of Townsville, now languishing in the jail of Clarion County, charged with complicity in the murder and robbery of the Everhart family. It will be remembered that Wilson asserted his innocence and stated that he could substantiate his claim when the opportunity was given him. We were favorably impressed with his letter; in fact, we could not believe that it was written by one guilty of a revolting crime, and we took occasion to suggest that the public suspend judgment until the prisoner was given an opportunity to be heard in defense. At the time we published the letter referred to, we had no knowledge of Wilson; but upon subsequent inquiry we learned that he has always borne an excellent reputation with his neighbors and friends, and those who know him best do not hesitate to assert that he has been most foully wronged. Wilson's case will doubtless have to take the usual legal course, but if it can be hurried up it would seem but an act of simple justice that the machinery be set in motion at the earliest possible moment.—Meadville Tribune.
