LOCAL AND MISCELLANEOUS.

—Samuel H. Clark, at his meat market, will pay spot cash for hides of all kinds.

—Prof. Hillard is not yet fully decided as to when he will call the next teachers' institute to order.

—A good 85 horse power portable boiler for sale, with good iron stack. Address or inquire at this office.

—Jake Siggins and Ernest Sible departed for Shannopin, the new oil field below Pittsburgh, on Monday evening.

—The entire male populace—except those who couldn't leave their business or borrow a gun—has been hunting for deer tracks since Monday.

—Governor Pattison promptly trots out his Thanksgiving proclamation. There is something to be thankful for this year, as he has just learned from the returns.

—Slidin' on the sidewalks has occupied the attention of the "small pbr" for the past two days, but is played out now, until another squall comes along.

—A deer was driven into the river at the West Hickory depot on Monday and was captured by some parties there. Two others also came in, but they escaped unharmed.

—G. W. Robinson has had the roof of the south wing of his store building raised so as to add another story, and an iron roof put on the whole, making it thoroughly water-proof.

—Many of our citizens are still compelled to haul water from the river for washing purposes. Should it water up in this condition some of the denizens will see dry times before spring.

—The next legislature of Pennsylvania will stand, Senate, Republicans 34, Democrats 16; House, Republicans 136, Democrats 65. Total, Reps. 170; Dems. 81; leaving majority on joint ballot of 89.

—The election table published in our paper last week not being absolutely correct, we reproduce it this week revised and corrected from the official figures as canvassed by the court on Thursday last.

—Assessor Canfield is around with his detestable assessment blanks that no fellow that wears hair can begin to understand. It's a very pleasant occupation; pleasant for the assessor and pleasant for the taxable.

—Larry Donovan, a young New York printer jumped from the Niagara suspension bridge, a distance of 190 feet into the river on Sunday last. He sustained only slight injuries, the breaking of one rib being the worst.

—The Sunday Venture, published at Corry, Pa., by Northrup Bros., is a new candidate in the field of journalism. It is not large, but bristles all over with originality and fresh local news. We think the Venture is a "go," and hope we're right.

—It is Major Canfield who has the contract of stripping the Sickles tract of its timber, and Rob. Huddleson and Geo. H. Jeman are sub-contractors. We stated a week or two ago that it was George alone, which was wrong. We're bound to be correct if it takes the hair off.

—The band boys gave Hon. Charles A. Randall, For-est's Representative-elect, a delightful serenade on Friday evening last, to which Charley responded with the best cigars in the house. Mr. Randall has received the congratulations and best wishes of his numerous friends in profusion since his election, and we predict for him a very successful career at Harrisburg this winter.

—Messrs. Scowden & Clark have three new wagons about ready to turn out, for which they have already got customers. These gentlemen are building up an excellent trade by honest, first class work and fair dealing.

—A flock of wild geese lit in the river Monday but remained only long enough for two or three enthusiastic gentlemen to get to the banks with their shot guns, and then "hounded" a last farewell to the boys and departed for Dixie.

—Mr. Alexander Mealy, of Church Hill, Ohio, paid a visit to his many old friends in this section during the week. He was enjoying excellent health, and it gives us pleasure to note that he is prosperous and happy in his new home.

—P. M. Clark Esq., the Congressional return judge from this county, returned from Kittanning this morning, where the judges met yesterday. Mr. Geo. W. Osgood was the Senatorial return judge, and carried the returns from this county to Ridgway.

—A nice young doe came down to the creek bank near Lawrence & Smearbaugh's mill pond, on Monday afternoon, and coolly laid down to rest or hide, in sight of Geo. Went who was at work on the opposite side. George slid down to the house, got his gun and plunked the critter through the heart, at a distance of about 150 yards.

—Our lively young Republican friend, and Hickory's popular station agent, F. A. Wheeler, sends us the following enthusiastic effusion on a postal card: "Please send the REPUBLICAN to me right along. I've got \$1.50 left after election. Didn't we put it into 'em? Republicans weren't buried deep enough in '84. Hurrah for us!"

—The heaviest snow of the season, and about the only one of any consequence came softly down on Saturday night, and on Sunday morning the ground was covered to the depth of about six inches. More was added Sunday night, and on Monday morning there was a most tempting "tracking snow." Up to this writing, however, no venison has touched the market. But then, we haven't been out yet.

—The Kittanning, Armstrong county, Republican pays our townsman, Mr. Tate, the following handsome compliment: "Our County Chairman, D. B. Heiner, deserves the thanks of every Republican in the county for securing the services of such an able speaker as Miles W. Tate, Esq., who spoke to the people in the northern part of the county during the last two weeks of the campaign. Mr. Tate is one of the prominent attorneys of Forest county and his stirring speeches had a telling effect in every district in which it was his good fortune to be. We hope we may have him with us during another campaign, as there is no doubt his services are of great value to the party."

—Mr. and Mrs. T. Fredo. Thomas, of New York and Mr. Fowler and mother of Brooklyn, are Tionesta's guests this week. Twenty years ago, when this section was "all torn up" in the great oil excitement, these gentlemen were among the Eastern capitalists who came to this country and made investments of more or less value, and can tell much that is entertaining about those stirring times, when a piece of land containing a little marshy ground would readily bring any figure the owner was disposed to ask for it. Messrs. Thomas and Fowler's interests are located on 5183, Tubbs Run, in Green twp., which is among the most valuable oak timber tracts now remaining in this section.

—Of the 2,027 children in the Orphan Schools of this State there are 755 Methodists, 290 Presbyterians, 243 Lutherans, 109 Baptists, 99 Episcopal, 87 Catholics, 54 Reformed, 39 Church of God, 25 United Brethren, 14 Disciples, 33 Evangelical, 15 Dunkards, 13 United Presbyterians, 9 Congregational, 8 Friends, 5 Moravian, 5 Adventists, 5 Universalists, 3 Menonites, 2 Swedenborgians and 206 Protestants not representing any particular denomination. During the year 11 children died. Of the children in the schools 1,327 belong to class one, where the father is dead, and 845 belong to class two, where the father is living, but permanently disabled by wounds or disease contracted in the army.

—United Presbyterian services will be held in the Presbyterian Church on Friday and Saturday evenings of this week at 7:30, and on Sabbath morning at the usual hour. After the sermon on Sabbath morning the Sacrament of the Lord's Supper will be administered. There will also be a sermon on Sabbath evening. Other announcements will be made from the pulpit, Rev. J. M. Imbrie will officiate.

—An exchange says: A Meadville man has invented a natural gas shut-off. The instrument is so constructed that when the gas is on the pipe leading to the stove is held by pressure on a large valve surface, which, should the supply give out, is instantly reversed, so that should the gas start up again the pressure holds the valve down instead of up, and no gas can reach the stove until the valve is opened by hand. The instrument is intended for adjustment to the supply pipe, anywhere before it reaches the stove.

—The main line of the Columbia Gas Company parted yesterday forenoon in the Allegheny river, which stream it crosses this side of Reno. The break was occasioned by the contraction of the pipes, the cold causing them to draw apart about the center of the river. Sup't Dickey was promptly at the spot and soon had a large force of men at work. Operations progressed under difficulties, owing to the cold and the fact that the pipe is buried in the bottom of the stream, the water being over two feet deep at the point of disconnection. About 2 p. m. the necessary repairs were completed and the gas turned on, which must have been a relief to the numerous consumers at Meadville and along the line, who were left in the cold on the coldest Sunday of the season.—Franklin News We hope Tionesta won't be caught like this during the coming winter, but it is well enough to be sort of half prepared anyway.

—A correspondent writing to the Edinburg Observer, has this to say of some of the industries of our county: "Along the Little Road, from Knox to Sheffield, many, and some very important improvements are in progress on all sides. The large tannery, which had lain more or less idle for some years back, is now in operation and running at its fullest capacity, giving employment to a great number of hands and stimulating all other business pursuits along the line of the Road. At Byrom Station four years ago nothing was there but one log house, and that still remains and is now occupied as a house of worship by the Free Methodist church. The town at present consists of 30 or 40 inhabitants, while Pigeon, another small town close by has about the same number of residents, and from all indications the space between the two will be built up solid in two or three years. In Byrom there are two good hotels, one store, and another one coming in in the near future, and there is a fine M. E. Church building in course of erection. There are a number of saw and shingle mills in this section, and the lumber and bark trades are immense—in fact everything is booming."

The Reason Why.

Many comments have been made on the recent reluctance of Mrs. Cleveland to enter society this winter and the probability is that she will not. All sorts of reasons have been assigned but the most plausible is the following, which is from the Boston Herald: "Mrs. Cleveland is not seeing so many visitors as formerly, and these only by appointment. She rides out every day. A young lady who has been in the habit of calling upon her tells me that there is beginning to be a little air of mystery about the domestic life of the White House, and that even the ladies of the cabinet wear a far-away look and speak in an indefinite way when asked about her, which may, perhaps, be a gentle way of hinting that too many questions should not be asked, and the life of the family in the white house is entitled to the same protection from impertinent inquiry that belongs to any other family. At the same time, the kindness of the public interest in the welfare of his household can hardly be a source of real annoyance to the president. If Mrs. Cleveland does not appear in public for a time it need not be assumed that she remains at home merely to avoid meeting Jeff Davis's daughter at Richmond, or because she does not approve of the erection of the statue of liberty in New York harbor."

Governor Pattison's Proclamation.

HARRISBURG, November 4.—The following proclamation was yesterday issued by Governor Pattison in conformity with the proclamation of the President: In the name and by the authority of the Commonwealth of Pennsylvania, Robert E. Pattison, Governor of the said Commonwealth: WHEREAS, According to a time honored annual custom, a day is set apart, by proclamation, for a general acknowledgment to God, from whom all blessings flow, for the mercies and immunities he has granted to us: Therefore, I, Robert E. Pattison, Governor of the said Commonwealth, do hereby designate and set apart Thursday, the 25th day of November, to be observed and kept as a day of thanksgiving and prayer. While we remember with a sincere and practical sympathy our fellow creatures who have been called to suffer through afflictive dispensations of Providence, within our own State and throughout the Union, let us show our gratitude to Almighty God for whatever exemption from the sorrows of life we have enjoyed. And for the liberal yield of the precious fruits of the earth, the integrity of our free institutions, the progress of education and religion, the revival of business interests, and the general happiness of the people, let us render thanksgiving unto Him and pray for the continuance of the same.

"Thou shalt keep the feast which is in the end of the year when thou hast gathered in the labors from the field." Given under my hand and Great Seal of the State at Harrisburg, this third day of November, in the year of our Lord, A. D. 1886, and of the Commonwealth the 111th.

W. S. STRENGER, Secretary of the Commonwealth. By the GOVERNOR.

A Captain's Fortunate Discovery.

Capt. Coleman, schr. Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for Consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schooner. Free trial bottles of this standard remedy at G. W. Bovard's Drug Store.

An Excellent Opportunity.

We have arranged with the publishers of the American Farmer whereby we are enabled to offer that excellent journal to all new cash subscribers to the REPUBLICAN, and to all present subscribers who will pay up all arrearages and a year in advance, an advance of only 25 cents. The price of the American Farmer is \$1.00 per year, and cannot be had except through us at a less cost. It is a sixteen-page Agricultural Magazine, published by E. A. K. Hackett, at Fort Wayne, Indiana, and which is rapidly taking rank as one of the leading agricultural publications of the country. It is devoted exclusively to the interests of the farmer, stock breeder, dairyman, gardener, and their household, and every species of industry connected with that great portion of the people of the world, the Farmers. They cannot well get along without it. It puts new ideas into their minds. It teaches them how to farm with profit to themselves. It makes the home happy, the young folks cheerful, the growler contented, the downcast happy, and the demagogue honest.
