Two weeks ago last Saturday a happy party passed through this place for their annaul hunting expedition in the big woods on Salmon Creek, this county. The party consisted of our former townsman, Clinton D. Baker and brother Will F. Baker, of Spring Creek, Warren county, James Baker, O D. Freeman and Josh Stevens of Findiny's Lake, N. Y. and Wilkes Harvey of Elyria, Ohio. Clint. was obliged on account of business to leave camp after remaining two days. leaving the balance of the party in the best of spirits with a couple of deer to their credit. During the storm of last Thursday night, or about Valley oil .- Derrick. two o'clock Friday morning, a large hemlock tree fell against a maple uprooting it, and the two trees falling across the shanty in which the hunters were sleeping, completely crushing in one side of it, and instantly killing O. D. Freeman. During the terrible excitement of the moment the men extricated themselves as best they could, and if they were frightened for the moment, they were appalled to find that one of their companions had been crushed to death. All were more or less severely injured, but none seriously. The unfortunate victim was instantly released, and as quickly as possible his remains were conveyed to Kellettville, a distance of nearly six

miles, and from there the sad and almost heartbroken party took their departure for home ou Saturday. The party had slain seven deer, was having a royal time and had arranged to break camp on Saturday, when this most distressing accident overtook them, changing joy and mirth into sadness and bereavement, as well as blighting a once happy home forever. Mr. Freeman was aged about 32 years,

and leaves a wife and three children, besides a host of friends to mourn his swift and unnatural taking off. He was a brother-in-law of Mr. C. D. Baker, and owned a flourishing drug store at Findlay's Lake, where he was

The shanty is located near what is known to the hunters as "Mudlick," and has been occupied by many of our townsmen during past hunting seasons. The side of the shanty which was completely crushed in was the one which had formerly been used for the "bunks," but on this occasion the sleeping and cooking departments had fortugately been reversed, otherwise the entire party might have been killed.

It is said that during the severest of the storm, one of the party got up and went out, and it was afterward discovered that in the exact spot where he had lain a huge limb had come through and buried itself deep into the ground. This story, however, lucks confirmation.

UTTERLY DISCOURAGED expresses the feeling of many victims of rheumatism, neuralgis, sciatica and ner-vons or sick headache. Having tried numberless so-called remedies, and physicians of all schools, without relief, there seems to be no hope. Many such have as a last resort tried Athlophoros, and to their surprise and joy have found that it was a safe, sure and quick cure. Athlophoros is not an experiment; thousands have been cured by its use and they testify as to its value. Shekomeko, Dutchess Co. N. Y. Aug. 20, '86

I took Athlophoros according to direc-tions; it caused a ringing in my ear that was not pleasant, it operated on my heart causing a slower and fainter throb, and constipated my bowels. When the last dose was taken I did not think much of the medicine; the next day my lameness was better, and continued getting less until it left me. My lameness was in my back, shoulders and neck, and had been for eight months. I was advised to try Athlophoros by my neighbor, Wm. Jackson, who had taken a bottle of it for a severe attack of lameness in his shoulder and arm. He said "it drove the lameness right out of me; my head felt strong, and my heart almost stopped beating; I thought I would die, but I came out all right, and have not had any lameness since." Amon BRIGGS.

Phelps, N. Y., August 13, 1886. I am a practicing physician; I pre-scribed Athlophoros in a case of inveterate rheumatism of the right shoulder and arm. This case had been of weeks standing-yes months-and resisted medicine carefully selected, also the use of electric treatment. One bottle removed all the trouble. The case remains well, now over a year since using the medicin
