THREE thousand miles of salt water between Daniel Manning and the Administration which he created are well calculated to make him thankful that he is a private citizen.

REPRESENTATIVE SCOTT, of the Erie district, according to some of the Washington correspondents, stands closer to the President than any other man. So far, however, he has not stood so close as to he able to step over into the Cabinet.

Some of our contemporaries, who do not know as much about the Scriptures as they should, are printing dollars (\$10,000) from his personal a paragraph stating that Saint Paul has one great advantage over Minneapolis, as it is frequently mentioned this Boro', in which he lives. But the in the Bible. Will one of these Bib. fact, Mr. Editor, is that J. B. Agnew lical scholars please point out the has no creditors scrutinizing his financhapter and verse where Saint Paul is cial standing, and has no judgments mentioned ?- Pittsburgh Chronicle.

WE'RE not among those who view the state of the President's health with alarm. Some doctor in Washington has been raising many fears and some hopes by predicting that Mr. Cleveland is in danger of dropping off suddenly from causes induced by too much fat and too little exercise. Dan Lamont's statement that the President takes a good bit of exercise and weighs less than when he entered the White House gives the quietus to the medical alarmist. The chances

are all in Mr. Cleveland's favor. He has seen a great deal of official life, he is a remarkably lucky Democrat, he is tough, and he has an able stom. O. C. Brownell, hotel..... ach and a strong will. We confidently believe that he won't condemn us to go through the agonies of mourning for another "martyr" President, with its endless wind work and erection of costly monuments, on paper .--Franklin News.

The Facts in the Case.

ED, REPUBLICAN :--

Among other slanders written and published by Kepler in the National Democrat of the 25th inst., is a pretended communication signed "R," in which he says "the keenest scrutiny of his (meaning Agnew's) creditors has failed to find a well, or single barrel of oil, anywhere, or anything else of a tangible nature, in J. B. Agnew's pame."

Now, Mr. Editor, if Jake Kepler had had the records of Forest county searched, he would have found deeds on record to J. B. Aguew for from three to five bundred acres of land, free of incumbrance, and also numerous valuable leases and oil rights. And if you, sir, or any other gentleman, will call at his office, he will show you the title papers in his own name for about one thousand acres more; also for his interest in Balltown and other valuable leases and producing interests in about the number of wells stated in the Derrick, which together with his interest in oil well machinery and personal property would enable any creditor that he might have to realize at least ten thousand property alone, to say nothing about the valuable home built by him in

due upon the records against him, and no just liabilities that he has not the cash to pay. His word and credit are good for thousands. After his losses in 1872 and 1873 he paid his debts like a man, and satisfied all old judgments and liens against him.

A GREAT MISTARE

Warrensburgh, N. Y. Enclosed find postal note for one-half dozen bottles of your Athlephores. It is wonderful how it cures every case where 1 wonderful how it cures every case where 1 can persuade them to try. The sales are increasing. My sister-in-law was given up to die by the doctors; they sent for me; I took a bottle of Athlophoros and persuaded her to try it, the second dose gave relief. She had not lain in bed for two weeks; the wart sink the mean to be it. the next night she went to bed and slept all night; in one week she was up and at work around the house. Many thanks,

MES. JNO. D. NUTTING. It is owing to Athlophoros that I am alive. I have suffered with inflammatory rheumatism for years, most of the time berheumatism for years, most of the time be-ing perfectly helpless. But one bottle of Athlophoros has cured me. There is mo-thing like it for the speedy relief and per-ment cure of rheumatism, so I recommend it to all, knowing it will accomplish what it claims to do. Mns. E. Free Trade.

The reduction of internal revenue and the taking off of revenue stamps from. Proprietary Medicines, no doubt has largely benefitted the consumers, as well largely beuefitted the consumers, as well as relieving the burden of home manu-facturers. Especially is this the case with Green's August Flower and Boschee's German Syrup, as the reduction of thirty-six cents per dozen, has been added to in-crease the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75 cent size. The August Flower for Dyspepsia and Liver Complaint, and the German Syrup for Cough and Ling troubles, have perhaps, the fargest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in cive y town and village in civilized countries. Sample bottles for 10 cents remain the same size. bottles for 10 cents remain the same size

An accident occurred about 1 o'clock Friday morning last, near Lectonia, Ohio, on the Pittsburgh, Fort Wayne and Chicago railroad, by which one person was killed and a number of passengers injured. The express train which left Chicago in the morning had reached Lectonia. There is a heavy grade at this point and the engineer discovered that an air brake hose was leaking. He stopped the train, and while examining it -fraight train came -Loug and crashed inte the rear end, completely telescoping the sleeper and a passenger car next. The engineer, Wm. Beall, of Allegheny, who was underneath the engine at the time fixing the air brake, was horribly crushed and killed almost instantly.

THE real reason why Diestons, the Philladelphia saw makers, do not intend to remove their plant to Western to the satisfaction of his constituents, Pennsylvania is said to be because and now enjoys the respect and confithey are about to introduce into their dence of his friends, and requires -no steel works a fuel gas in the hope of vindication from slanders emanating successfully meeting the competition from that source. of iron and stee! workers who utilize natural gas. The scheme does not appear rosy at this end of the state. Manufacture must be on an extraordinarily cheap scale to compete with lavish nature, whose laboratory requires no hired labor and purchased material to keep running. No doubt the time will come when coal and other fuel will be most profitably utilized after being first converted to a gaseous state, but so long as the subterranean gasometers hold out manufacturers, on the gas belt can afferd to look with complacency on the efforts of science to improve on nature. - Blizzard.

My attention has been called to a statement in the public press, which utterly misrepresents my sentiments and those of Woman's Christian Temperance Union. "The Pittsburgh Times" having first pub-lished the item, and then declined to in-sert in its columns a denial over my own signature, I am compelled, in justice to myself, and for the honor of our Union to adopt this method of correction. I did not say to any one, that I was in favor of high license, for I am not, * * * The State Union which I have the honor to The represent stands a unit for the principles of prohibititon, constitutional and statutoof prohibiliton, constitutional and statuto-ry. The statement is also made that Mrs. Wittenmyr had been in Harrisburg in the interest of a High License Bill, and speak-ing throughout the State for it, which is false in every particular, and, to those who know her and her life work, is simply absurd. She has been in Harrisburg in the interest of a constitutional prohibi-tory amendment and other legislation in which we are interested.
